ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

The following discussion contains forward-looking statements involving risks and uncertainties based on our current expectations and the development of our business. All statements in this report relate to our intended business plans, prospective financial operations and expected future growth or profitability constitute forward-looking statements. Forward-looking statements are subject to a number of risks and uncertainties. Our actual results may differ significantly from those anticipated or expressed in these statements. You should read the following discussion and analysis in conjunction with the audited financial statements (and notes thereto) and other financial information of our company appearing elsewhere in this report.

OVERVIEW

We were incorporated on August 11, 1999, and seek to license toy designs to toy manufacturers and to act as a toy inventor's agent in licensing toy designs developed by others. Additionally, we will seek revenue from the sale of banner ads on the web page we plan to create. However, the expectation is that any revenue from the sale of banner ads will be minimal. Our licensing efforts began with twenty-seven toy designs which were acquired from Kaplan Design Group, a New Jersey general partnership. We expect to market those toy designs by both direct meetings with toy manufacturers' representatives as well as through a website that will give the manufacturers an opportunity to review pictures and descriptions of new inventions at a single source in order to decide whether a face-to-face meeting would be useful.

Our plan of operations for the next twelve months includes hiring a web designer to build our web page, and soliciting new toy designs. The web page will take approximately four months to build and will cost approximately \$25,000. We plan to hire a web designer later this year. We will rely on Ed Kaplan and Doug Kaplan's contacts in the toy industry to solicit new toy designs. We plan for the web page to also solicit new toy designs. Also, during the next twelve months, Ed Kaplan will market our current toy designs directly to toy manufacturers' representatives.

From inception to the time of filing this report, we have been developing our business and had no operations. We anticipate that we will be able to fund planned operations through approximately December 31, 2002. We believe that we will not need to raise additional funds in the next twelve months.

INTELLECTUAL PROPERTY

We have no trademark, copyright or patent protection at this time. None of the designs we own are protected by patent protection. Generally, while some toy designs may be entitled to patent protection, the majority of toy designs will not meet the criteria for a utility patent protection. Some designs may be eligible for a limited degree of protection provided by design patents. However, in general, most designs are protected only under the law of trade secrets. Under the law of trade secrets, the secret is legally protected only for so long

Edgar Filing: INVENTOY COM INC - Form 10QSB

as it is not disclosed to others other than by someone under an obligation to maintain its secrecy.

COMPETITION

We expect to face intense competition both in our efforts to market new toy inventions to toy manufacturers and in our efforts to get new inventor customers for whom we can act as agent. There are several other companies seeking to assist toy inventors, one of the more successful companies is Haystack Toy Company. Insofar as marketing toy designs to the manufacturers is concerned, the major competition will be from the manufacturers' own in-house design departments. There are also approximately 150 independent toy design companies, many of which are sole proprietorships. The principal bases on which industry participants compete is on the perceived value of the toy design concept and the likelihood of it being manufactured and marketed.
