The Bank has significantly expanded its branch network to expand its reach and further enhance its deposit franchise. At July 21, 2008, the Bank had 1,388 branches and extension counters and 4,233 ATMs.

### Credit growth

Consolidated advances of the Bank and its overseas banking subsidiaries and ICICI Home Finance Company increased 20% to Rs. 257,287 crore (US\$ 59.8 billion) at June 30, 2008 from Rs. 215,293 crore (US\$ 50.0 billion) at June 30, 2007.

### International operations

ICICI Bank's international business continued to focus on:

- Building a retail deposit base which gives the Bank access to low cost deposits on a sustainable basis: ICICI Bank UK Plc and ICICI Bank Canada raised about US\$ 1.5 billion of retail deposits in Q1-2009.
- Being the preferred financier and adviser for overseas acquisitions by Indian corporates and strengthening the global syndication network: The Bank was ranked #1 in offshore loan syndications of Indian corporates during January-June 2008.
- Being the preferred bank for non-resident Indians: The Bank's remittance volumes increased by 35% in Q1-2009 to about Rs. 11,400 crore (US\$ 2.6 billion) compared to Q1-2008.

#### Asset quality

At June 30, 2008, the Bank's net non-performing assets constituted 1.74% of net customer assets<sup>1</sup>.

#### Performance highlights of insurance subsidiaries

ICICI Prudential Life Insurance Company (ICICI Life) increased its overall market share from 12.7% in FY2008 to 13.8% during April-May 2008 on the basis of retail new business weighted received premiums. ICICI Life's new business weighted received premium increased by 46% in Q1-2009 to Rs. 1,178 crore (US\$ 274 million). ICICI Life continued to grow its operations and new business volumes and expand its distribution infrastructure. While this resulted in the reduction of the consolidated profit after tax of ICICI Bank by Rs. 238 crore (US\$ 55 million) in Q1-2009, ICICI Life's unaudited New Business Profit (NBP)<sup>2</sup> in Q1-2009 was Rs. 240 crore (US\$ 56 million). This translates into an NBP margin of 19.1%. The assets held by ICICI Life were Rs. 26,967 crore (US\$ 6.3 billion) at June 30, 2008.

ICICI Lombard General Insurance Company (ICICI General) increased its overall market share from 11.9% in FY2008 to 13.3% during April-May 2008. ICICI General's premiums increased 21% on a year-on-year basis to Rs. 1,077 crore (US\$ 250 million) in Q1-2009. Despite pressure on pricing in the de-tariffed environment and continuing investment in distribution, the company maintained financial breakeven.

<sup>1</sup> Customer assets include loans and credit substitutes

<sup>2</sup> Life insurance companies worldwide make accounting losses in initial years due to business set-up and customer acquisition costs in the initial years and reserving for actuarial liability. Further, in India, amortization of acquisition costs is not permitted. These factors have resulted in statutory losses for ICICI Life since the company's inception, as its business has grown rapidly year on year. If properly priced, life insurance policies are profitable over the life of the policy, but at the time of sale, there is a loss on account of non-amortized expenses and commissions, generally termed as new business strain that emerges out of new business written during the year. New Business Profit (NBP) is an alternate measure of the underlying business profitability (as opposed to the statutory profit or loss) and relevant in the case of fast expanding companies like ICICI Life. NBP is the present value of the profits of the new business written during the year. It is based on standard economic and non-economic assumptions including risk discount rates, investment returns, mortality, expenses and persistency assumptions. Disclosure on economic assumptions are available in the annual report for the year ended March 31, 2008.
