HOME PROPERTIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)
(Unaudited)

1. Unaudited Interim Financial Statements

The interim consolidated financial statements of Home Properties, Inc. (the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and the applicable rules and regulations of the Securities and Exchange Commission (SEC). Accordingly, certain disclosures that would accompany annual financial statements prepared in accordance with GAAP are omitted. The year-end balance sheet data was derived from audited financial statements, but does not include all disclosures required by GAAP. In the opinion of management, all adjustments, consisting solely of normal recurring adjustments, necessary for the fair statement of the consolidated financial statements for the interim periods have been included. The current period's results of operations are not necessarily indicative of results which ultimately may be achieved for the year. The interim consolidated financial statements and notes thereto should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Form 10-K for the year ended December 31, 2010.

2. Organization and Basis of Presentation

Organization

The Company was formed in November 1993, as a Maryland corporation and is engaged primarily in the ownership, management, acquisition, rehabilitation and development of residential apartment communities in selected Northeast and Mid-Atlantic regions of the United States. The Company conducts its business through Home Properties, L.P. (the Operating Partnership), a New York limited partnership. As of March 31, 2011, the Company owned and operated 115 apartment communities with 38,861 apartments.

The Company has elected to be taxed as a real estate investment trust (REIT) under the Internal Revenue Code of 1986, as amended, commencing with the taxable year ended December 31, 1994. As a result, the Company generally is not subject to federal or state income taxation at the corporate level to the extent it distributes annually at least 90% of its REIT taxable income to its shareholders and satisfies certain other requirements. For the three months ended March 31, 2011 and 2010, the Company distributed in excess of 100% of its taxable income; accordingly, no provision has been made for federal income taxes in the accompanying consolidated financial statements.

Basis of Presentation

The accompanying consolidated financial statements include the accounts of the Company and its ownership of 77.6% of the limited partnership units in the Operating Partnership (UPREIT Units) at March 31, 2011 (77.1% at December 31, 2010). The remaining 22.4% is included as noncontrolling interest in these consolidated financial statements at March 31, 2011 (22.9% at December 31, 2010). The Company periodically adjusts the carrying value of noncontrolling interest to reflect its share of the book value of the Operating Partnership. Such adjustments are recorded to additional paid in capital as a reallocation of noncontrolling interest in the accompanying consolidated statements of equity. The Company owns a 1.0% general partner interest in the Operating Partnership and the remainder indirectly as a limited partner through its wholly owned subsidiary, Home Properties I, LLC, which owns 100% of Home Properties Trust, which is the limited partner. Home Properties Trust was formed in September 1997, as a Maryland real estate trust and as a qualified REIT subsidiary (QRS) and owns the Company's share of the limited partner interests in the Operating Partnership.

The accompanying consolidated financial statements include the accounts of Home Properties Resident Services, Inc. (HPRS). HPRS is a wholly owned subsidiary of the Company. All significant inter-company balances and transactions have been eliminated in these consolidated financial statements.

Table of Contents

HOME PROPERTIES, INC.
 NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
 (Dollars in thousands, except share and per share data)
 (Unaudited)

3. Recently Adopted Accounting Standards

During the quarter ended March 31, 2011, there were no new accounting pronouncements or updates to recently issued accounting pronouncements disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2010 that affect the Company's results of operations, financial condition, liquidity or disclosures.

4. Earnings Per Common Share

Basic earnings per share (EPS) is computed as net income attributable to common stockholders divided by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur from common shares issuable through stock-based compensation including stock options (using the treasury stock method) and the conversion of any exchangeable senior notes. The exchange of an UPREIT Unit for common stock will have no effect on diluted EPS as unitholders and common stockholders effectively share equally in the net income of the Operating Partnership. Income from continuing operations and discontinued operations is the same for both the basic and diluted calculation.

The calculation of the basic and diluted earnings per share for the three months ended March 31, 2011 and 2010 is as follows:

	Three Months	
	2011	2010
Numerator:		
Income from continuing operations	\$ 9,363	\$ 3,984
Less: Income from continuing operations attributable to noncontrolling interest	(2,139)	(992)
Income from continuing operations attributable to common stockholders	\$ 7,224	\$ 2,992
Discontinued operations	\$	\$ (473)
Less: Discontinued operations attributable to noncontrolling interest		118
Discontinued operations attributable to common stockholders	\$	\$ (355)
Denominator:		
Basic weighted average number of common shares outstanding	38,004,185	34,970,442
Effect of dilutive stock options	527,750	342,907
Effect of phantom and restricted shares	127,901	93,497
Diluted weighted average number of common shares outstanding	38,659,836	35,406,846
Earnings per common share:		
Basic earnings per share:		
Income from continuing operations	\$ 0.19	\$ 0.09
Discontinued operations		(0.01)
Net income attributable to common stockholders	\$ 0.19	\$ 0.08

Edgar Filing: HOME PROPERTIES INC - Form 10-Q

Diluted earnings per share:				
Income from continuing operations	\$	0.19	\$	0.08
Discontinued operations				(0.01)
Net income attributable to common stockholders	\$	0.19	\$	0.07

Table of Contents

HOME PROPERTIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)
(Unaudited)

4. Earnings Per Common Share (continued)

Unexercised stock options to purchase 445,511 and 1,410,388 shares of the Company's common stock for the three months ended March 31, 2011 and 2010, respectively, were not included in the computations of diluted EPS because the effects would be antidilutive. Also, in conjunction with the issuance of the exchangeable senior notes, there were 331,257 potential shares issuable under certain circumstances, of which all are considered antidilutive as of March 31, 2011 and 2010.

5. Notes Receivable

On September 22, 2010, the Company purchased two non-performing mortgage notes from a community bank for \$1,433 in an arm's length transaction. Both notes were in default. They were purchased at face value plus accrued interest and late fees and were secured by real property. One of the notes, originally purchased by the Company for \$1,015, was repaid in its entirety on January 28, 2011. The remaining note, purchased for \$418 is secured by vacant land. In accordance with authoritative guidance, the Company will recognize impairment to the extent the fair value of the collateral is less than the carrying amount of the investment in the note receivable. Interest income, if any, will be recognized on the cost recovery method. As of March 31, 2011, there was no impairment recognized and no interest income recorded on the remaining note. Interest income in the amount of \$35 received upon settlement of the first note was recorded during the first quarter of 2011. A note receivable of \$422 is included in other assets on the Consolidated Balance Sheet as of March 31, 2011.

6. Development

During 2008, the Company started construction on a project located in Alexandria, Virginia, consisting of four, four-story buildings with 421 units (Courts at Huntington Station). As of March 31, 2011, two buildings with 202 units were completed and there were 189 units rented and occupied. Construction on the second phase (two buildings with 219 units) is scheduled to be completed in the second quarter of 2011 and pre-leasing of units has commenced. The construction in progress for this development was \$53,559 as of March 31, 2011.

During the first quarter of 2011, the Company started construction on a project located in Fredericksburg, Virginia, consisting of eight, four-story buildings and a refurbished rail depot for a total of 314 apartment units (The Apartments at Cobblestone Square). Construction of the first apartment building, along with the rail depot renovation and amenities, is expected to be completed in late 2011 with initial occupancy anticipated to begin in the third quarter of 2011. The entire project is expected to be completed in the first half of 2012. The construction in progress for this development was \$15,287 as of March 31, 2011.

The Company has one project in pre-construction development. Ripley Street, located in Silver Spring, Maryland, is an 18-story high rise development with 379 apartment units. The project is on entitled land that the Company purchased from another developer and is in the final stages of the design process. The construction in progress for this development, consisting mostly of land value, was \$22,453 as of March 31, 2011.

The Company has one project in the pre-redevelopment phase. Falkland Chase, located in Silver Spring, Maryland, currently has 450 garden apartments constructed between 1936 and 1939. The Company is planning on redeveloping the North parcel consisting of 182 units, which will be renamed Falkland North. The Company is making progress on the design and obtaining the necessary approvals to redevelop this parcel into approximately 1,100 units. Construction is expected to start at the earliest during late 2012 or early 2013, with a total projected cost of \$315,000. The cost associated with this project was \$3,225 as of March 31, 2011 and is included in other assets.

Table of Contents

 NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
 (Dollars in thousands, except share and per share data)
 (Unaudited)

7. Exchangeable Senior Notes

In October 2006, the Company issued \$200,000 of exchangeable senior notes under an Indenture Agreement (the Indenture), with a coupon rate of 4.125% (Senior Notes). In the fourth quarter of 2008, the Company repurchased \$60,000 principal amount of the Senior Notes, leaving \$140,000 outstanding. The Senior Notes are exchangeable into cash equal to the principal amount of the notes and, at the Company's option, cash or common stock for the exchange value, to the extent that the market price of common stock exceeds the initial exchange price of \$73.34 per share, subject to adjustment. The exchange price is adjusted for payments of dividends in excess of the reference dividend per the Indenture of \$0.64 per share. The notes are not redeemable at the option of the Company for five years from their issue date, except to preserve the status of the Company as a REIT. Holders of the notes may require the Company to repurchase the notes upon the occurrence of certain designated events. In addition, prior to November 1, 2026, the holders may require the Company to repurchase the notes on November 1, 2011, 2016 and 2021 by providing notice within 2 to 20 business days prior to the repurchase dates. The notes will mature on November 1, 2026, unless previously redeemed, repurchased or exchanged in accordance with their terms prior to that date. The notes are structurally subordinated to the secured indebtedness of the Company. The Company is not subject to any financial covenants under the Indenture. In addition, the Indenture will not restrict the ability to pay distributions, incur debt or issue or repurchase securities.

The following table provides information about the Senior Notes as of March 31, 2011 and December 31, 2010:

	2011	2010
Principal amount of liability component	\$ 140,000	\$ 140,000
Unamortized discount	(1,244)	(1,782)
Carrying amount of liability component	\$ 138,756	\$ 138,218
Carrying amount of equity component	\$ 13,950	\$ 13,950

The following table provides information about the Senior Notes for the three months ended March 31, 2011 and 2010:

	Three Months	
	2011	2010
Coupon interest	\$ 1,444	\$ 1,444
Issuance cost amortization	137	137
Discount amortization	538	508
Total interest expense	\$ 2,119	\$ 2,089

The effective interest rate was 5.75% and the conversion price per share, as adjusted, was \$72.87 for the three months ended March 31, 2011 and 2010.

8. Line of Credit

On February 10, 2011, the Company amended and extended its \$175,000 unsecured line of credit agreement with M&T Bank, as administrative agent and lead bank, which was scheduled to expire August 31, 2011. The amended line of credit agreement removes the 1.50% LIBOR floor contained in the earlier agreement and expires August 31, 2012, not including a one-year extension, at the Company's option. The Company had \$42,500 outstanding under the credit facility on March 31, 2011. Borrowings under the line of credit bear interest at rates ranging from 1.90% to 2.63%

over the one-month LIBOR, increasing at higher levels of indebtedness; and in all cases, without a LIBOR floor. The one-month LIBOR was 0.24% at March 31, 2011, resulting in an effective rate of 2.61% for the Company.

8. Line of Credit (continued)

The credit agreement relating to this line of credit requires the Company to maintain certain financial ratios and measurements. The Company was in compliance with these financial covenants for the three months ended March 31, 2011.

The Company's line of credit agreement provides the ability to issue up to \$20,000 in letters of credit. While the issuance of letters of credit does not increase borrowings outstanding under the line of credit, it does reduce the amount available. At March 31, 2011, the Company had outstanding letters of credit of \$4,461 and the amount available on the credit facility was \$128,039.

9. Fair Value of Financial Instruments

The Company follows the authoritative guidance for fair value measurements (ASC 820-10), when valuing its financial instruments for disclosure purposes. The valuation of financial instruments requires the Company to make estimates and judgments that affect the fair value of the instruments. The Company determined the fair value of its mortgage notes payable and line of credit facility using a discounted future cash flow technique that incorporates a market interest yield curve with adjustments for duration, loan to value, and risk profile (level 2 inputs, as defined by ASC 820-10). In determining the market interest yield curve, the Company considered its BBB credit rating. The Company based the fair value of its Senior Notes using quoted prices (a level 1 input, as defined by ASC 820-10).

At March 31, 2011 and December 31, 2010, the fair value of the Company's total debt, including the Senior Notes and line of credit, amounted to a liability of \$2,627,793 and \$2,678,524, respectively, compared to its carrying amount of \$2,585,926 and \$2,618,932, respectively.

10. Interest Capitalized

Capitalized interest associated with communities under development or rehabilitation totaled \$1,426 and \$2,816 for the three months ended March 31, 2011 and 2010, respectively.

11. Stockholders Equity*At-the-Market Equity Offering Program*

On September 17, 2010, the Company initiated its second At-the-Market (ATM) equity offering program through which it is authorized to sell up to 3.6 million shares of common stock from time to time in ATM offerings or negotiated transactions. There were no shares issued from this program during 2010. During the first quarter 2011, the Company issued 841,000 shares. The following summarizes issuances of common stock from this program since inception through March 31, 2011:

Period	Number of Shares Sold	Gross Proceeds	Net Proceeds	Average Sales Price
First quarter 2011	841,000	\$ 47,524	\$ 46,572	\$ 56.51

Dividends and Distributions

On March 4, 2011, the Company paid a dividend in the amount of \$0.62 per share of common stock to stockholders and a distribution of \$0.62 per UPREIT Unit to unitholders of record as of the close of business on February 28, 2011.

 (Unaudited)

12. Segment Reporting

The Company is engaged in the ownership and management of market rate apartment communities. Each apartment community is considered a separate operating segment. Each segment on a standalone basis is less than 10% of the revenues, net operating income, and assets of the combined reported operating segment and meets all of the aggregation criteria under authoritative guidance. The operating segments are aggregated as Core and Non-core properties.

Non-segment revenue to reconcile to total revenue consists of other income. Non-segment assets to reconcile to total assets include cash and cash equivalents, cash in escrows, accounts receivable, prepaid expenses, deferred charges and other assets.

Core properties consist of all apartment communities which have been owned more than one full calendar year. Therefore, the Core properties represent communities owned as of January 1, 2010. Non-core properties consist of apartment communities acquired or developed during 2010 and 2011, such that full year comparable operating results are not available.

The Company assesses and measures segment operating results based on a performance measure referred to as net operating income. Net operating income is defined as total revenues less operating and maintenance expenses. The accounting policies of the segments are the same as those described in Notes 1, 2 and 3 to the consolidated financial statements contained in the Company's Form 10-K for the year ended December 31, 2010.

The revenues and net operating income for each of the operating segments are summarized for the three months ended March 31, 2011 and 2010 as follows:

	Three Months	
	2011	2010
Revenues:		
Apartments owned		
Core properties	\$ 129,753	\$ 125,783
Non-core properties	11,592	26
Reconciling items	53	58
Total revenues	\$ 141,398	\$ 125,867
Net operating income:		
Apartments owned		
Core properties	\$ 75,993	\$ 69,853
Non-core properties	7,073	(72)
Reconciling items	53	58
Net operating income, including reconciling items	83,119	69,839
General and administrative expenses	(6,236)	(5,557)
Interest expense	(33,031)	(30,185)
Depreciation and amortization	(34,479)	(30,113)
Other expenses	(10)	
Income from continuing operations	\$ 9,363	\$ 3,984

Edgar Filing: HOME PROPERTIES INC - Form 10-Q

The assets for each of the reportable segments are summarized as follows as of March 31, 2011 and December 31, 2010:

	2011	2010
Assets:		
Apartments owned		
Core properties	\$ 2,936,056	\$ 2,950,884
Non-core properties	592,171	585,045
Reconciling items	98,820	98,774
Total assets	\$ 3,627,047	\$ 3,634,703

13. Disposition of Property and Discontinued Operations

The Company reports its property dispositions as discontinued operations as prescribed by the authoritative guidance. Pursuant to the definition of a component of an entity, assuming no significant continuing involvement by the former owner after the sale, the sale of an apartment community is considered a discontinued operation. In addition, apartment communities classified as held for sale are also considered discontinued operations. The Company generally considers assets to be held for sale when all significant contingencies surrounding the closing have been resolved, which often corresponds with the actual closing date.

Included in discontinued operations for the three months ended March 31, 2010 are the operating results of one variable interest entity for which the Company's general partnership interest was sold in 2010. For purposes of the discontinued operations presentation, the Company only includes interest expense and losses from early extinguishment of debt associated with specific mortgage indebtedness of the properties that are sold or held for sale. The operating results of discontinued operations are summarized for the three months ended March 31, 2011 and 2010 as follows:

	Three Months	
	2011	2010
Revenues:		
Rental income	\$	\$ 1,115
Property other income		20
Total revenues		1,135
Expenses:		
Operating and maintenance		1,066
Interest expense, including prepayment penalties		249
Depreciation and amortization		282
Total expenses		1,597
Income (loss) from discontinued operations		\$ (462)

14. Commitments and Contingencies*Letters of Credit*

As of March 31, 2011, the Company had issued \$4,461 in letters of credit, which were provided under the Company's \$175,000 unsecured line of credit agreement. The letters of credit were required to be issued under certain tax escrow agreements, workers compensation and health insurance policies, and construction projects.

Debt Covenants

The line of credit agreement contains restrictions which, among other things, require maintenance of certain financial ratios.

Included in the Company's consolidated balance sheets at March 31, 2011 and December 31, 2010 are assets of Home Properties Fair Oaks, LLC, owner of the Courts at Fair Oaks, Fairfax, VA, that are pledged as collateral for specific indebtedness and are not available to satisfy any other obligations of the Company.

HOME PROPERTIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)
(Unaudited)

14. Commitments and Contingencies (continued)

Tax Protection Obligations

In connection with certain UPREIT Unit transactions, the Company has agreed to maintain certain levels of nonrecourse debt for a period of 5 to 10 years associated with the contributed properties acquired. In addition, the Company is restricted in its ability to sell certain contributed properties (14% by number of apartment communities of the owned portfolio) for a period of 7 to 15 years except through a tax deferred like-kind exchange. The remaining terms on the sale restrictions range from 2 months to 6 years.

Limited Partnership

For periods before October 13, 2010, the Company, through its general partnership interest in an affordable property limited partnership, had guaranteed certain low income housing tax credits to limited partners in this partnership through 2015 totaling approximately \$3,000. As of March 31, 2011, there were no known conditions that would make such payments necessary relating to the tax credit guarantee; therefore, no liability has been recorded in the financial statements. In addition, through October 12, 2010, the Company, acting as general partner in this partnership, was obligated to advance funds to meet partnership operating deficits. As more fully described in Note 4 to the consolidated financial statements contained in the Company's Form 10-K for the year ended December 31, 2010, the Company's general partner interest in this entity was sold on October 13, 2010, relieving the Company of the operating deficit guarantee and reducing the tax credit guarantee to a \$3,000 secondary guarantee, with the new general partner assuming the operating guarantee and primary tax credit guarantee positions.

Contingencies

The Company is not a party to any legal proceedings which are expected to have a material adverse effect on the Company's liquidity, financial position or results of operations. The Company is subject to a variety of legal actions for personal injury or property damage arising in the ordinary course of its business, most of which are covered by liability insurance. Various claims of employment and resident discrimination are also periodically brought, most of which also are covered by insurance. While the resolution of these matters cannot be predicted with certainty, management believes that the final outcome of such legal proceedings and claims will not have a material adverse effect on the Company's liquidity, financial position or results of operations.

15. Subsequent Events

On April 19, 2011, the Company acquired a 108 unit apartment community located in Frederick, Maryland for a total purchase price of \$7,000. In connection with this acquisition, closing costs of approximately \$100 were incurred and will be included in other expenses for the second quarter of 2011.

On May 3, 2011, the Board of Directors declared a dividend of \$0.62 per share on the Company's common stock and approved a distribution of \$0.62 per UPREIT Unit for the quarter ended March 31, 2011. This is the equivalent of an annual dividend/distribution of \$2.48 per share/unit. The dividend and distribution is payable May 27, 2011, to stockholders and unitholders of record on May 17, 2011.

Table of Contents

HOME PROPERTIES, INC.
ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS
OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION
(Unaudited)

The following discussion should be read in conjunction with the accompanying consolidated financial statements and notes thereto.

Forward-Looking Statements

This discussion contains forward-looking statements. Historical results and percentage relationships set forth in the consolidated financial statements, including trends which might appear, should not be taken as indicative of future operations. The Company considers portions of the information to be forward-looking statements within the meaning of Section 27A of the Securities Exchange Act of 1933 and Section 21E of the Securities Exchange Act of 1934, both as amended, with respect to the Company's expectations for future periods. Some examples of forward-looking statements include statements related to acquisitions (including any related pro forma financial information), future capital expenditures, potential development and redevelopment opportunities, projected costs and rental rates for development and redevelopment projects, financing sources and availability, and the effects of environmental and other regulations. Although the Company believes that the expectations reflected in those forward-looking statements are based upon reasonable assumptions, it can give no assurance that its expectations will be achieved. Factors that may cause actual results to differ include general economic and local real estate conditions, the weather and other conditions that might affect operating expenses, the timely completion of repositioning activities and development within anticipated budgets, the actual pace of future development, acquisitions and sales, and continued access to capital to fund growth. For this purpose, any statements contained in this Form 10-Q that are not statements of historical fact should be considered to be forward-looking statements. Some of the words used to identify forward-looking statements include believes, anticipates, plans, expects, seeks, estimates, and any other expressions. Readers should exercise caution in interpreting and relying on forward-looking statements since they involve known and unknown risks, uncertainties and other factors which are, in some cases, beyond the Company's control and could materially affect the Company's actual results, performance or achievements.

Liquidity and Capital Resources

General

The Company's principal liquidity demands are expected to be distributions to the common stockholders and holders of UPREIT Units, capital improvements and repairs and maintenance for its properties, acquisition and development of additional properties and debt repayments, including any exchangeable senior notes that may be put to the Company. The Company may also acquire equity ownership in other public or private companies that own and manage portfolios of apartment communities.

The Company intends to meet its short-term liquidity requirements through net cash flows provided by operating activities and its existing bank line of credit, described below. The Company considers its ability to generate cash to be adequate to meet all operating requirements, including availability to pay dividends to its stockholders and make distributions to its holders of UPREIT Units in accordance with the provisions of the Internal Revenue Code, as amended, applicable to REITs.

In 2000, the Company obtained an investment grade rating from Fitch, Inc. The rating in effect at March 31, 2011 (no change from initial rating) is a corporate credit rating of BBB (Triple-B).

Cash Flow Summary

The Company's net cash flow from operating activities was \$44 million in 2011 compared to \$38 million in 2010. The \$6 million increase was primarily due to a \$10 million increase in cash provided from more profitable operations, partially offset by timing differences in cash disbursements between periods which resulted in \$4 million higher outgoing cash flow.

Table of Contents**Liquidity and Capital Resources (continued)**

Cash used in investing activities was \$29 million during both 2011 and 2010. Cash outflows for capital improvements were \$22 million in 2011 compared to \$16 million in 2010. The increased investment in 2011 reflects management's strategy to continually reposition and perform selective rehabilitation in markets that are able to support rent increases. Cash outflows for additions to construction in progress were \$8 million in 2011 as compared to \$14 million in 2010. The lower spending on development in 2011 reflects the completion of one major project during 2011 compared to the active construction of two communities in 2010.

Net cash used in financing activities totaled \$14 million in 2011. Cash flows from the sale of common stock under the ATM offering of \$47 million and proceeds from stock option exercises of \$4 million were more than offset by net paydown of mortgages of \$20 million, net paydown on the line of credit of \$14 million and distributions paid to stockholders and UPREIT unitholders of \$31 million. Net cash used in financing activities totaled \$9 million in 2010. Cash flows from net proceeds of the ATM common stock offering of \$59 million, proceeds from stock option exercises of \$1 million and net proceeds from mortgage financing of \$1 million were more than offset by distributions paid to shareholders and UPREIT unitholders of \$27 million, and a net paydown of \$43 million on the line of credit.

Line of Credit

On February 10, 2011, the Company amended and extended its \$175 million unsecured line of credit agreement with M&T Bank, as administrative agent and lead bank, which was scheduled to expire August 31, 2011. The amended line of credit agreement removes the 1.50% LIBOR floor contained in the earlier agreement and expires one year later on August 31, 2012, not including a one-year extension, at the Company's option. The Company had \$42.5 million outstanding under the credit facility on March 31, 2011.

Borrowings under the line of credit bear interest at rates ranging from 1.90% to 2.63% over the one-month LIBOR, increasing at higher levels of indebtedness; and in all cases, without a LIBOR floor. The one-month LIBOR was 0.24% at March 31, 2011 resulting in an effective rate of 2.61% for the Company. Accordingly, increases in the one-month LIBOR will increase the Company's interest expense and as a result will affect the Company's results of operations and financial condition.

The Company's line of credit agreement provides the ability to issue up to \$20 million in letters of credit. While the issuance of letters of credit does not increase borrowings outstanding under the line of credit, it does reduce the amount available. At March 31, 2011, the Company had outstanding letters of credit of \$4.5 million and the amount available on the credit facility was \$128 million.

Exchangeable Senior Notes

In October 2006, the Company issued \$200 million of exchangeable senior notes with a coupon rate of 4.125% (Senior Notes), which generated net proceeds of \$195.8 million. The net proceeds were used to repurchase 933,000 shares of common stock for a total of \$58 million, pay down \$70 million on the line of credit, with the balance used for redemption of the Series F Preferred Shares and property acquisitions. During the fourth quarter of 2008, the Company repurchased \$60 million of the Senior Notes for \$45.4 million. The exchange terms and conditions are more fully described under Contractual Obligations and Other Commitments, below.

The Company anticipates that it will have to finance the repurchase of some of the \$140 million Senior Notes in the instance that the holders exercise the contractual put option in November 2011. In this yield starved environment we believe that not all, and most likely less than half, will be put to us. The Company will finance any puts with proceeds from the line of credit, additional secured or unsecured financings and/or proceeds from the sale of stock under the ATM program.

Table of Contents

Liquidity and Capital Resources (continued)

Indebtedness

As of March 31, 2011, the weighted average interest rate on the Company's total indebtedness of \$2.6 billion was 5.15% with staggered maturities averaging approximately seven years. Approximately 90% of total indebtedness is at fixed rates. This limits the exposure to changes in interest rates, minimizing the effect of interest rate fluctuations on the Company's results of operations and cash flows.

Unencumbered Assets

The Company's percentage of unencumbered assets of the total property pool remained stable at 21.4% and 21.7% as of March 31, 2011 and December 31, 2010, respectively. These levels of unsecured assets add borrowing flexibility because more capacity is available for unsecured debt under the terms of the Company's unsecured line of credit agreement.

UPREIT Units

The Company believes that the issuance of UPREIT Units for property acquisitions will continue to be a potential source of capital for the Company. During 2010, the Company issued \$4.8 million in 98,728 UPREIT Units as consideration for one acquired property.

Universal Shelf Registration

On March 3, 2010, the Company filed a Form S-3 universal shelf registration statement with the SEC that registers the issuance, from time to time, of common stock, preferred stock or debt securities. The Company may offer and sell securities issued pursuant to the universal shelf registration statement after a prospectus supplement, describing the type of security and amount being offered, is filed with the SEC. Sales of common stock under the Company's ATM offering in the three months ended March 31, 2011 described below were made under this registration statement.

At-the-Market Equity Offering Program

On September 17, 2010, the Company initiated its second At-the-Market (ATM) equity offering program through which it is authorized to sell up to 3.6 million shares of common stock from time to time in ATM offerings or negotiated transactions. There were no shares issued from this program during 2010. During the first quarter 2011, the Company issued 841,000 shares of common stock at an average price per share of \$56.51, for aggregate gross proceeds of \$47.5 million and aggregate net proceeds of \$46.6 million after deducting commissions and other transaction costs of approximately \$0.9 million. The Company used the net proceeds from the offering for general corporate purposes, which included the repayment of debt, working capital, capital expenditures, acquisitions, development and redevelopment of apartment communities.

Dividend Reinvestment and Direct Stock Purchase Plan (DRIP)

The Company's DRIP provides the stockholders of the Company an opportunity to automatically invest their cash dividends in additional shares of common stock. In addition, eligible participants may make monthly payments or other voluntary cash investments in shares of common stock. The maximum monthly investment permitted without prior Company approval is currently \$10,000. The Company currently meets share demand under the DRIP through stock repurchases by the transfer agent in the open market on the Company's behalf or new stock issuances. Management monitors the relationship between the Company's stock price and its estimated net asset value (NAV). During times when the difference between these two values is small, resulting in little dilution of NAV by common stock issuances, the Company can choose to issue new shares. At times when the gap between NAV and stock price is greater, the Company has the flexibility to satisfy the demand for DRIP shares with stock repurchased by the transfer agent in the open market. In addition, the Company can issue waivers to DRIP participants to provide for investments in excess of the \$10,000 maximum monthly investment. No such waivers were granted during 2010 or 2011.

Table of Contents**Liquidity and Capital Resources (continued)***Stock Repurchase Program*

In 1997, the Company's Board of Directors (the Board) approved a stock repurchase program under which the Company may repurchase shares of its common stock or UPREIT Units (Company Program). The shares and units may be repurchased through open market or privately negotiated transactions at the discretion of Company management. The Board's action did not establish a target stock price or a specific timetable for repurchase. There were no repurchases under the Company Program during 2010 and through March 31, 2011. The remaining authorization level as of March 31, 2011 is 2,291,160 shares and UPREIT Units, collectively. The Company will continue to monitor stock prices relative to the NAV to determine the current best use of capital among our major uses of capital: stock buybacks, debt paydown to increase the unencumbered pool, acquisitions, rehabilitation and/or redevelopment of owned properties and development of new properties. At the present time, the Company has no intention of buying back any stock or UPREIT Units during the remainder of 2011.

Acquisitions and Development*Acquisitions*

After the close of the first quarter, on April 19, 2011, the Company acquired a 108 unit apartment community located in Frederick, Maryland, for a total purchase price of \$7.0 million. In connection with this acquisition, closing costs of approximately \$0.1 million were incurred and will be included in other expenses for the second quarter of 2011. The property was built in 1984 and consists of six garden style buildings. The weighted average first year capitalization rate projected by the Company on this acquisition was 7.2%.

Development

As of March 31, 2011, 93.6% of the Courts at Huntington Station Phase One units were occupied. Construction on Phase Two, consisting of 219 units, has commenced and is scheduled to be completed in the second quarter of 2011. Pre-leasing has started and the Company expects to reach stabilized occupancy in approximately one year.

During the first quarter of 2011, the Company started construction on a project located in Fredericksburg, Virginia, consisting of eight, four-story buildings and a refurbished rail depot for a total of 314 apartment units (The Apartments at Cobblestone Square). Construction of the first apartment building, along with the rail depot renovation and amenities, is slated for completion in late 2011 with initial occupancy anticipated to begin in the third quarter of 2011. The entire project is expected to be completed in the first half of 2012 for a total cost of \$49 million.

The Company has one project in pre-construction development. Ripley Street, located in Silver Spring, Maryland, is an 18-story high rise development with 379 apartment units. The project is on entitled land that the Company purchased from another developer and is in the final stages of the design process. Construction is expected to begin in the second half of 2011 with initial occupancy by the end of 2012 and project completion in the second half of 2013 for a total cost of \$111 million.

The Company has one project in the pre-redevelopment phase. Falkland Chase, located in Silver Spring, Maryland, currently has 450 garden apartments constructed between 1936 and 1939. The Company is planning on redeveloping the North parcel consisting of 182 units, which will be renamed Falkland North. The Company is making progress on the design and obtaining the necessary approvals to redevelop this parcel into approximately 1,100 units. Construction is expected to start at the earliest during late 2012 or early 2013, with a total projected cost of \$315 million.

The Company has one project under contract: Courts at Spring Mill Station, located in Conshohocken, Pennsylvania, a suburb of Philadelphia, consisting of approximately 385 apartment units. The project is on land that the Company holds a purchase option on and is in the middle stages of the entitlement process, with all approvals expected by the end of 2011. Construction is expected to begin in the first half of 2012 and total estimated costs are approximately \$79 million.

Table of Contents

Contractual Obligations and Other Commitments

The primary obligations of the Company relate to its borrowings under the line of credit, Senior Notes and mortgage notes payable. The Company's line of credit matures in August 2012 (not including a one-year optional extension) and had \$42.5 million in loans, and letters of credit totaling \$4.5 million, outstanding at March 31, 2011. The \$2.4 billion in mortgage notes payable have varying maturities ranging from 1 month to 23 years. The weighted average interest rate of the Company's secured debt was 5.16% at March 31, 2011. The weighted average rate of interest on the Company's total indebtedness of \$2.6 billion at March 31, 2011 was 5.15%.

In October 2006, the Company issued \$200 million of Senior Notes with a coupon rate of 4.125%. During 2008, the Company repurchased and retired \$60 million principal amount of its Senior Notes and \$140 million remain outstanding at March 31, 2011. The notes are exchangeable into cash equal to the principal amount of the notes and, at the Company's option, cash or common stock for the exchange value, to the extent that the market price of common stock exceeds the initial exchange price of \$73.34 per share, subject to adjustment. The exchange price is adjusted for payments of dividends in excess of the reference dividend set in the indenture of \$0.64 per share. The adjusted exchange price at March 31, 2011 was \$72.87 per share. Upon an exchange of the notes, the Company will settle any amounts up to the principal amount of the notes in cash and the remaining exchange value, if any, will be settled, at the Company's option, in cash, common stock or a combination of both. The notes are not redeemable at the option of the Company for five years from their issue date, except to preserve the status of the Company as a REIT. Holders of the notes may require the Company to repurchase the notes upon the occurrence of certain designated events. In addition, prior to November 1, 2026, the holders may require the Company to repurchase the notes on November 1, 2011, 2016 and 2021 by providing notice within 2 to 20 business days prior to the repurchase dates. The notes will mature on November 1, 2026, unless previously redeemed, repurchased or exchanged in accordance with their terms prior to that date.

The Company leases its corporate office space from an affiliate and the office space for its regional offices from non-affiliated third parties. The rent for the corporate office space is a gross rent that includes real estate taxes and common area maintenance. The regional office leases are net leases which require an annual base rent plus a pro-rata portion of real estate taxes.

The Company, through its former general partnership interest in an affordable property limited partnership, has a secondary guarantee through 2015 on certain low income housing tax credits to limited partners in this partnership totaling approximately \$3 million. With respect to the guarantee of the low income housing tax credits, the new unrelated general partner assumed operating deficit guarantee and primary tax credit guarantee positions. The Company believes the property's operations conform to the applicable requirements and does not anticipate any payment on the guarantee; therefore, no liability has been recorded in the financial statements.

Table of Contents**Capital Improvements** (dollars in thousands, except unit and per unit data)

The Company's policy is to capitalize costs related to the acquisition, development, rehabilitation, construction and improvement of properties. Capital improvements are costs that increase the value and extend the useful life of an asset. Ordinary repair and maintenance costs that do not extend the useful life of the asset are expensed as incurred. Costs incurred on a lease turnover due to normal wear and tear by the resident are expensed on the turn. Recurring capital improvements typically include appliances, carpeting and flooring, HVAC equipment, kitchen and bath cabinets, new roofs, site improvements and various exterior building improvements. Non-recurring revenue generating upgrades include community centers, new windows, and kitchen and bath apartment upgrades. Revenue generating capital improvements are expected to directly result in increased rental earnings or expense savings. The Company capitalizes interest and certain internal personnel costs related to the communities under rehabilitation and construction.

The Company estimates, that on an annual basis, \$800 per unit is spent on recurring capital expenditures in 2011 and 2010. During the three months ended March 31, 2011 and 2010, approximately \$200 per unit was spent on recurring capital expenditures.

The table below summarizes the actual total capital improvements incurred by major categories for the three months ended March 31, 2011 and 2010 and an estimate of the breakdown of total capital improvements by major categories between recurring, and non-recurring revenue generating, capital improvements for the three months ended March 31, 2011 as follows:

	For the three months ended March 31,							
	2011		2010		2011		2010	
	Recurring Cap Ex	Per Unit ^(a)	Non- Recurring Cap Ex	Per Unit ^(a)	Total Capital Improvements	Per Unit ^(a)	Total Capital Improvements	Per Unit ^(a)
New buildings	\$	\$	\$ 111	\$ 3	\$ 111	\$ 3	\$ 49	\$ 1
Major building improvements	1,191	31	1,946	51	3,137	82	1,313	37
Roof replacements	200	5			200	5	195	5
Site improvements	432	11	610	16	1,042	27	1,223	34

(a) Calculated using the weighted average number of units owned, including 35,798 core units and 2010 acquisition units of 2,614 for the three months ended March 31, 2011; and 35,798 core units for the three months ended March 31, 2010.

Table of Contents**Capital Improvements (continued)**

The schedule below summarizes the breakdown of total capital improvements between core and non-core as follows:

	For the three months ended March 31,						2010	
	Recurring Cap Ex	Per Unit ^(a)	Non- Recurring Cap Ex	Per Unit ^(a)	Total Capital Improvements	Per Unit ^(a)	Total Capital Improvements	Per Unit ^(a)
Core Communities	\$ 7,159	\$ 200	\$ 8,486	\$ 238	\$ 15,645	\$ 438	\$ 13,957	\$ 390
2010 Acquisition Communities	522	200	1,397	534	1,919	734		
Sub-total	7,681	200	9,883	258	17,564	458	13,957	390
Corporate office expenditures ^(b)					678		911	
Totals	\$ 7,681	\$ 200	\$ 9,883	\$ 258	\$ 18,242	\$ 458	\$ 14,868	\$ 390

(a) Calculated using the weighted average number of units owned, including 35,798 core units and 2010 acquisition units of 2,614 for the three months ended March 31, 2011; and 35,798 core units for the three months ended March 31, 2010.

(b) No distinction is made between recurring and non-recurring expenditures for corporate office. Corporate office expenditures include principally computer hardware, software, office furniture, fixtures and leasehold improvements.

Results of Operations (dollars in thousands, except unit and per unit data)

Net operating income (NOI) may fall within the definition of non-GAAP financial measure set forth in Item 10(e) of Regulation S-K and, as a result, the Company may be required to include in this report a statement disclosing the reasons why management believes that presentation of this measure provides useful information to investors. The Company believes that NOI is helpful to investors as a supplemental measure of the operating performance of a real estate company because it is a direct measure of the actual operating results of the Company's apartment communities. In addition, the apartment communities are valued and sold in the market by using a multiple of NOI. The Company uses this measure to compare its performance to that of its peer group. For a reconciliation of NOI to income from continuing operations, please refer to Note 12 to the Consolidated Financial Statements of this Form 10-Q.

Comparison of three months ended March 31, 2011 to the same period in 2010

The Company had 104 apartment communities with 35,798 units which were owned during the three months ended March 31, 2011 and 2010 (the Core Properties). The Company acquired nine apartment communities with 2,614 units and placed into service another 449 units at two development communities during 2010 (the Acquisition Communities). The inclusion of these acquired and developed communities generally accounted for the significant changes in operating results for the three months ended March 31, 2011.

On October 13, 2010, the Company sold its general partnership interest in one investment where the Company was the managing general partner and was determined to be a variable interest entity. The result of this sale is classified as discontinued operations and is not included in the table below.

Table of Contents**Results of Operations (continued)**

A summary of the net operating income for Core Properties is as follows:

	Three Months			
	2011	2010	\$ Change	% Change
Rent	\$ 116,399	\$ 113,185	\$ 3,214	2.8%
Utility recovery revenue	7,917	7,684	233	3.0%
Rent including recoveries	124,316	120,869	3,447	2.9%
Property other income	5,437	4,914	523	10.6%
Total revenue	129,753	125,783	3,970	3.2%
Operating and maintenance	(53,760)	(55,930)	2,170	3.9%
Net operating income	\$ 75,993	\$ 69,853	\$ 6,140	8.8%

A summary of the net operating income for the Company as a whole is as follows:

	Three Months			
	2011	2010	\$ Change	% Change
Rent	\$ 127,421	\$ 113,199	\$ 14,222	12.6%
Utility recovery revenue	8,057	7,684	373	4.9%
Rent including recoveries	135,478	120,883	14,595	12.1%
Property other income	5,867	4,926	941	19.1%
Total revenue	141,345	125,809	15,536	12.3%
Operating and maintenance	(58,279)	(56,028)	(2,251)	(4.0%)
Net operating income	\$ 83,066	\$ 69,781	\$ 13,285	19.0%

Of the \$14,222 increase in rental income, \$11,008 is attributable to the Acquisition Communities. The balance, an increase of \$3,214, relates to a 2.8% increase from the Core Properties as the result of an increase of 2.2% in weighted average rental rates from \$1,126 to \$1,151 per apartment unit, and by a 0.6% increase in economic occupancy from 93.6% to 94.2%. Economic occupancy is defined as total possible rental income, net of vacancy and bad debt expense, as a percentage of total possible rental income. Total possible rental income is determined by valuing occupied units at contract rents and vacant units at market rents. Of the \$373 increase in utility recovery revenue, \$233 is attributable to the Core Properties, and \$140 is attributable to the Acquisition Communities.

Property other income, which consists primarily of income from operation of laundry facilities, late charges, administrative fees, garage and carport rentals, revenue from corporate apartments, cable revenue, pet charges, and miscellaneous charges to residents, increased by \$941. Of this increase, \$418 is attributable to the Acquisition Communities, and \$523 is attributable to the Core Properties due mainly to volume purchasing discounts received in the current period as well as increases in renters insurance door fees and pet charges.

Of the \$2,251 increase in operating and maintenance expenses, \$4,421 is attributable to the Acquisition Communities; offset by a \$2,170 decrease attributable to the Core Properties. The decrease in Core Properties is primarily due to decreases in property insurance, snow removal costs, and natural gas heating costs; partially offset by increases in water & sewer costs.

Property insurance decreased by \$1,307, or 44.2%, due in part to a favorable change of \$721 in the self-insurance reserves as a result of a \$349 increase last year compared to a \$372 decrease this year. The current period reserve

decrease is a direct result of the Company's focus on settling older claims where the number of open claims has dropped approximately 33% from the prior year. The lower number of open claims has had a favorable impact on the estimated required reserves in 2011. The decrease before reserve adjustments of \$586, or 19.8%, is reflective of the increased emphasis on preventing losses at the communities through safety training programs and the installation of in-unit fire extinguishers for every apartment unit.

Snow removal costs were down \$493, or 26.0%, as most of our Mid-Atlantic region properties suffered from record storms in the first quarter 2010.

Table of Contents

Results of Operations (continued)

Natural gas heating costs were down \$473, or 6.0%, from a year ago due to lower commodity rates and consumption. For the first quarter 2011, our natural gas weighted average cost, including transportation of \$3.00 per decatherm, was \$9.06 per decatherm, compared to \$9.54 per decatherm for the 2010 period, a 5.0% decrease.

Water & sewer costs increased \$301, or 7.9%, primarily due to municipalities increasing rates. The water & sewer recovery program enabled the Company to recapture much of these rate increases from our residents.

General and administrative expenses increased in 2011 by \$679, or 12.2%. General and administrative expenses as a percentage of total revenues were 4.4% for both 2011 and 2010. The cost of the incentive bonus was up \$272, or 69.2%, as compared to 2010, reflecting the Company's favorable operating performance versus its peers. Stock-based compensation costs were up \$216 primarily due to the impact of employees nearing retirement age vesting over one less year. Also included in 2011 are \$89 of abandoned pursuit costs.

Interest expense increased by \$2,846, or 9.4%, in 2011 primarily as a result of interest expense on the new debt of the Acquisition Communities. The average line of credit borrowing in 2011 was \$51,216 compared to \$35,224 in 2010; however, the interest expense was \$560 in both periods, due to the impact of the lower effective interest rate in 2011 resulting from the line of credit amendment in February 2011, which removed the previous LIBOR floor of 1.50%.

Depreciation and amortization expense increased \$4,366, or 14.5%, due to the depreciation on the Acquisition Communities and the capital additions to the Core Properties.

Other expenses of \$10 are additional property acquisition costs from the Acquisition Communities.

Funds From Operations

Pursuant to the revised definition of Funds From Operations (FFO) adopted by the Board of Governors of the National Association of Real Estate Investment Trusts (NAREIT), FFO is defined as net income (computed in accordance with accounting principles generally accepted in the United States of America (GAAP)) excluding gains or losses from sales of property, noncontrolling interest, extraordinary items and cumulative effect of change in accounting principle plus depreciation from real property including adjustments for unconsolidated partnerships and joint ventures less dividends from non-convertible preferred shares. Because of the limitations of the FFO definition as published by NAREIT as set forth above, the Company has made certain interpretations in applying the definition. The Company believes all adjustments not specifically provided for are consistent with the definition.

FFO should not be considered as an alternative to net income (determined in accordance with GAAP) as an indication of our performance. FFO does not represent cash generated from operating activities determined in accordance with GAAP, and is not a measure of liquidity or an indicator of our ability to make cash distributions. We believe that to further understand our performance, FFO should be compared with our reported net income and considered in addition to cash flows in accordance with GAAP, as presented in our consolidated financial statements.

FFO falls within the definition of non-GAAP financial measure set forth in Item 10(e) of Regulation S-K and as a result the Company is required to include in this report a statement disclosing the reasons why management believes that presentation of this measure provides useful information to investors. Management believes that in order to facilitate a clear understanding of the consolidated historical operating results of the Company, FFO should be considered in conjunction with net income as presented in the consolidated financial statements included elsewhere herein. Management believes that by excluding gains or losses related to dispositions of property and excluding real estate depreciation (which can vary among owners of similar assets in similar condition based on historical cost accounting and useful life estimates), FFO can help one compare the operating performance of a company's real estate between periods or as compared to different companies. The Company also uses these measures to compare its performance to that of its peer group.

Table of Contents**Funds From Operations (continued)**

The calculation of FFO and reconciliation to GAAP net income attributable to common stockholders for the three months ended March 31, 2011 and 2010 are presented below (in thousands):

	Three Months	
	2011	2010
Net income attributable to common stockholders	\$ 7,224	\$ 2,637
Real property depreciation and amortization	33,815	29,723
Noncontrolling interest	2,139	874
Loss (gain) on disposition of property		11
FFO Basic and Diluted, as defined by NAREIT	\$ 43,178	\$ 33,245
Weighted average common shares/units outstanding ⁽¹⁾ :		
Basic	49,292.6	46,595.9
Diluted	49,948.2	47,032.3

(1) Basic includes common stock outstanding plus UPREIT Units which can be converted into shares of common stock. Diluted includes additional common stock equivalents.

All REITs may not be using the same definition for FFO. Accordingly, the above presentation may not be comparable to other similarly titled measures of FFO of other REITs.

Covenants

The credit agreement relating to the Company's line of credit provides for the Company to maintain certain financial covenants. The Company was in compliance with these financial covenants for all periods presented. The line of credit has not been used for long-term financing but adds a certain amount of flexibility, especially in meeting the Company's acquisition goals. Many times it is easier to temporarily finance an acquisition, development or stock repurchases by short-term use of the line of credit, with long-term secured financing or other sources of capital replenishing the line of credit availability.

Table of Contents

Economic Conditions

Substantially all of the leases at the Company's apartment communities are for a term of one year or less, which enables the Company to seek increased rents upon renewal of existing leases or commencement of new leases. These short-term leases minimize the potential adverse effect of inflation or deflation on rental income, although residents may leave without penalty at the end of their lease terms and may do so if rents are increased significantly.

Historically, real estate has been subject to a wide range of cyclical economic conditions, which affect various real estate sectors and geographic regions with differing intensities and at different times. In the fourth quarter of 2007, throughout 2008, 2009 and continuing into 2010, the sub-prime issue put significant pressure on the mortgage lending industry. This led to problems in the financial system which developed into the worst recession since the Great Depression. The credit markets tightened, consumer confidence plunged and unemployment soared. Despite this, the Company continued to receive favorable financing at market rates of interest, including the amendment and extension of the line of credit in 2011 at rates 40% lower than the prior agreement. Its average physical occupancy of 95.0% in 2008, 94.9% in 2009, 95.2% in 2010 and 95.3% in the first quarter of 2011 were the highest since 2000. Financial performance continued strong, leading the public multifamily sector in same-store NOI growth in 2009 and 2010, reflecting the stability of our geographic markets and business model. Beginning in 2011, we see an improving economic climate leading to job growth which typically results in household formations. At the same time the supply of new multi-family units is somewhat constrained, which could further boost our occupancy and enhance the Company's ability to raise rents and deliver upgraded units into a more favorable rental climate. In light of this, we will continue to review our business strategy throughout the year.

Dividends and Distributions

On May 3, 2011, the Board of Directors declared a dividend of \$0.62 per share on the Company's common stock and approved a distribution of \$0.62 per UPREIT Unit for the quarter ended March 31, 2011. This is the equivalent of an annual dividend/distribution of \$2.48 per share/unit. The dividend and distribution is payable May 27, 2011, to stockholders and unitholders of record on May 17, 2011.

Contingencies

The Company is not a party to any legal proceedings which are expected to have a material adverse effect on the Company's liquidity, financial position or results of operations. The Company is subject to a variety of legal actions for personal injury or property damage arising in the ordinary course of its business, most of which are covered by liability and property insurance. Various claims of employment and resident discrimination are also periodically brought, most of which also are covered by insurance. While the resolution of these matters cannot be predicted with certainty, management believes that the final outcome of such legal proceedings and claims will not have a material adverse effect on the Company's liquidity, financial position or results of operations.

Recently Adopted and Recently Issued Accounting Standards

Disclosure of recently adopted and recently issued accounting standards is incorporated herein by reference to the discussion under Part I, Item 1, Notes to the Consolidated Financial Statements, Note 3.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's primary market risk exposure is interest rate risk. At March 31, 2011 and December 31, 2010, approximately 90% of the Company's secured and unsecured debt bore interest at fixed rates, and approximately 85% and 84%, respectively, of the Company's debt was secured and bore interest at fixed rates. The secured fixed rate debt had weighted average maturities of approximately 6.28 years and 6.52 years and a weighted average interest rate of approximately 5.36% at March 31, 2011 and December 31, 2010, respectively. The remainder of the Company's secured debt bore interest at variable rates with a weighted average maturity of approximately 7.17 and 7.05 years and a weighted average interest rate of 3.00% at March 31, 2011 and December 31, 2010, respectively. The Company does not intend to utilize a significant amount of permanent variable rate debt to acquire properties in the future. On occasion, the Company may use its line of credit in connection with a property acquisition, development or stock repurchase with the intention to refinance at a later date. The Company believes that increases in interest expense as a result of inflation would not significantly impact the Company's distributable cash flow.

At March 31, 2011 and December 31, 2010, the fair value of the Company's fixed and variable rate secured debt amounted to a liability of \$2.44 billion and \$2.48 billion, respectively, compared to its carrying amount of \$2.40 billion and \$2.42 billion. The Company estimates that a 100 basis point increase in market interest rates at March 31, 2011 would have changed the fair value of the Company's fixed and variable rate secured debt to a liability of \$2.33 billion and would result in \$2.0 million higher interest expense on the variable rate secured debt on an annualized basis. At March 31, 2011 and December 31, 2010, the fair value of the Company's total debt, including the Senior Notes and line of credit, amounted to a liability of \$2.63 billion and \$2.68 billion, respectively, compared to its carrying amount of \$2.59 billion and \$2.62 billion.

The Company intends to continuously monitor and actively manage interest costs on its variable rate debt portfolio and may enter into swap positions based upon market fluctuations. Accordingly, the cost of obtaining such interest rate protection agreements in relation to the Company's access to capital markets will continue to be evaluated. The Company has not, and does not plan to, enter into any derivative financial instruments for trading or speculative purposes. In addition, the Company believes that it has the ability to obtain funds through additional debt and/or equity offerings and/or the issuance of UPREIT Units. As of March 31, 2011, the Company had no other material exposure to market risk.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the reports filed or submitted by the Company under the Securities Exchange Act of 1934, as amended (the Exchange Act) is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to the officers who certify the Company's financial reports and to the other members of senior management and the Board of Directors.

The principal executive officer and principal financial officer evaluated, as of March 31, 2011, the effectiveness of the disclosure controls and procedures (as defined in Rules 13a-15(e) and 15-d-15(e) under the Exchange Act) and have determined that such disclosure controls and procedures are effective.

There have been no changes in the internal controls over financial reporting identified in connection with that evaluation, or that occurred during the first quarter of the year ended December 31, 2011 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None.

ITEM 1A. RISK FACTORS

Refer to the Risk Factors disclosure in the Company's Form 10-K for the year ended December 31, 2010. There have been no material changes in these risk factors during the three months ended March 31, 2011 and through the date of this report.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES; USE OF PROCEEDS FROM REGISTERED SECURITIES

Unregistered Sales of Equity Securities

None.

Issuer Purchases of Equity Securities

In 1997, the Company's Board of Directors (the Board) approved a stock repurchase program under which the Company may repurchase shares of its outstanding common stock and UPREIT Units (Company Program). The shares and units may be repurchased through open market or privately negotiated transactions at the discretion of Company management. The Board's action did not establish a specific target stock price or a specific timetable for share repurchase. At March 31, 2011, the Company had authorization to repurchase 2,291,160 shares of common stock and UPREIT Units under the Company Program and during the three months ended March 31, 2011, the Company did not repurchase any shares under the Company Program.

In addition, participants in the Company's Stock Benefit Plan can use common stock of the Company that they already own to pay all or a portion of the exercise price payable to the Company upon the exercise of an option. In such event, the common stock used to pay the exercise price is returned to authorized but unissued status, and for purposes of this table is deemed to have been repurchased by the Company, but does not represent repurchases under the Company Program.

During the quarter ended March 31, 2011, and as permitted by the Company's Stock Benefit Plan, 11,466 shares of common stock already owned by option holders were used by those holders to pay the exercise price associated with their option exercise. These shares were returned to the status of authorized but unissued shares.

The following table summarizes the total number of shares (units) repurchased by the Company during the quarter ended March 31, 2011:

Period	Total shares/units purchased	Average price per share/unit	Maximum shares/units available under the Company Program
Balance January 1, 2011:			2,291,160
January 2011		\$	2,291,160
February 2011	7,090	57.41	2,291,160
March 2011	4,376	56.84	2,291,160
Balance March 31, 2011:	11,466	\$ 57.19	2,291,160
