(General Secretary)

Philips announces Consumer Lifestyle CEO Andrea Ragnetti to leave Philips

April 19, 2010

Amsterdam, The Netherlands Royal Philips Electronics (NYSE: PHG, AEX: PHI) today announced that Andrea Ragnetti will, in alignment with the company, relinquish his position of Chief Executive Officer of the Consumer Lifestyle sector and Member of the Board of Management and leave Philips per September 1, 2010. A successor to Mr. Ragnetti will be announced in due course.

We have strong appreciation for Andrea's large contribution to the change process in Philips and I regret to see him leave, Gerard Kleisterlee, President and Chief Executive Officer of Philips, said. Over the past years Andrea has played a leading role in strengthening our customer focus, building marketing competence and repositioning the brand with the adoption and implementation of sense and simplicity – the brand promise that has become so important and successful for us. Most recently, he has been responsible for the integration of the former CE and DAP activities into a single Consumer Lifestyle sector, which has under his leadership successfully transformed into a very profitable consumer products powerhouse. His work for Philips will continue to benefit both this sector and the company as a whole for years to come.

After eight very intense years at Philips, I am going to take a long delayed break and leave Philips, Andrea Ragnetti, Chief Executive Officer of Consumer Lifestyle said. By the time I leave we will have completed the first phase of the merger of former CE and DAP into one larger and more successful Consumer Lifestyle sector. We are already well on our way to exceed our ambitious targets in portfolio management, synergies and profitability, including the turnaround of the TV business. It is a good time for me to leave Philips and I am grateful to Philips and to Gerard Kleisterlee for having given me the unique opportunity to be part, in various leadership roles, of the huge transformation process of this great company. I am also happy to leave the sector in the capable hands of a very strong management team that has already showed all its resilience and quality leading the sector successfully out of an unprecedented economic crisis.

Mr. Ragnetti joined Philips in January 2003 as Chief Marketing Officer, and at that point became a member of the Group Management Committee of Philips. On April 1, 2005, he was appointed Chief Executive Officer of Philips Domestic Appliances and Personal Care, in addition to his duties as CMO of Philips. In April 2006 he became a member of the Board of Management. With the formation of Consumer Lifestyle on January 1, 2008 Mr. Ragnetti was appointed Chief Executive Officer of the sector.

About Royal Philips Electronics

Royal Philips Electronics of the Netherlands (NYSE: PHG, AEX: PHI) is a diversified health and well-being company, focused on improving people's lives through timely innovations. As a world leader in healthcare, lifestyle and lighting, Philips integrates technologies and design into people-centric solutions, based on fundamental customer insights and the brand promise of sense and simplicity. Headquartered in the Netherlands, Philips employs approximately 116,000 employees in more than 60 countries worldwide. With sales of EUR 23 billion in 2009, the company is a market leader in cardiac care, acute care and home healthcare, energy efficient lighting solutions and new lighting applications, as well as lifestyle products for personal well-being and pleasure with strong leadership positions in flat TV, male shaving and grooming, portable entertainment and oral healthcare. News from Philips is located at www.philips.com/newscenter.

Royal Philips Electronics

Q1 Quarterly report
April 19, 2010

Forward-looking statements

This document contains certain forward-looking statements with respect to the financial condition, results of operations and business of Philips and certain of the plans and objectives of Philips with respect to these items, in particular the paragraphs on Looking ahead and Outlook. Examples of forward-looking statements include statements made about our strategy, estimates of sales growth, future EBITA and future developments in our organic business. By their nature, these statements involve risk and uncertainty because they relate to future events and circumstances and there are many factors that could cause actual results and developments to differ materially from those expressed or implied by these statements.

These factors include but are not limited to domestic and global economic and business conditions, the successful implementation of our strategy and our ability to realize the benefits of this strategy, our ability to develop and market new products, changes in legislation, legal claims, changes in exchange and interest rates, changes in tax rates, pension costs and actuarial assumptions, raw materials and employee costs, our ability to identify and complete successful acquisitions and to integrate those acquisitions into our business, our ability to successfully exit certain businesses or restructure our operations, the rate of technological changes, political, economic and other developments in countries where Philips operates, industry consolidation and competition. As a result, Philips' actual future results may differ materially from the plans, goals and expectations set forth in such forward-looking statements. For a discussion of factors that could cause future results to differ from such forward-looking statements, see the Risk management chapter included in our Annual Report 2009.

Third-party market share data

Statements regarding market share, including those regarding Philips' competitive position, contained in this document are based on outside sources such as research institutes, industry and dealer panels in combination with management estimates. Where information is not yet available to Philips, those statements may also be based on estimates and projections prepared by outside sources or management. Rankings are based on sales unless otherwise stated.

Use of non-GAAP information

In presenting and discussing the Philips Group's financial position, operating results and cash flows, management uses certain non-GAAP financial measures. These non-GAAP financial measures should not be viewed in isolation as alternatives to the equivalent IFRS measures and should be used in conjunction with the most directly comparable IFRS measures. A reconciliation of such measures to the most directly comparable IFRS measures is contained in this document. Further information on non-GAAP measures can be found in our Annual Report 2009.

Use of fair-value measurements

In presenting the Philips Group's financial position, fair values are used for the measurement of various items in accordance with the applicable accounting standards. These fair values are based on market prices, where available, and are obtained from sources that are deemed to be reliable.

Readers are cautioned that these values are subject to changes over time and are only valid at the balance sheet date. When observable market data does not exist, we estimated the fair values using appropriate valuation models. They require management to make significant assumptions with respect to future developments, which are inherently uncertain and may therefore deviate from actual developments. Critical assumptions used are disclosed in our 2009 financial statements. Independent valuations may have been obtained to support management's determination of fair values.

All amounts in millions of euros unless otherwise stated; data include are unaudited Financial reporting is in accordance with IFRS, unless otherwise stated.

This document comprises regulated information within the meaning of the Dutch Financial Markets Supervision Act (Wet op het financieel toezicht).

Philips reports first-quarter sales of EUR 5.7 billion and EBITA of EUR 504 million

Comparable sales up 12%; growth in all sectors, led by Lighting at 18%

22% growth in emerging markets

20% growth of equipment order intake at Healthcare

EBITA of EUR 504 million, or 8.9% of sales; Consumer Lifestyle's adjusted EBITA hit 8.2% for the last twelve months

Net income of EUR 201 million

Gerard Kleisterlee,

President and CEO of Royal Philips Electronics:

I believe that with the results we have delivered in recent quarters, we have started to demonstrate the real potential of our business portfolio.

While our Q1 results of course compare very favorably with the recession-impacted Q1 2009, they are in an absolute sense at a level that we have not seen before in a first quarter. On the back of good 12% sales growth and continued sound cost management, group adjusted EBITA came in at EUR 554 million, or 9.8% of sales.

Growth at Lighting was an impressive 18%, despite a large Professional Luminaires business which is not yet rebounding. Consumer Lifestyle has now recorded 8.2% adjusted EBITA over the past 12 months. Our Healthcare sector complemented overall good results with 20% growth in equipment order intake.

Nevertheless, economic uncertainty remains high and consumer confidence low. At the same time, some key markets such as the construction sector have yet to recover. However, our strong fundamentals, sound strategy and ability to adapt swiftly to changing market circumstances have put us in a good position for continued success.

Highlights in the quarter

Net income

Net income improved by EUR 258 million year-on-year, mainly driven by substantially higher sector earnings.

Financial income and expenses increased by EUR 28 million. Q1 2009 included the favorable impact of a EUR 81 million gain on the sale of LG Display shares and dividend income, partly offset by a EUR 48 million impairment charge related to Philips shareholding in NXP.

Income tax in Q1 2009 included EUR 103 million of tax benefits, mainly related to the recognition of a deferred tax asset for Lumileds.

Sales by sector

Sales amounted to EUR 5,677 million, an increase of 12% on both a nominal and comparable basis.

Healthcare sales improved by 7% on a comparable basis, driven by growth in all businesses, notably double-digit growth at Customer Services and high single-digit growth at Clinical Care Systems.

Consumer Lifestyle sales grew by 11% on a comparable basis, driven by growth in almost all businesses, including double-digit growth at Television, Health & Wellness and Licenses.

Lighting sales grew by 18% on a comparable basis, with strong double-digit growth across most businesses, notably Lumileds, Automotive and Lamps. Professional Luminaires continued to show a slight decline, while Consumer Luminaires posted modest growth.

Sales per market cluster

Sales in the mature markets grew by 8% compared to Q1 2009. The Western European increase was mainly driven by Lighting and Healthcare. Sales growth in North America was driven by growth at Consumer Lifestyle and Lighting, tempered by a low single-digit decline at Healthcare. Particularly strong growth was seen in mature markets in Asia, notably South Korea and Japan.

The emerging markets reported strong double-digit growth, led by the key emerging markets of China and India, predominantly driven by Lighting.

Earnings

EBITA increased by EUR 578 million compared to Q1 2009, mainly driven by profitability improvements across all three operating sectors and lower costs in Group Management & Services. Restructuring and acquisition-related charges of EUR 50 million were recorded, in line with Q1 2009. Excluding these charges, EBITA amounted to EUR 554 million, or 9.8% of sales.

EBIT improved by EUR 575 million, reflecting higher EBITA in all sectors. Amortization charges were comparable to Q1 2009.

Healthcare EBITA increased by EUR 98 million year-on-year, despite a EUR 14 million increase in restructuring and acquisition-related charges. Improvements in earnings were seen across all businesses, notably Customer Services, Healthcare Informatics and Imaging Systems.

Consumer Lifestyle EBITA increased by EUR 215 million year-on-year, with higher earnings in all businesses, notably Licenses, Television and Domestic Appliances. Q1 2009 included a EUR 30 million product recall provision.

Lighting EBITA increased by EUR 240 million year-on-year, driven by higher sales and an improved product mix at Lamps, Automotive and Lumileds, higher coverage of fixed costs and savings resulting from earlier restructuring.

GM&S EBITA improved by EUR 25 million to a net cost of EUR 73 million, mainly driven by higher license income and lower R&D costs.

Financial income and expenses

Q1 2009 included a EUR 69 million gain on the sale of shares of LG Display and EUR 12 million dividend income from LG Display.

Also in Q1 2009, an impairment loss of EUR 48 million was recorded on Philips' shareholding in NXP.

Cash balance

in millions of euros

	Q1 2009	Q1 2010
Beginning cash balance	3,620	4,386
Free cash flow	(467)	(151)
<i>Net cash flow from operating activities</i>	<i>(306)</i>	<i>28</i>
<i>Net capital expenditures</i>	<i>(161)</i>	<i>(179)</i>
(Acquisitions) divestments of businesses	(35)	95
Other cash flow from investing activities	625	(25)
Delivery of shares	9	24
Changes in debt/other	248	59
Ending cash balance	4,000	4,388
Cash balance		

The Group cash balance remained at EUR 4.4 billion, as free cash outflow of EUR 151 million was more than offset by EUR 98 million of proceeds from the sale of TPV shares and a EUR 59 million increase in debt.

In Q1 2009, the cash balance increased by EUR 0.4 billion. Free cash outflow of EUR 467 million was more than offset by EUR 629 million proceeds from the sale of the remaining stake in LG Display and a EUR 213 million increase in debt.

Cash flows from operating activities

Operating activities led to a cash inflow of EUR 28 million, compared to an outflow of EUR 306 million in Q1 2009. The year-on-year improvement was mainly attributable to higher earnings.

* Capital expenditures on property, plant and equipment only
Gross capital expenditures

Gross capital expenditures on property, plant and equipment were EUR 26 million higher than in Q1 2009, primarily due to higher investments at Lighting and Consumer Lifestyle.

* Sales are
calculated as the
moving annual
total
Inventories

Inventories as a % of sales were 0.3 percentage points higher than in Q1 2009 in spite of a EUR 0.2 billion year-on-year value reduction.

Inventories as a % of sales increased by 1.3 percentage points compared to Q4 2009. In line with the seasonal pattern, inventory value increased across the operating sectors to EUR 3.3 billion at the end of Q1 2010.

Net debt and group equity

At the end of Q1 2010, Philips had a net debt position of EUR 74 million, compared to EUR 533 million at the end of Q1 2009. During the quarter, the net debt position increased by EUR 193 million, mainly due to currency effects.

Group equity remained largely stable in the quarter at EUR 14.7 billion. The increase resulting from net income and currency translation differences was offset by the decrease due to the 2009 dividend.

Employees

During Q1 2010, the number of employees increased by 262, primarily due to increases at Healthcare, Consumer Lifestyle and GM&S, partly offset by a decrease at Lighting. Compared to Q1 2009, the number of employees remained stable, as decreases at Healthcare, Lighting and GM&S were more than offset by an increase at Consumer Lifestyle, mainly resulting from the addition of 1,900 FTEs from the Saeco acquisition.

Healthcare

Business highlights

Philips strengthened its sleep diagnostic portfolio with the acquisition of Siesta Group's automated-scoring solution business. Anticipating continued growth in sleep diagnostics testing, this solution can help improve the productivity of sleep centers.

Philips and bioMérieux signed an agreement to jointly develop fully-automated, handheld diagnostic testing solutions for hospital use that can be deployed at the point-of-care.

In response to the growing need for early and accessible breast cancer detection, Philips and Smit Mobile Equipment partnered to design a mobile breast cancer screening concept for the Middle East. This offering pairs the latest in screening technology with a private, comfortable setting that can withstand extreme weather conditions.

Philips and the American College of Cardiology (ACC) jointly showcased the Hybrid OR Suite, which integrates the equipment needed to perform both open and endovascular cardiac procedures for better outcomes as well as lower costs and fewer complications.

Financial performance

Currency-comparable equipment order intake increased by 20% year-on-year, largely driven by Imaging Systems and Clinical Care Systems. From a regional perspective, order intake showed 30% growth in markets outside North America (both emerging markets and mature markets), while in the US, equipment orders were 7% higher comparably, the first increase since Q3 2008.

Comparable sales increased by 7% year-on-year, with higher sales in all businesses. Notable growth was seen at Customer Services and Clinical Care Systems. From a regional perspective, markets outside North America grew by 16%, driven largely by emerging markets. Comparable sales in North America declined 4% from Q1 2009 as a result of the lower order intake last year.

EBITA increased by EUR 98 million year-on-year to EUR 166 million, or 9.1% of sales. Excluding restructuring and acquisition-related charges of EUR 29 million, EBITA amounted to EUR 195 million, or 10.7% of sales, compared to EUR 83 million, or 4.8% of sales, in Q1 2009. The improvement was driven by Customer Services,

Imaging Systems and Healthcare Informatics, through margin improvement and strict cost management; it also included approximately EUR 15 million of incremental fixed-cost coverage from a comparatively high number of production days in the quarter.

Looking ahead

Philips will introduce a new cardiograph system designed to meet the needs of high-volume hospitals in emerging markets. Developed and manufactured in China, the globally-available product will enable the use of gender-differentiated criteria to diagnose heart disease in women.

Restructuring and acquisition-related charges in Q2 2010 are expected to total around EUR 70 million.

Business highlights

Philips has entered into a 5-year brand licensing agreement under which Videocon Industries Ltd. will assume responsibility for Philips' consumer television activities in India. This move is consistent with Philips' objective to bring the Television business back to structural profitability.

The launch of Philips Lumea marked a breakthrough in women's hair removal at home. Using intense pulsed light, the system makes it easy to have smooth skin every day.

Philips has launched a new range of iPad accessories. From cases to electronics, the new range is designed to enhance the iPad user's experience while seamlessly fitting in with their lifestyle. Philips also started selling iPod docking speakers in Apple stores in the US.

Philips has launched Activa, the mobile workout companion. By playing music that matches the tempo of the user's pace and providing real-time vocal feedback on performance, it provides a simple way to motivate its users to exercise more frequently and intensely.

Financial performance

Comparable sales grew 11%, driven by higher sales in most businesses, notably Television, Health & Wellness and Licenses.

Double-digit sales growth was visible in the emerging markets, particularly in Latin America, China and Eastern Europe. Western Europe saw single-digit growth.

EBITA improved by EUR 215 million year-on-year, driven by higher operational earnings in all businesses, in particular at Television, and EUR 70 million higher income at Licenses, largely due to a different seasonality. Q1 2009 EBITA included a EUR 30 million product recall provision.

Q1 2010 included restructuring and acquisition-related charges of EUR 13 million, in line with Q1 2009. Excluding these charges, adjusted EBITA in Q1 2010 amounted to 9.2% of sales.

Net operating capital decreased by EUR 93 million, as the increase in assets following the Saeco acquisition was more than offset by reductions in working capital.

Total headcount increased, mainly due to the Saeco acquisition.

Looking ahead

Sales at Television are expected to grow substantially in Q2 2010, spurred by soccer's upcoming World Cup.

Advertising and promotional spend for the sector is expected to be structurally increased to support future growth.

Due to seasonality, license income is expected to be low in Q2 2010.

Consumer Lifestyle expects to incur restructuring and acquisition-related charges of EUR 20 million in Q2 2010.

Lighting

Key data

in millions of euros unless otherwise stated

	Q1 2009	Q1 2010
Sales	1,504	1,810

Net operating capital (NOC)	5,964	5,528
Number of employees (FTEs)	52,766	51,527

Business highlights

Philips strengthened its consumer lighting portfolio through the announced acquisition of Luceplan, a leading European consumer luminaires company. Luceplan is an iconic brand in the premium design segment, with a portfolio including table, suspension, wall and ceiling lighting solutions for residential applications.

Philips won several important LED lighting contracts in China, including illuminating the 610-meter Guangzhou TV Tower – a new landmark in that region. Philips also lit up one of the first train stations built as part of China's new high-speed railway system.

In outdoor lighting, Philips was awarded a contract to revitalize the commercial and historical center of Vitoria, Spain, by using LED solutions to create safer, more modern and more attractive streets while reducing energy usage.

Financial performance

Comparable sales increased 18% year-on-year, driven by strong growth across most businesses. Lumileds saw a three-fold increase in sales. Automotive and Lamps also delivered strong growth, supported by restocking in some channels in Europe. From a regional perspective, significant growth was seen in China, India and Latin America.

EBITA, excluding restructuring and acquisition-related charges of EUR 9 million (Q1 2009: EUR 19 million), was EUR 230 million higher than in Q1 2009. The strong year-on-year EBITA improvement was largely driven by higher sales, an improved product mix, fixed-cost savings and a legal settlement. Profitability in the quarter was also supported by approximately EUR 20 million of incremental fixed-cost coverage from a comparatively high number of production days in the quarter.

The number of employees decreased by 1,239 year-on-year, with a decline in permanent employees partly offset by an increase in temporary labor.

Looking ahead

The city of Tilburg in the Netherlands is the first municipality in Europe to decide to fully change its street lighting to LED solutions. In addition, Philips expects to sell a significant number of installations in 2010.

Through the continued introduction of new LED-based consumer and outdoor lighting solutions, Philips expects to further strengthen its position in both fields in 2010.

At Light+Building 2010, Philips announced the introduction of a range of new LED-enabled lighting propositions for professional and consumer segments.

Restructuring and acquisition-related charges in Q2 2010 are expected to total around EUR 35 million.

Business highlights

Philips.com has been ranked the #4 global website and #1 in its category by the Web Globalization Report Card. Philips was ranked next to sites such as Google and Facebook.

The Philips online annual report has been named Best Online Annual Report 2009 by IR Global Rankings.

Philips will receive a total of 11 red dot distinctions for high quality in the areas of Lifestyle and Lighting at the red dot product design awards. Additionally, one product will receive an honorable mention. The awards ceremony will take place in Essen, Germany, on July 5.

Philips successfully refinanced the undrawn USD 2.5 billion standby facility into a new five-year EUR 1.8 billion committed standby facility with maturity in 2015.

Financial performance

Sales increased from EUR 74 million in Q1 2009 to EUR 104 million, driven by improved sales and higher license revenues.

EBITA amounted to a net cost of EUR 73 million, an improvement of EUR 25 million year-on-year. This was largely attributable to higher license income, improved earnings at Assembléon and lower R&D costs.

Looking ahead

Net costs for the Group Management & Services sector in Q2 2010 are expected to total EUR 70 million.

Other information

Optional dividend

On March 25, 2010 the Annual General Meeting of Shareholders approved the payment of a distribution of EUR 0.70 per common share in cash or shares, at the option of the shareholder. Shareholders are given the opportunity to indicate their choice between April 1, 2010 and April 23, 2010. If no choice is made during this election period the dividend will be paid in shares.

On April 27, 2010, the number of share dividend rights of the common shares entitled to one new share will be published. This exchange ratio is based on the volume-weighted average price of all traded common shares Koninklijke Philips Electronics N.V. at Euronext Amsterdam on 21, 22 and 23 April 2010 and in such a manner that the gross dividend in shares will be approximately 3% higher than the gross dividend in cash.

Dividend in cash is in principle subject to 15% Dutch dividend withholding tax, which will be deducted from the dividend in cash paid to the shareholders. Dividend in shares paid out of earnings and retained earnings is subject to 15% dividend withholding tax, but only in respect of the par value of the shares (which value amounts to EUR 0.20 per share). The Dutch dividend withholding tax in case of dividend in shares will be borne by Philips.

Payment of the dividend on the common shares and delivery of new common shares, with settlement of fractions in cash, if required, will take place from April 28, 2010.

Shareholders are advised to consult their own tax advisor on the applicable situation both with respect to withholding tax, the possibility to claim a tax credit or a refund for the tax withheld as well as the tax due (such as corporate income tax, personal income tax) on the dividend received.

For more information, please see [\[dividend info\]](#)

Outlook

Outlook

The ongoing recovery, especially of emerging markets, has led to higher-than-expected sales growth across our three operating sectors in the first quarter. We expect that the first-quarter sales momentum will continue into the second quarter. Our Television business is likely to benefit from peak demand generated by soccer's World Cup. We will step up our marketing investments in the second quarter, particularly at Consumer Lifestyle.

For the second half of the year, market development remains uncertain. Hence, while maintaining our investments in further growth, we will continue to execute our rationalization initiatives, entailing restructuring charges of EUR 100-125 million in the second quarter.

However, encouraged by our performance in the first quarter, we are increasingly confident that we will be able to deliver an adjusted EBITA profitability of 10% as early as 2010.

Amsterdam, April 19, 2010
