PART I

ITEM 1. BUSINESS

General

Lamar Advertising Company, referred to herein as the Company or Lamar Advertising or we is one of the largest outdoor advertising companies in the United States based on number of displays and has operated under the Lamar name since 1902. As of December 31, 2007, we owned and operated approximately 151,000 billboard advertising displays in 44 states, Canada and Puerto Rico, approximately 100,000 logo advertising displays in 19 states and the province of Ontario, Canada, and operated over 28,500 transit advertising displays in 17 states, Canada and Puerto Rico. We offer our customers a fully integrated service, satisfying all aspects of their billboard display requirements from ad copy production to placement and maintenance.

The Company's Business

We operate three types of outdoor advertising displays: billboards, logo signs and transit advertising displays.

Billboards. We sell most of our advertising space on two types of billboards: bulletins and posters.

§ *Bulletins* are generally large, illuminated advertising structures that are located on major highways and target vehicular traffic.

§ *Posters* are generally smaller advertising structures that are located on major traffic arteries and city streets and target vehicular and pedestrian traffic.

In addition to these traditional billboards, we also sell digital billboards which are generally located on major traffic arteries and city streets. As of December 31, 2007, we owned and operated approximately 660 digital billboard advertising displays in 37 states and Canada.

Logo signs. We sell advertising space on logo signs located near highway exits.

§ *Logo signs* generally advertise nearby gas, food, camping, lodging and other attractions.

We are the largest provider of logo signs in the United States, operating 19 of the 25 privatized state logo sign contracts. As of December 31, 2007, we operated approximately 100,000 logo sign advertising displays in 19 states and Canada.

Transit advertising displays. We also sells advertising space on the exterior and interior of public transportation vehicles, transit shelters and benches in 69 markets. As of December 31, 2007, we operated over 28,500 transit advertising displays in 17 states, Canada and Puerto Rico.

Corporate History

We have operated under the Lamar name since its founding in 1902 and have been publicly traded on Nasdaq under the symbol LAMR since 1996. We completed a reorganization on July 20, 1999 that created our current holding company structure. At that time, the operating company (then called Lamar Advertising Company) was renamed Lamar Media Corp., and all of the operating company's stockholders became stockholders of a new holding company. The new holding company then took the Lamar Advertising Company name, and Lamar Media Corp. became a wholly owned subsidiary of Lamar Advertising Company.

In this report, we refer to Lamar Advertising Company as the Company or we and Lamar Advertising's wholly owned subsidiary Lamar Media Corp. as Lamar Media.

Where you can find more information

We make our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to these reports available free of charge through its website, www.lamar.com, as soon as reasonably practicable after filing them with, or furnishing them to, the Securities and Exchange Commission. Operating Strategies

We strive to be a leading provider of outdoor advertising services in each of the markets that we serve, and our operating strategies for achieving that goal include:

Continuing to provide high quality local sales and service. We seek to identify and closely monitor the needs of our customers and to provide them with a full complement of high quality advertising services. Local advertising constituted approximately 82% of our net revenues for the year ended December 31, 2007, which management believes is higher than the industry average. We believe that the experience of our regional and local managers has contributed greatly to our success. For example, our regional managers have been with us for an average of 26 years. In an effort to provide high quality sales and service at the local level, we employed approximately 950 local account executives as of December 31, 2007. Local account executives are typically supported by additional local staff and have the ability to draw upon the resources of the central office, as well as offices in its other markets, in the event business opportunities or customers' needs support such an allocation of resources.

Continuing a centralized control and decentralized management structure. Our management believes that, for our particular business, centralized control and a decentralized organization provide for greater economies of scale and are more responsive to local market demands. Therefore, we maintain centralized accounting and financial control over our local operations, but our local managers are responsible for the day-to-day operations in each local market and are compensated according to that market's financial performance.

Continuing to focus on internal growth. Within our existing markets, we seek to increase our revenue and improve cash flow by employing highly-targeted local marketing efforts to improve our display occupancy rates and by increasing advertising rates where and when demand can absorb rate increases. Our local offices spearhead this effort and respond to local customer demands quickly.

In addition, we routinely invest in upgrading our existing displays and constructing new displays. From January 1, 1997 to December 31, 2007, we invested approximately \$1.1 billion in improvements to our existing displays and in constructing new displays. Our regular improvement and expansion of our advertising display inventory allow us to provide high quality service to our current advertisers and to attract new advertisers.

Continuing to pursue strategic acquisitions. We intend to enhance our growth by continuing to pursue strategic acquisitions that result in increased operating efficiencies, greater geographic diversification, increased market penetration and opportunities for inter-market cross-selling. In addition to acquiring outdoor advertising assets in new markets, we acquire complementary outdoor advertising assets within existing markets and in contiguous markets. We have a proven track record of integrating acquired outdoor advertising businesses and assets. Since January 1, 1997, we have successfully completed over 840 acquisitions, including over 300 acquisitions for an aggregate purchase price of approximately \$763.6 million from January 1, 2004 to December 31, 2007. Although the advertising industry is becoming more consolidated, we believe acquisition opportunities still exist, given the industry's continued fragmentation among smaller advertising companies.

Continuing to pursue other outdoor advertising opportunities. We plan to pursue additional logo sign contracts. Logo sign opportunities arise periodically, both from states initiating new logo sign programs and states converting from government-owned and operated programs to privately-owned and operated programs. Furthermore, we plan to pursue additional tourist oriented directional sign programs in both the United States and Canada and also other motorist information signing programs as opportunities present themselves. In an effort to maintain market share, we have entered the transit advertising business through the operation of displays on bus shelters, benches and buses in 69 of our advertising markets.

COMPANY OPERATIONS

Billboard Advertising

We sell most of our advertising space on two types of billboard advertising displays: bulletins and posters. As of December 31, 2007, we owned and operated approximately 151,000 billboard advertising displays in 44 states, Canada and Puerto Rico. In 2007, we derived approximately 74% of our billboard advertising net revenues from bulletin sales and 26% from poster sales.

Bulletins are large, advertising structures (the most common size is fourteen feet high by forty-eight feet wide, or 672 square feet) consisting of panels on which advertising copy is displayed. We wrap advertising copy printed with computer-generated graphics on a single sheet of vinyl around the structure. To attract more attention, some of the panels may extend beyond the linear edges of the display face and may include three-dimensional embellishments. Because of their greater impact and higher cost, bulletins are usually located on major highways and target vehicular traffic. At December 31, 2007, we operated approximately 73,000 bulletins.

We generally sell individually-selected bulletin space to advertisers for the duration of the contract (usually six to twelve months). We also sell bulletins as part of a rotary plan under which we rotate the advertising copy from one bulletin location to another within a particular market at stated intervals (usually every sixty to ninety days) to achieve greater reach within that market.

Posters are slightly smaller advertising structures (the most common size is twelve feet high by twenty-five feet wide, or 300 square feet; we also operate junior posters, which are six feet high by twelve feet wide, or 72 square feet). There are two kinds of advertising copy we use on posters. The first consists of lithographed or silk-screened paper sheets supplied by the advertiser that we paste and apply like wallpaper to the face of the display, and the second consists of single sheets of vinyl with computer-generated advertising copy that we wrap around the structure. Posters are concentrated on major traffic arteries and target vehicular traffic, and junior posters are concentrated on city streets and target hard-to-reach pedestrian traffic and nearby residents. Posters provide advertisers with access to either a specified percentage of the general population or a specific targeted audience. At December 31, 2007, we operated approximately 78,000 posters.

We generally sell poster space for thirty- and sixty-day periods in packages called *showings*, which comprise a given number of displays in a specified market area. We place and spread out the displays making up a showing in well-traveled areas to reach a wide audience in the particular market.

In addition to the traditional displays described above, we also sell digital billboards. Digital billboards are large electronic light emitting diode (LED) displays (the most common sizes are fourteen feet high by forty feet wide, or 560 square feet; ten and a half feet high by thirty six feet wide, or 378 square feet; and ten feet high by twenty-one feet wide, or 210 square feet) that are generally located on major traffic arteries and city streets. Digital billboards are capable of generating over one billion colors and vary in brightness based on ambient conditions. They display completely digital advertising copy from various advertisers in a slide show fashion, rotating each advertisement approximately every 6 to 8 seconds. We give digital advertisers flexibility to change their advertising copy quickly by sending new artwork over a secured internet connection. As of December 31, 2007, we operated approximately 660 digital billboards in various markets.

We own the physical structures on which the advertising copy is displayed. We build the structures on locations we either own or lease. In each local office one employee typically performs site leasing activities for the markets served by that office. See Item 2. *Properties*.

In the majority of our markets, our local production staffs perform the full range of activities required to create and install billboard advertising displays. Production work includes creating the advertising copy design and layout, coordinating its printing and installing the designs on the displays. We provide our production services to local advertisers and to advertisers that are not represented by advertising agencies, as most national advertisers represented by advertising agencies use preprinted designs that require only our installation. Our talented design staff uses state-of-the-art technology to prepare creative, eye-catching displays for our customers. We can also help with the strategic placement of advertisements throughout an advertiser's market by using software that allows us to analyze the target audience and its demographics. Our artists also assist in developing marketing presentations, demonstrations and strategies to attract new customers.

In marketing billboard displays to advertisers, we compete with other forms of out-of-home advertising and other media. When selecting the media and provider through which to advertise, advertisers consider a number of factors and advertising providers which are described in the section entitled Competition below.

Table of Contents

Logo Sign Advertising

We entered the logo sign advertising business in 1988 and have become the largest provider of logo sign services in the United States, operating 19 of the 25 privatized state logo contracts. We erect logo signs, which generally advertise nearby gas, food, camping, lodging and other attractions, and directional signs, which direct vehicle traffic to nearby services and tourist attractions, near highway exits. As of December 31, 2007, we operated over 29,000 logo sign structures containing over 100,000 logo advertising displays in the United States and Canada.

We operate the logo sign contracts in the following states and the province of Ontario, Canada:

Colorado	Kentucky	Missouri(1)	Oklahoma
Delaware	Maine	Nebraska	South Carolina
Florida	Michigan	Nevada	Utah
Georgia	Minnesota	New Jersey	Virginia
Kansas	Mississippi	Ohio	

- (1) The logo sign contract in Missouri is operated by a 66 2/3% owned partnership.

We also operate the tourist oriented directional signing (TODS) programs for the states of Nevada, Colorado, Nebraska, Missouri, Michigan, Ohio, Kentucky, Virginia and New Jersey, and the province of Ontario, Canada.

Our logo and TODS operations are decentralized. Generally, each office is staffed with an experienced local general manager, a local sales and office staff and a local signing sub-contractor. This decentralization allows the management staff of Interstate Logos, L.L.C. (the subsidiary that operates all of the logo and directional sign-related businesses) to travel extensively to the various operations and serve in a technical and management advisory capacity and monitor regulatory and contract compliance. We also run a silk screening operation in Baton Rouge, Louisiana and a display construction company in Atlanta, Georgia.

State logo sign contracts represent the exclusive right to erect and operate logo signs within a state for a period of time. The terms of the contracts vary, but generally range from five to ten years, with additional renewal terms. Each logo sign contract generally allows the state to terminate the contract prior to its expiration and, in most cases, with compensation for the termination to be paid to the company. When a logo sign contract expires, we transfer ownership of the advertising structures to the state. Depending on the contract, we may or may not be entitled to compensation at that time. Of our twenty logo sign contracts in place, in the United States and Canada, at December 31, 2007, four are subject to renewal in 2008.

States usually award new logo sign contracts and renew expiring logo sign contracts through an open proposal process. In bidding for new and renewal contracts, we compete against three other national logo sign providers, as well as local companies based in the state soliciting proposals.

In marketing logo signs to advertisers, we compete with other forms of out-of-home advertising and other media. When selecting the media and provider through which to advertise, advertisers consider a number of factors and advertising providers which are described in the section entitled Competition below.

Transit Advertising

We entered into the transit advertising business in 1993 as a way to complement our existing business and maintain market share in certain markets. We provide transit advertising displays on bus shelters, benches and buses in 69 transit markets, and our production staff provides a full range of creative and installation services to our transit advertising customers. As of December 31, 2007, we operated over 28,500 transit advertising displays in 17 states, Canada and Puerto Rico.

Table of Contents

Municipalities usually award new transit advertising contracts and renew expiring transit advertising contracts through an open bidding process. In bidding for new and renewal contracts, we compete against national outdoor advertising providers and local, on-premise sign providers and sign construction companies. Transit advertising operators incur significant start-up costs to build and install the advertising structures (such as transit shelters) upon being awarded contracts.

In marketing transit advertising displays to advertisers, we compete with other forms of out-of-home advertising and other media. When selecting the media and provider through which to advertise, advertisers consider a number of factors and advertising providers which are described in the section entitled Competition below.

COMPETITION

Although the outdoor advertising industry has encountered a wave of consolidation, the industry remains fragmented. The industry is comprised of several large outdoor advertising and media companies with operations in multiple markets, as well as smaller, local companies operating a limited number of structures in one or a few local markets.

Although we primarily focus on small to mid-size markets where we can attain a strong market share, in each of our markets, we compete against other providers of outdoor advertising and other types of media, including:

- § Larger outdoor advertising providers, such as (i) Clear Channel Outdoor Holdings, Inc., which operates billboards, street furniture displays, transit displays and other out-of-home advertising displays in North America and worldwide and (ii) CBS Outdoor, a division of CBS Corporation, which operates traditional outdoor, street furniture and transit advertising properties in North America and worldwide. Clear Channel Outdoor and CBS Outdoor each have corporate relationships with large media conglomerates and may have greater total resources, product offerings and opportunities for cross-selling than we do.
- § Other forms of media, such as broadcast and cable television, radio, print media, direct mail marketing, telephone directories and the Internet.
- § An increasing variety of out-of-home advertising media, such as advertising displays in shopping centers, malls, airports, stadiums, movie theaters and supermarkets and advertising displays on taxis, trains and buses.

In selecting the form of media through which to advertise, advertisers evaluate their ability to target audiences having a specific demographic profile, lifestyle, brand or media consumption or purchasing behavior or audiences located in, or traveling through, a particular geography. Advertisers also compare the relative costs of available media, evaluating the number of impressions (potential viewings), exposure (the opportunity for advertising to be seen) and circulation (traffic volume in a market), as well as potential effectiveness, quality of related services (such as advertising copy design and layout) and customer service. In competing with other media, we believe that outdoor advertising is relatively more cost-efficient than other media, allowing advertisers to reach broader audiences and target specific geographic areas or demographics groups within markets.

We believe that our strong emphasis on sales and customer service and our position as a major provider of advertising services in each of our primary markets enables us to compete effectively with the other outdoor advertising companies, as well as with other media, within those markets.

Table of Contents**CUSTOMERS**

Our customer base is diverse. The table below sets forth the ten industries from which we derived most of our billboard advertising revenues for the year ended December 31, 2007, as well as the percentage of billboard advertising revenues attributable to the advertisers in those industries. The individual advertisers in these industries accounted for approximately 72% of our billboard advertising net revenues in the year ended December 31, 2007. No individual advertiser accounted for more than 2% of our billboard advertising net revenues in that period.

REGULATION

Outdoor advertising is subject to governmental regulation at the federal, state and local levels. Regulations generally restrict the size, spacing, lighting and other aspects of advertising structures and pose a significant barrier to entry and expansion in many markets.

Federal law, principally the Highway Beautification Act of 1965 (the HBA), regulates outdoor advertising on Federal Aid Primary, Interstate and National Highway Systems roads. The HBA requires states to effectively control outdoor advertising along these roads, and mandates a state compliance program and state standards regarding size, spacing and lighting. The HBA requires any state or political subdivision that compels the removal of a lawful billboard along a Federal Aid Primary or Interstate highway to pay just compensation to the billboard owner.

All states have passed billboard control statutes and regulations at least as restrictive as the federal requirements, including laws requiring the removal of illegal signs at the owner's expense (and without compensation from the state). Although we believe that the number of our billboards that may be subject to removal as illegal is immaterial, and no state in which we operate has banned billboards entirely, from time to time governments have required us to remove signs and billboards legally erected in accordance with federal, state and local permit requirements and laws. Municipal and county governments generally also have sign controls as part of their zoning laws and building codes. We contest laws and regulations that we believe unlawfully restrict our constitutional or other legal rights and may adversely impact the growth of our outdoor advertising business.

Using federal funding for transportation enhancement programs, state governments have purchased and removed billboards for beautification, and may do so again in the future. Under the power of eminent domain, state or municipal governments have laid claim to property and forced the removal of billboards. Under a concept called amortization by which a governmental body asserts that a billboard operator has earned compensation by continued operation over time, local governments have attempted to force removal of legal but nonconforming billboards (i.e., billboards that conformed with applicable zoning regulations when built but which do not conform to current zoning regulations). Although the legality of amortization is questionable, it has been upheld in some instances. Often, municipal and county governments also have sign controls as part of their zoning laws, with some local governments prohibiting construction of new billboards or allowing new construction only to replace existing structures. Although

we have generally been able to obtain satisfactory compensation for those of our billboards purchased or removed as a result of governmental action, there is no assurance that this will continue to be the case in the future.

We have also introduced and intend to expand the deployment of digital billboards that display static digital advertising copy from various advertisers that changes every 6 to 8 seconds. We have encountered some existing regulations that restrict or prohibit these types of digital displays but it has not yet materially impacted our digital deployment. Since digital billboards have only recently been developed and introduced into the market on a large scale, however, existing regulations that currently do not apply to them by their terms could be revised to impose greater restrictions. These regulations may impose greater restrictions on digital billboards due to alleged concerns over aesthetics or driver safety.

Table of Contents

EMPLOYEES

We employed over 3,200 people as of December 31, 2007. Approximately 165 employees were engaged in overall management and general administration at our management headquarters in Baton Rouge, Louisiana, and the remainder, including approximately 950 local account executives, were employed in our operating offices.

Thirteen of our local offices employ billposters and construction personnel who are covered by collective bargaining agreements. We believe that our relationship with our employees, including our 124 unionized employees, is good, and we have never experienced a strike or work stoppage.

INFLATION

In the last three years, inflation has not had a significant impact on us.

SEASONALITY

Our revenues and operating results are subject to seasonality. Typically, we experience our strongest financial performance in the summer and fall, and our weakest financial performance in the first quarter of the calendar year, partly because retailers cut back their advertising spending immediately following the holiday shopping season. We expect this trend to continue in the future. Because a significant portion of our expenses is fixed, a reduction in revenues in any quarter is likely to result in a period-to-period decline in operating performance and net earnings.

ITEM 1A. RISK FACTORS

The Company's substantial debt may adversely affect its business, financial condition and financial results.

The Company has borrowed substantially in the past and will continue to borrow in the future. At December 31, 2007, Lamar Advertising Company had \$287.5 million of convertible notes outstanding, and Lamar Media had approximately \$2.7 billion of total debt outstanding, consisting of approximately \$1.2 billion in bank debt, \$1.2 billion in various series of senior subordinated notes and a mirror note issued to the Company in the amount of \$287.5 million, which is equal to the aggregate principal amount of the Company's outstanding convertible notes. Despite the level of debt presently outstanding, the terms of the indentures governing Lamar Media's notes and the terms of the bank credit facility allow Lamar Media to incur substantially more debt, including approximately \$385.0 million available for borrowing as of December 31, 2007 under the revolving bank credit facility.

The Company's substantial debt and its use of cash flow from operations to make principal and interest payments on its debt may, among other things:

- § limit the cash flow available to fund the Company's working capital, capital expenditure or other general corporate requirements;
- § limit the Company's ability to obtain additional financing to fund future working capital, capital expenditure or other general corporate requirements;
- § inhibit the Company's ability to fund or finance an appropriate level of acquisition activity, which has traditionally been a significant component of the Company's year-to-year revenue growth;
- § place the Company at a competitive disadvantage relative to those of its competitors that have less debt;
- § make it more difficult for the Company to comply with the financial covenants in its bank credit facility, which could result in a default and an acceleration of all amounts outstanding under the facility;
- § force the Company to seek and obtain alternate or additional sources of funding, which may be unavailable, or may be on less favorable terms, or may require the Company to obtain the consent of lenders under its bank credit facility or the holders of its other debt;
- § limit the Company's flexibility in planning for, or reacting to, changes in its business and industry;
- § affect the Company's ability to complete its previously announced stock repurchase program; and

§ increase the Company's vulnerability to general adverse economic and industry conditions.

Table of Contents

Any of these problems could adversely affect the Company's business, financial condition and financial results.

Restrictions in the Company's and Lamar Media's debt agreements reduce operating flexibility and contain covenants and restrictions that create the potential for defaults, which could adversely affect the Company's business, financial condition and financial results.

The terms of the indenture relating to the Company's outstanding notes, Lamar Media's bank credit facility and the indentures relating to Lamar Media's outstanding notes restrict the ability of the Company and Lamar Media to, among other things:

- § incur or repay debt;
- § dispose of assets;
- § create liens;
- § make investments;
- § enter into affiliate transactions; and
- § pay dividends and make inter-company distributions.

The terms of Lamar Media's bank credit facility also restrict it from exceeding specified total debt and senior debt ratios and require it to maintain specified interest coverage and fixed charges coverage ratios. Please see

Management's Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources for a description of the specific financial ratio requirements under the bank credit facility.

These restrictions reduce the Company's operating flexibility and could prevent the Company from exploiting investment, acquisition, marketing, stock repurchase or other time-sensitive business opportunities. Moreover, the Company's ability to comply with the financial covenants in the bank credit facility (and similar covenants in future agreements) depends on its operating performance, which in turn depends significantly on prevailing economic, financial and business conditions and other factors that are beyond the Company's control. Therefore, despite its best efforts and execution of its strategic plan, the Company may be unable to comply with these financial covenants in the future. If Lamar Media fails to comply with its financial covenants, the lenders under the bank credit facility could accelerate all of the debt outstanding, which would create serious financial problems and could lead to a default under the indentures governing the Company's and Lamar Media's outstanding notes. Any of these events could adversely affect the Company's business, financial condition and financial results.

The Company's revenues are sensitive to general economic conditions and other external events beyond the Company's control.

The Company sells advertising space on outdoor structures to generate revenues. Advertising spending is particularly sensitive to changes in general economic conditions, and the occurrence of any of the following external events could depress the Company's revenues:

- § a decline in general economic conditions, which could reduce national advertising spending disproportionately;
- § a decline in economic conditions in specific geographical markets, which could reduce local advertising spending in those particular markets disproportionately;
- § a widespread reallocation of advertising expenditures to other available media by significant users of the Company's displays;
- § a decline in the amount spent on advertising in general or outdoor advertising in particular; and
- § increased regulation of the subject matter, location or operation of outdoor advertising displays and taxation on outdoor advertising.

The Company's continued growth through acquisitions may become more difficult, which could adversely affect the Company's future financial performance.

Over the last 10 years, the outdoor advertising industry has experienced a wave of consolidation, in part due to the regulatory restrictions on building new outdoor advertising structures. The Company has been a major participant in this trend, using acquisitions of outdoor advertising businesses and assets as a means of increasing its advertising display inventory in existing and new markets.

Table of Contents

The Company currently anticipates acquisition activity in 2008 to be approximately \$250 million. Acquisitions will remain an important component of the Company's future revenue growth.

The future success of the Company's acquisition strategy could be adversely affected by many factors, including the following:

- § the pool of suitable acquisition candidates is dwindling, and the Company may have a more difficult time negotiating acquisitions on favorable terms;
- § the Company may face increased competition for acquisition candidates from other outdoor advertising companies, some of which have greater financial resources than the Company, which may result in higher prices for those businesses and assets;
- § the Company may not have access to the capital needed to finance potential acquisitions and may be unable to obtain any required consents from its current lenders to obtain alternate financing;
- § the Company may be unable to integrate acquired businesses and assets effectively with its existing operations and systems as a result of unforeseen difficulties that could divert significant time, attention and effort from management that could otherwise be directed at developing existing business;
- § the Company may be unable to retain key personnel of acquired businesses;
- § the Company may not realize the benefits and cost savings anticipated in its acquisitions; and
- § as the industry consolidates further, larger mergers and acquisitions may face substantial scrutiny under antitrust laws.

These obstacles to the Company's opportunistic acquisition strategy may have an adverse effect on its future financial results.

The Company faces competition from larger and more diversified outdoor advertisers and other forms of advertising that could hurt its performance.

While the Company enjoys a significant market share in many of its small and medium-sized markets, the Company faces competition from other outdoor advertisers and other media in all of its markets. Although the Company is one of the largest companies focusing exclusively on outdoor advertising in a relatively fragmented industry, it competes against larger companies with diversified operations, such as television, radio and other broadcast media. These diversified competitors have the advantage of cross-selling complementary advertising products to advertisers.

The Company also competes against an increasing variety of out-of-home advertising media, such as advertising displays in shopping centers, malls, airports, stadiums, movie theaters and supermarkets, and on taxis, trains and buses. To a lesser extent, the Company also faces competition from other forms of media, including radio, newspapers, direct mail advertising, telephone directories and the Internet. The industry competes for advertising revenue along the following dimensions: exposure (the number of impressions an advertisement makes), advertising rates (generally measured in cost-per-thousand impressions), ability to target specific demographic groups or geographies, effectiveness, quality of related services (such as advertising copy design and layout) and customer service. The Company may be unable to compete successfully along these dimensions in the future, and the competitive pressures that the Company faces could adversely affect its profitability or financial performance.

The Company currently has two primary suppliers of the LED digital displays for its digital billboards. If they cannot meet the Company's requirements for these displays in the future, it could adversely affect the Company's digital deployment.

The Company's inventory of digital billboards increased to 660 units in operation at December 31, 2007 and it intends to expand its digital deployment in the future based on customer and market demand. The Company currently has two primary suppliers of the LED digital displays used in its digital billboards (Young Electric Sign Company

(YESCO) and Daktronics, Inc.). Any inability of these suppliers to produce additional displays, including due to increased demand from us or others, could adversely affect its ability to deploy additional digital units and service existing units. Although to date these suppliers have been able to increase capacity in order to meet the Company's requirements, there is no guarantee, however, that they will be able to continue to meet the Company's requirements in the future and a shortage of these displays could adversely affect the Company's ability to fulfill customers' orders and its results of operations.

Federal, state and local regulation impact the Company's operations, financial condition and financial results.

Outdoor advertising is subject to governmental regulation at the federal, state and local levels. Regulations generally restrict the size, spacing, lighting and other aspects of advertising structures and pose a significant barrier to entry and expansion in many markets.

Table of Contents

Federal law, principally the Highway Beautification Act of 1965 (the HBA), regulates outdoor advertising on Federal Aid Primary, Interstate and National Highway Systems roads . The HBA requires states to effectively control outdoor advertising along these roads, and mandates a state compliance program and state standards regarding size, spacing and lighting. The HBA requires any state or political subdivision that compels the removal of a lawful billboard along a Federal Aid Primary or Interstate highway to pay just compensation to the billboard owner.

All states have passed billboard control statutes and regulations at least as restrictive as the federal requirements, including laws requiring the removal of illegal signs at the owner's expense (and without compensation from the state). Although we believe that the number of our billboards that may be subject to removal as illegal is immaterial, and no state in which we operate has banned billboards entirely, from time to time governments have required us to remove signs and billboards legally erected in accordance with federal, state and local permit requirements and laws. Municipal and county governments generally also have sign controls as part of their zoning laws and building codes. We contest laws and regulations that we believe unlawfully restrict our constitutional or other legal rights and may adversely impact the growth of our outdoor advertising business.

Using federal funding for transportation enhancement programs, state governments have purchased and removed billboards for beautification, and may do so again in the future. Under the power of eminent domain, state or municipal governments have laid claim to property and forced the removal of billboards. Under a concept called amortization by which a governmental body asserts that a billboard operator has earned compensation by continued operation over time, local governments have attempted to force removal of legal but nonconforming billboards (i.e., billboards that conformed with applicable zoning regulations when built but which do not conform to current zoning regulations). Although the legality of amortization is questionable, it has been upheld in some instances. Often, municipal and county governments also have sign controls as part of their zoning laws, with some local governments prohibiting construction of new billboards or allowing new construction only to replace existing structures. Although we have generally been able to obtain satisfactory compensation for those of our billboards purchased or removed as a result of governmental action, there is no assurance that this will continue to be the case in the future.

We have also introduced and intend to expand the deployment of digital billboards that display static digital advertising copy from various advertisers that changes every 6 to 8 seconds. We have encountered some existing regulations that restrict or prohibit these types of digital displays but it has not yet materially impacted our digital deployment. Since digital billboards have only recently been developed and introduced into the market on a large scale, however, existing regulations that currently do not apply to them by their terms could be revised to impose greater restrictions. These regulations may impose greater restrictions on digital billboards due to alleged concerns over aesthetics or driver safety.

The Company's logo sign contracts are subject to state award and renewal.

In 2007, the Company generated approximately 4% of its revenues from state-awarded logo sign contracts. In bidding for these contracts, the Company competes against three other national logo sign providers, as well as numerous smaller, local logo sign providers. A logo sign provider incurs significant start-up costs upon being awarded a new contract. These contracts generally have a term of five to ten years, with additional renewal periods. Some states reserve the right to terminate a contract early, and most contracts require the state to pay compensation to the logo sign provider for early termination. At the end of the contract term, the logo sign provider transfers ownership of the logo sign structures to the state. Depending on the contract, the logo provider may or may not be entitled to compensation for the structures at the end of the contract term.

Of the Company's 20 logo sign contracts in place at December 31, 2007, four are subject to renewal in 2008. The Company may be unable to renew its expiring contracts. The Company may also lose the bidding on new contracts.

The Company is controlled by significant stockholders who have the power to determine the outcome of all matters submitted to the stockholders for approval and whose interest in the Company may be different than yours.

As of December 31, 2007, members of the Reilly family, including Kevin P. Reilly, Jr., the Company's Chairman, President and Chief Executive Officer, and Sean Reilly, the Company's Chief Operating Officer and President of its Outdoor Division, owned in the aggregate approximately 17% of the Company's outstanding common stock, assuming the conversion of all Class B common stock to Class A common stock. As of that date, their combined holdings represented 67% of the voting power of Lamar Advertising's outstanding capital stock, which would give the Reilly

family the power to:

elect the Company's entire board of directors;

control the Company's management and policies; and

determine the outcome of any corporate transaction or other matter requiring stockholder approval, including charter amendments, mergers, consolidations and asset sales.

The Reilly family may have interests that are different than yours. For example, the Reilly family may exercise its voting control to prevent a sale of the Company that would provide the common stockholders a premium for their shares.

If the Company's contingency plans relating to hurricanes fail, the resulting losses could hurt the Company's business.

The Company has determined that it is not economical to insure against losses resulting from hurricanes and other natural disasters. Although the Company has developed contingency plans designed to mitigate the threat posed by hurricanes to advertising structures (e.g., removing advertising faces at the onset of a storm, when possible, which better permits the structures to withstand high winds during the storm), these plans could fail and significant losses could result. The two hurricanes that hit the gulf coast in 2005 resulted in revenue losses of approximately \$2.4 million in 2005 and required capital expenditures of approximately \$20 million in 2005.

None.

ITEM 2. PROPERTIES

Our 53,500 square foot management headquarters is located in Baton Rouge, Louisiana. We occupy approximately 97% of the space in the headquarters and lease the remaining space. We own 110 local operating facilities with front office administration and sales office space connected to back-shop poster and bulletin production space. In addition, the Company leases an additional 127 operating facilities at an aggregate lease expense for 2007 of approximately \$5.7 million.

We own approximately 6,313 parcels of property beneath our advertising structures. As of December 31, 2007, we leased approximately 79,000 active outdoor sites, accounting for a total annual lease expense of approximately \$192.7 million. This amount represented approximately 16% of total advertising net revenues for that period. These leases are for varying terms ranging from month-to-month to a term of over ten years, and many provide the Company with renewal options. There is no significant concentration of displays under any one lease or subject to negotiation with any one landlord. An important part of our management activity is to manage our lease portfolio and negotiate suitable lease renewals and extensions.

ITEM 3. LEGAL PROCEEDINGS

The Company from time to time is involved in litigation in the ordinary course of business, including disputes involving advertising contracts, site leases, employment claims and construction matters. The Company is also involved in routine administrative and judicial proceedings regarding billboard permits, fees and compensation for condemnations. The Company is not a party to any lawsuit or proceeding which, in the opinion of management, is likely to have a material adverse effect on the Company.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of security holders during the fourth quarter of the fiscal year covered by this report.

The Company's Class A common stock has been publicly traded since August 2, 1996 and is currently listed on the Nasdaq Global Select Market under the symbol LAMR. As of December 31, 2007, the Class A common stock was held by 192 shareholders of record. The Company believes, however, that the actual number of beneficial holders of the Class A common stock may be substantially greater than the stated number of holders of record because a substantial portion of the Class A common stock is held in street name.

The following table sets forth, for the periods indicated, the high and low bid prices (for the time periods until January 13, 2006 when Nasdaq was approved as a national securities exchange) and the high and low sales prices (for all periods thereafter) for the Class A common stock.

Fourth Quarter	56.52	46.67

The Company's Class B common stock is not publicly traded and is held of record by members of the Reilly family and the Reilly Family Limited Partnership of which, Kevin P. Reilly, Jr. is the managing general partner.

The Company's Series AA preferred stock is entitled to preferential dividends, in an annual aggregate amount of \$364,904, before any dividends may be paid on the common stock. All dividends related to the Company's preferred stock are paid on a quarterly basis. In addition, the Company's bank credit facility and other indebtedness have terms restricting the payment of dividends. The Company declared a special cash dividend of \$3.25 per share of its common stock in February 2007 to stockholders of record on March 22, 2007, which was paid on March 30, 2007. Any future determination as to the payment of dividends will be subject to the limitations described above, will be at the discretion of the Company's Board of Directors and will depend on the Company's results of operations, financial condition, capital requirements and other factors deemed relevant by the Board of Directors.

Issuer Purchases of Equity Securities

On February 22, 2007, the Board of Directors approved a new stock repurchase program of up to \$500.0 million of the Company's Class A common stock over a period not to exceed 24 months. The Company's management determines the timing and amount of stock repurchases based on market conditions and other factors, and may terminate the program at any time before it expires.

The following table describes the Company's repurchases of its registered Class A Common Stock during the quarter ended December 31, 2007, all of which occurred pursuant to the stock repurchase program described above:

This report contains forward-looking statements. These statements are subject to risks and uncertainties including those described in Item 1A under the heading Risk Factors, and elsewhere in this report, that could cause actual results to differ materially from those projected in these forward-looking statements. The Company cautions investors not to place undue reliance on the forward-looking statements contained in this document. These statements speak only as of the date of this document, and the Company undertakes no obligation to update or revise the statements, except as may be required by law.

Lamar Advertising Company

The following is a discussion of the consolidated financial condition and results of operations of the Company for the years ended December 31, 2007, 2006 and 2005. This discussion should be read in conjunction with the consolidated financial statements of the Company and the related notes.

OVERVIEW

The Company's net revenues are derived primarily from the sale of advertising on outdoor advertising displays owned and operated by the Company. The Company relies on sales of advertising space for its revenues, and its operating results are therefore affected by general economic conditions, as well as trends in the advertising industry. Advertising spending is particularly sensitive to changes in general economic conditions, which affect the rates that the Company is able to charge for advertising on its displays and its ability to maximize advertising sales on its displays.

Since December 31, 2001, the Company has increased the number of outdoor advertising displays it operates by approximately 5% by completing strategic acquisitions of outdoor advertising and transit assets for an aggregate purchase price of approximately \$1.09 billion, which included the issuance of 4,050,958 shares of Lamar Advertising Company Class A common stock valued at the time of issuance at approximately \$152.5 million. The Company has financed its recent acquisitions and intends to finance its future acquisition activity from available cash, borrowings under its bank credit agreement and the issuance of Class A common stock. See Liquidity and Capital Resources below. As a result of acquisitions, the operating performances of individual markets and of the Company as a whole are not necessarily comparable on a year-to-year basis. The acquisitions completed during the year ended December 31, 2007 were in existing markets and have caused no material integration issues. The Company expects to continue to pursue acquisitions that complement the Company's business.

Growth of the Company's business requires expenditures for maintenance and capitalized costs associated with the construction of new billboard displays, logo sign and transit contracts, and the purchase of real estate and operating equipment. The following table presents a breakdown of capitalized expenditures for the past three years:

	2007	2006	2005
	In thousands		
Billboard Traditional	\$ 68,664	\$ 75,501	\$ 85,886
Billboard Digital	92,093	81,270	2,607
Logos	10,190	8,978	7,249
Transit	2,047	1,119	1,057
Land and buildings	31,463	34,384	13,966
PP&E	16,077	22,098	10,352
Total capital expenditures	\$ 220,534	\$ 223,350	\$ 121,117

We expect our capital expenditures to be approximately \$200 million in 2008.

Table of Contents**RESULTS OF OPERATIONS**

The following table presents certain items in the Consolidated Statements of Operations as a percentage of net revenues for the years ended December 31, 2007, 2006 and 2005:

	Year Ended December 31,		
	2007	2006	2005
Net revenues	100.0%	100.0%	100.0%
Operating expenses:			
Direct advertising expenses	33.8	34.9	34.6
General and administrative expenses	17.4	17.7	17.2
Corporate expenses	4.9	4.5	3.6
Depreciation and amortization	25.4	26.9	28.4
Operating income	18.8	16.9	16.3
Interest expense	13.4	10.1	8.9
Net income	3.8	3.9	4.1

Year ended December 31, 2007 compared to Year ended December 31, 2006

Net revenues increased \$89.5 million or 8.0% to \$1.21 billion for the year ended December 31, 2007 from \$1.12 billion for the same period in 2006. This increase was attributable primarily to an increase in billboard net revenues of \$88.1 million or 8.7% over the prior period, with no net change in logo sign revenue or transit revenue over the prior period due to contracts lost during the year.

The increase in billboard net revenue of \$88.1 million was generated by acquisition activity of approximately \$13.4 million and internal growth of approximately \$74.7 million, while the internal growth across various markets within the logo sign programs of approximately \$3.8 million, was offset by a decrease of \$4.0 million of revenue due to the loss of the Company's Texas logo contract. The transit revenue internal growth of approximately \$3.2 million was offset by a decrease of \$3.6 million of revenue due to the loss of various transit contracts.

Net revenues for the year ended December 31, 2007, as compared to acquisition-adjusted net revenue for the year ended December 31, 2006, increased \$82.5 million or 7.3% as a result of net revenue internal growth. See

Reconciliations below.

Operating expenses, exclusive of depreciation and amortization and gain on sale of assets, increased \$39.3 million or 6.1% to \$678.8 million for the year ended December 31, 2007 from \$639.5 million for the same period in 2006. There was a \$30.5 million increase as a result of additional operating expenses related to the operations of acquired outdoor advertising assets and increases in costs in operating the Company's core assets and a \$8.8 million increase in corporate expenses.

Depreciation and amortization expense increased \$5.2 million for the year ended December 31, 2007 as compared to the year ended December 31, 2006. The increase is a result of increased capital expenditures in 2007, including \$92.1 million related to digital billboards.

Due to the above factors, operating income increased \$38.0 million to \$227.8 million for year ended December 31, 2007 compared to \$189.8 million for the same period in 2006.

During the first quarter of 2007, the Company recognized a \$15.4 million gain as a result of the sale of a private company in which the Company had an ownership interest.

Interest expense increased \$49.4 million from \$113.0 million for the year ended December 31, 2006 to \$162.4 million for the year ended December 31, 2007 due to increased debt balances as well as increase in interest rates on variable-rate debt.

The increase in operating income and the gain on disposition of investment offset by the increase in interest expense described above resulted in a \$5.3 million increase in income before income taxes. This increase in income resulted in an increase in the income tax expense of \$3.0 million for the year ended December 31, 2007 over the same period in 2006. The effective tax rate for the year ended December 31, 2007 was 44.6%, which is greater than the statutory rates due to permanent differences resulting from non-deductible expenses.

As a result of the above factors, the Company recognized net income for the year ended December 31, 2007 of \$46.2 million, as compared to net income of \$43.9 million for the same period in 2006.

Because acquisitions occurring after December 31, 2005 (the acquired assets) have contributed to our net revenue results for the periods presented, we provide 2006 acquisition-adjusted net revenue, which adjusts our 2006 net revenue by adding to it the net revenue generated by the acquired assets prior to our acquisition of them for the same time frame that those assets were owned in 2007. We provide this information as a supplement to net revenues to enable investors to compare periods in 2007 and 2006 on a more consistent basis without the effects of acquisitions. Management uses this comparison to assess how well our core assets are performing.

Acquisition-adjusted net revenue is not determined in accordance with generally accepted accounting principles (GAAP). For this adjustment, we measure the amount of pre-acquisition revenue generated by the acquired assets during the period in 2006 that corresponds with the actual period we have owned the acquired assets in 2007 (to the extent within the period to which this report relates). We refer to this adjustment as acquisition net revenue.

Reconciliations of 2006 reported net revenue to 2006 acquisition-adjusted net revenue as well as a comparison of 2006 acquisition-adjusted net revenue to 2007 net revenue are provided below:

Comparison of 2007 Net Revenue to 2006 Acquisition-Adjusted Net Revenue

	Year Ended December 31,	
	2007	2006
	(In thousands)	
Reported net revenue	\$ 1,209,555	\$ 1,120,091
Acquisition net revenue		6,915
Adjusted totals	\$ 1,209,555	\$ 1,127,006

Year ended December 31, 2006 compared to Year ended December 31, 2005

Net revenues increased \$98.4 million or 9.6% to \$1.12 billion for the year ended December 31, 2006 from \$1.02 billion for the same period in 2005. This increase was attributable primarily to an increase in billboard net revenues of \$90.2 million or 9.8% over the prior period, a \$2.8 million increase in logo sign revenue, which represents an increase of 6.2% over the prior period, and a \$5.4 million increase in transit revenue over the prior period.

The increase in billboard net revenue of \$90.2 million was generated by acquisition activity of approximately \$18.1 million and internal growth of approximately \$72.1 million, while the increase in logo sign revenue of \$2.8 million was generated by internal growth across various markets within the logo sign programs of approximately \$4.3 million, which was offset by a decrease of \$1.5 million of revenue due to the expiration of the Company's South Carolina logo contract in August, 2005 prior to its re-award in June, 2006. The increase in transit revenue of approximately \$5.4 million was due to internal growth of approximately \$3.5 million and acquisition growth of \$1.9 million.

Net revenues for the year ended December 31, 2006, as compared to acquisition-adjusted net revenue for the year ended December 31, 2005, increased \$79.9 million or 7.7% as a result of net revenue internal growth. See Reconciliations below.

Operating expenses, exclusive of depreciation and amortization and gain on sale of assets, increased \$73.6 million or 13.0% to \$639.5 million for the year ended December 31, 2006 from \$565.9 million for the same period in 2005. There was a \$59.5 million increase as a result of additional operating expenses related to the operations of acquired outdoor advertising assets and increases in costs in operating the Company's core assets and a \$14.1 million increase in corporate expenses.

Depreciation and amortization expense increased \$11.6 million for the year ended December 31, 2006 as compared to the year ended December 31, 2005. The increase is a result of increased capital expenditures in 2006, including \$81.3 million related to digital billboards.

Due to the above factors, operating income increased \$23.0 million to \$189.8 million for year ended December 31, 2006 compared to \$166.8 million for the same period in 2005.

On September 30, 2005, the Company's wholly owned subsidiary, Lamar Media Corp., refinanced its bank credit facility. The new bank credit facility is comprised of a \$400.0 million revolving bank credit facility and a \$400.0 million term facility. The bank credit facility also includes a \$500.0 million incremental facility, which permits Lamar Media to request that its lenders enter into commitments to make additional term loans to it, up to a maximum aggregate amount of \$500.0 million. The lenders have no obligation to make additional loans under the incremental facility. As a result of this refinancing, the Company recorded a loss on extinguishment of debt of \$4.0 million in 2005. During the year ended December 31, 2006, there were no refinancing activities resulting in a loss on extinguishment of debt.

Table of Contents

Interest expense increased \$22.3 million from \$90.7 million for the year ended December 31, 2005 to \$113.0 million for the year ended December 31, 2006 due to increased debt balances as well as increase in interest rates on variable-rate debt.

The increase in operating income offset by the increase in interest expense described above resulted in a \$4.4 million increase in income before income taxes. This increase in income resulted in an increase in the income tax expense of \$2.3 million for the year ended December 31, 2006 over the same period in 2005. The effective tax rate for the year ended December 31, 2006 was 43.8%, which is greater than the statutory rates due to permanent differences resulting from non-deductible expenses.

As a result of the above factors, the Company recognized net income for the year ended December 31, 2006 of \$43.9 million, as compared to net income of \$41.8 million for the same period in 2005.

LIQUIDITY AND CAPITAL RESOURCES***Overview***

The Company has historically satisfied its working capital requirements with cash from operations and borrowings under its bank credit facility. The Company's wholly owned subsidiary, Lamar Media Corp., is the borrower under the bank credit facility and maintains all corporate cash balances. Any cash requirements of Lamar Advertising, therefore, must be funded by distributions from Lamar Media. The Company's acquisitions have been financed primarily with funds borrowed under the bank credit facility and issuance of its Class A common stock and debt securities. If an acquisition is made by one of the Company's subsidiaries using the Company's Class A common stock, a permanent contribution of additional paid-in-capital of Class A common stock is distributed to that subsidiary.

Sources of Cash

Total Liquidity at December 31, 2007. As of December 31, 2007 we had approximately \$461.0 million of total liquidity, which is comprised of approximately \$76.0 million in cash and cash equivalents and the ability to draw approximately \$385.0 million under our revolving bank credit facility.

Cash Generated by Operations. For the years ended December 31, 2007, 2006, and 2005 our cash provided by operating activities was \$354.5 million, \$364.5 million and \$347.3 million, respectively. While our net income was approximately \$46.2 million for the year ended December 31, 2007, the Company generated cash from operating

activities of \$354.5 million during 2007 primarily due to adjustments needed to reconcile net income to cash provided by operating activities, which primarily includes depreciation and amortization of \$306.9 million. We generated cash flows from operations during 2007 in excess of our cash needs for operations and capital expenditures as described herein. We used the excess cash generated principally for acquisitions and to reduce debt. See [Cash Flows](#) for more information.

Credit Facilities. As of December 31, 2007 we had approximately \$385.0 million of unused capacity under our revolving credit facility. The bank credit facility was refinanced on September 30, 2005 and is comprised of a \$400.0 million revolving bank credit facility and a \$400.0 million term facility. The bank credit facility also includes a \$500.0 million incremental facility, which permits Lamar Media to request that its lenders enter into commitments to make additional term loans, up to a maximum aggregate amount of \$500.0 million.

On February 8, 2006, Lamar Media entered into a Series A Incremental Loan Agreement and obtained commitments from its lenders for a term loan of \$37.0 million, which was funded on February 27, 2006. The available uncommitted incremental loan facility was thereby reduced to \$463.0 million.

On October 5, 2006, we entered into a Series B Incremental Loan Agreement and borrowed an additional \$150.0 million under the incremental portion of our bank credit facility. In conjunction with the Series B Incremental Loan Agreement, we also entered into an amendment to our bank credit facility to restore the amount of the incremental loan facility to \$500.0 million (which under its old terms would have been reduced by the Series B Incremental Loan and had been reduced by the earlier Series A Incremental Loan described above). The lenders have no obligation to make additional term loans to Lamar Media under the incremental facility, but may enter into such commitments in their sole discretion.

On December 21, 2006, one of our wholly-owned subsidiaries, Lamar Transit Advertising Canada Ltd., entered into a Series C Incremental Loan Agreement and obtained commitments from its lenders for a term loan of \$20.0 million. The available uncommitted incremental loan facility was thereby reduced to \$480.0 million.

On January 17, 2007, Lamar Media entered into a Series D Incremental Loan Agreement and obtained commitments from its lenders for a term loan of \$7.0 million, which was funded on January 17, 2007. On March 28, 2007, Lamar Media entered into Series E and Series F Incremental Loan Agreements and obtained commitments from their lenders for term loans of \$250.0 million and \$325.0 million, respectively, which were both funded on March 28, 2007. In addition, the \$500.0 million incremental facility, which had previously been reduced by the aggregate amount of the Series C and Series D Incremental Loans and would have been reduced by the Series E and Series F Incremental Loans, was restored to \$500.0 million. The lenders have no obligation to make additional term loans to Lamar Media under the incremental facility, but may enter into such commitments in their sole discretion.

Proceeds from the Sale of Debt and Equity Securities.

On August 16, 2005, Lamar Media Corp. issued \$400.0 million 6 5/8% Senior Subordinated Notes due 2015. These notes are unsecured senior subordinated obligations and will be subordinated to all of Lamar Media's existing and future senior debt, rank equally with all of Lamar Media's existing and future senior subordinated debt and rank senior to all of our existing and any future subordinated debt of Lamar Media. These notes are redeemable at the company's option anytime on or after August 15, 2010. Lamar Media may also redeem up to 35% of the aggregate principal amount of the notes using the proceeds from certain public equity offerings completed before August 15, 2008. The net proceeds from this issuance were used to reduce borrowings under Lamar Media's bank credit facility.

On August 17, 2006, Lamar Media Corp. issued \$216.0 million 6 5/8% Senior Subordinated Notes due 2015 Series B. These notes are unsecured senior subordinated obligations and will be subordinated to all of Lamar Media's existing and future senior debt, rank equally with all of Lamar Media's existing and future senior subordinated debt and rank senior to all of our existing and any future subordinated debt of Lamar Media. These notes are redeemable at the company's option anytime on or after August 15, 2010. Lamar Media may also redeem up to 35% of the aggregate principal amount of the notes using the proceeds from certain public equity offerings completed before August 15, 2008. The net proceeds from this issuance were used to reduce borrowings under Lamar Media's bank credit facility and repurchase the Company's Class A common stock pursuant to its repurchase plan.

On May 31, 2007, the Company commenced an offer to exchange all of its outstanding 2 7/8% Convertible Notes due 2010 (the "outstanding notes"), for an equal amount of newly issued 2 7/8% Convertible Notes due 2010 Series B ("the new notes") and cash. The new notes are a separate series of debt securities. The purpose of the exchange offer was to exchange outstanding notes for new notes with certain different terms, including the type of consideration the Company may use to pay holders who convert their notes. Among their features, the new notes are convertible into Class A common stock, cash or a combination thereof, at the Company's option, subject to certain conditions, while the outstanding notes are convertible solely into the Company's Class A common stock. This exchange was completed

on July 3, 2007, when the Company accepted for exchange \$287.2 million aggregate principal amount of outstanding notes, representing approximately 99.9 percent of the total outstanding notes with approximately \$0.3 million aggregate principal amount remaining of outstanding notes.

On October 11, 2007, Lamar Media Corp. completed an institutional private placement of \$275 million aggregate principal amount of 6 5/8% Senior Subordinated Notes due 2015 Series C. These notes are unsecured senior subordinated obligations and will be subordinated to all of Lamar Media's existing and future senior debt, rank equally with all of Lamar Media's existing and future senior subordinated debt and rank senior to all of the existing and any future subordinated debt of Lamar Media. These notes are redeemable at the company's option anytime on or after August 15, 2010. Lamar Media may also redeem up to 35% of the aggregate principle amount of the notes using the proceeds from certain public equity offerings completed before August 15, 2008. A portion of the \$256.7 million net proceeds from the offering of the Notes was used to repay a portion of the amounts outstanding under Lamar Media's revolving bank credit facility.

Factors Affecting Sources of Liquidity

Internally Generated Funds. The key factors affecting internally generated cash flow are general economic conditions, specific economic conditions in the markets where the Company conducts its business and overall spending on advertising by advertisers.

Restrictions Under Credit Facilities and Other Debt Securities. Currently Lamar Media has outstanding \$385.0 million 7 1/4% Senior Subordinated Notes due 2013 issued in December 2002 and June 2003, \$400.0 million 6 5/8% Senior Subordinated Notes due 2015 issued August 2005, \$216 million 6 5/8% Senior Subordinated Notes due 2015 Series B issued in August 2006 and \$275 million 6 5/8% Senior Subordinated Notes due 2015 Series-C issued in October 2007. The indentures relating to Lamar Media's outstanding notes restrict its ability to incur indebtedness but permit the incurrence of indebtedness (including indebtedness under its senior credit facility), (i) if no default or event of default would result from such incurrence and (ii) if after giving effect to any such incurrence, the leverage ratio (defined as total consolidated debt to trailing four fiscal quarter EBITDA) would be less than 6.5 to 1. In addition to debt incurred under the provisions described in the preceding sentence, the indentures relating to Lamar Media's outstanding notes permit Lamar Media to incur indebtedness pursuant to the following baskets:

up to \$1.3 billion of indebtedness under its senior credit facility;

currently outstanding indebtedness or debt incurred to refinance outstanding debt;

inter-company debt between Lamar Media and its subsidiaries or between subsidiaries;

certain purchase money indebtedness and capitalized lease obligations to acquire or lease property in the ordinary course of business that cannot exceed the greater of \$20 million or 5% of Lamar Media's net tangible assets; and

additional debt not to exceed \$40 million.

Lamar Media is required to comply with certain covenants and restrictions under its bank credit agreement. If the Company fails to comply with these tests, the long term debt payments set forth below in the contractual obligation table may be accelerated. At December 31, 2007 and currently Lamar Media is in compliance with all such tests.

Lamar Media must be in compliance with the following financial ratios under its senior credit facility:

a total debt ratio, defined as total consolidated debt to EBITDA, (as defined below), for the most recent four fiscal quarters, of not greater than 5.75 to 1.

a fixed charges coverage ratio, defined as EBITDA, (as defined below), for the most recent four fiscal quarters to the sum of (1) the total payments of principal and interest on debt for such period, plus (2) capital expenditures made during such period, plus (3) income and franchise tax payments made during such period, plus (4) dividends, of greater than 1.05 to 1.

As defined under Lamar Media's senior credit facility, EBITDA is, for any period, operating income for Lamar Media and its restricted subsidiaries (determined on a consolidated basis without duplication in accordance with GAAP) for such period (calculated before taxes, interest expense, interest in respect of mirror loan indebtedness, depreciation, amortization and any other non-cash income or charges accrued for such period and (except to the extent received or paid in cash by Lamar Media or any of its restricted subsidiaries) income or loss attributable to equity in affiliates for such period) excluding any extraordinary and unusual gains or losses during such period and excluding the proceeds of any casualty events whereby insurance or other proceeds are received and certain dispositions not in the ordinary course. Any dividend payment made by Lamar Media or any of its restricted subsidiaries to Lamar Advertising Company during any period to enable Lamar Advertising Company to pay certain qualified expenses on behalf of Lamar Media and its subsidiaries shall be treated as operating expenses of Lamar Media for the purposes of calculating EBITDA for such period if and to the extent such operating expenses would be deducted in the calculation of EBITDA if funded directly by Lamar Media or any restricted subsidiary. EBITDA under the bank credit agreement is also adjusted to reflect certain acquisitions or dispositions as if such acquisitions or dispositions were made on the first day of such period.

The Company believes that its current level of cash on hand, availability under its bank credit facility and future cash flows from operations are sufficient to meet its operating needs through fiscal 2008. All debt obligations are on the Company's balance sheet.

Uses of Cash

Capital Expenditures. Capital expenditures excluding acquisitions were approximately \$220.5 million for the year ended December 31, 2007. We anticipate our 2008 total capital expenditures to be approximately \$200 million.

Table of Contents

Acquisitions. During the year ended December 31, 2007, the Company financed its acquisition activity of approximately \$153.6 million with borrowings under Lamar Media's revolving credit facility and cash on hand. In 2008, we expect to spend approximately \$250 million on acquisitions, which we may finance through borrowings, cash on hand, the issuance of Class A common stock or some combination of the foregoing, depending on market conditions. We plan on continuing to invest in both capital expenditures and acquisitions that can provide high returns in light of existing market conditions.

Stock Repurchase Program. In November 2005, the Company announced that its Board of Directors authorized the repurchase of up to \$250.0 million of the Company's Class A common stock. The Company completed this repurchase plan in July 2006, repurchasing a total of 4,851,947 shares of its Class A common stock.

In August 2006, the Company announced a second repurchase plan of up to \$250.0 million of the Company's Class A common stock, which was completed in July 2007. The Company's board of directors approved the current repurchase program of up to an additional \$500.0 million of the Company's Class A common stock over a period not to exceed 24 months in February 2007. During the twelve months ended December 31, 2007, the Company purchased approximately 6.7 million shares of its Class A common stock for an aggregate purchase price of approximately \$383.6 million under these plans. Share repurchases under the existing plan may be made on the open market or in privately negotiated transactions. The timing and amount of any shares repurchased will be determined by Lamar's management based on its evaluation of market conditions and other factors. The repurchase program may be suspended or discontinued at any time. Any repurchased shares will be available for future use for general corporate and other purposes.

Special Cash Dividend. In February, 2007, the Company's board of directors declared a special dividend of \$3.25 per share of Common Stock. The dividend of \$318.3 million in aggregate amount was paid on March 30, 2007 to stockholders of record on March 22, 2007. Lamar had 82,541,461 shares of Class A Common Stock and 15,397,865 shares of Class B Common Stock, which is convertible into Class A Common Stock on a one-for-one-basis at the option of its holder, outstanding as of March 22, 2007.

Debt Service and Contractual Obligations. As of December 31, 2007, we had outstanding debt of approximately \$2.73 billion, which includes a mirror note issued to the Company in an aggregate amount of \$287.5 million, which is equal to the amount of the Company's aggregate outstanding convertible notes. In the future, Lamar Media has principal reduction obligations and revolver commitment reductions under its bank credit agreement. In addition it has fixed commercial commitments. These commitments are detailed as follows:

		Payments Due by Period			
		Less Than			After
Contractual Obligations	Total	1 Year	1 - 3 Years	4 - 5 Years	5 Years
(In millions)					
Long-Term Debt	\$ 2,725.8	\$ 31.7	\$ 464.1	\$ 620.3	\$ 1,609.7

Standby Letters of Credit(3)	\$ 15.0	\$4.0	\$11.0	\$	\$

(2) Lamar Media had \$0 outstanding at December 31, 2007.

(3) The standby letters of credit are issued under Lamar Media's revolving bank facility and reduce the availability of the facility by the same amount.

Table of Contents***Cash Flows***

The Company's cash flows provided by operating activities decreased by \$10.0 million for the year ended December 31, 2007 due to an increase in net income of \$2.3 million as described in Results of Operations, an increase in adjustments to reconcile net income to cash provided by operating activities of \$6.7 million primarily due to an increase in depreciation and amortization of \$5.2 million, and an increase in non-cash compensation of \$9.6 million offset by a decrease in deferred income tax expense of \$0.2 million and an increase in gain on dispositions of assets of \$8.5 million. In addition, as compared to the same period in 2006, there were decreases in the change in receivables of \$6.7 million, in accrued expenses of \$11.2 million and in the change in other liabilities of \$3.4 million, offset by an increase in the change in other assets of \$16.3 million.

Cash flows used in investing activities decreased \$97.8 million from \$438.9 million in 2006 to \$341.1 million in 2007 primarily due to a decrease in capital expenditures of \$2.8 million and a decrease in cash used in acquisition activity by the Company in 2007 of \$74.1 million.

Cash flows provided by financing activities was \$39.3 million for the year ended December 31, 2007 primarily due to \$842.9 million in proceeds from note offerings and new notes payable primarily resulting from the bank credit facility refinancing discussed above and \$20.9 million in net proceeds from issuance of common stock and tax deductions from options exercised, offset by cash used for purchase of treasury shares of \$390.5 million, \$318.7 million cash used for dividends and \$107.6 million in principle payments on long term debt.

CRITICAL ACCOUNTING ESTIMATES

Our discussion and analysis of our results of operations and liquidity and capital resources are based on our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. On an ongoing basis, we evaluate our estimates and judgments, including those related to long-lived asset recovery, intangible assets, goodwill impairment, deferred taxes, asset retirement obligations and allowance for doubtful accounts. We base our estimates on historical and anticipated results and trends and on various other assumptions that we believe are reasonable under the circumstances, including assumptions as to future events and, where applicable, established valuation techniques. These estimates form the basis for making judgments about carrying values of assets and liabilities that are not readily apparent from other sources. By their nature, estimates are subject to an inherent degree of uncertainty. Actual results may differ from our estimates. We believe that the following significant accounting policies and assumptions may involve a higher degree of judgment and complexity than others.

Long-Lived Asset Recovery. Long-lived assets, consisting primarily of property, plant and equipment and intangibles comprise a significant portion of the Company's total assets. Property, plant and equipment of \$1.5 billion and intangible assets of \$803 million are reviewed for impairment whenever events or changes in circumstances have indicated that their carrying amounts may not be recoverable. Recoverability of assets is measured by a comparison of the carrying amount of an asset to future undiscounted net cash flows expected to be generated by that asset before interest expense. These undiscounted cash flow projections are based on management assumptions surrounding future operating results and the anticipated future economic environment. If actual results differ from management's assumptions, an impairment of these intangible assets may exist and a charge to income would be made in the period such impairment is determined. No such impairment charge has been recorded by the Company.

Intangible Assets. The Company has significant intangible assets recorded on its balance sheet. Intangible assets primarily represent site locations of \$743.6 million and customer relationships of \$52.9 million associated with the Company's acquisitions. The fair values of intangible assets recorded are determined using discounted cash flow models that require management to make assumptions related to future operating results, including projecting net revenue growth discounted using current cost of capital rates, of each acquisition and the anticipated future economic environment. If actual results differ from management's assumptions, an impairment of these intangibles may exist and a charge to income would be made in the period such impairment is determined. Historically no impairment charge has been required with respect to the Company's intangible assets.

Goodwill Impairment. The Company had goodwill of \$1.38 billion as of December 31, 2007 and must perform an impairment analysis of goodwill annually or on a more frequent basis if events and circumstances indicate that the

asset might be impaired. This analysis requires management to make assumptions as to the implied fair value of its reporting unit as compared to its carrying value (including goodwill). In conducting the impairment analysis, the Company determines the implied fair value of its reporting unit utilizing quoted market prices of its Class A common stock, which are used to calculate the Company's enterprise value as compared to the carrying value of the Company's assets. Discounted cash flow models before interest expense are also used. These discounted cash flow models require management to make assumptions including projecting the Company's net revenue growth discounted using current cost of capital rates related to the future operating results of the Company and the anticipated future economic environment. Based upon the Company's annual review as of December 31, 2007, no impairment charge was required.

Table of Contents

Deferred Taxes. As of December 31, 2007, the Company determined that its deferred tax assets of \$140.1 million, a component of which is the Company's net operating loss carry forward, are fully realizable due to the existence of certain deferred tax liabilities of approximately \$256.3 million that are anticipated to reverse during the carry forward period. The Company bases this determination by projecting taxable income over the relevant period. The Company has not recorded a valuation allowance to reduce its deferred tax assets. Should the Company determine that it would not be able to realize all or part of its net deferred tax assets in the future, an adjustment to the deferred tax asset would be charged to income in the period such determination was made. For a more detailed description, see Note 11 of the Notes to the Consolidated Financial Statements.

Asset Retirement Obligations. The Company had an asset retirement obligation of \$150.0 million as of December 31, 2007 as a result of its adoption of SFAS No. 143, *Accounting for Asset Retirement Obligations*, on January 1, 2003. This liability relates to the Company's obligation upon the termination or non-renewal of a lease to dismantle and remove its billboard structures from the leased land and to reclaim the site to its original condition. The Company records the present value of obligations associated with the retirement of tangible long-lived assets in the period in which they are incurred. The liability is capitalized as part of the related long-lived asset's carrying amount. Over time, accretion of the liability is recognized as an operating expense and the capitalized cost is depreciated over the expected useful life of the related asset. In calculating the liability, the Company calculates the present value of the estimated cost to dismantle using an average cost to dismantle, adjusted for inflation and market risk.

This calculation includes 100% of the Company's billboard structures on leased land (which currently consist of approximately 80,000 structures). The Company uses a 15-year retirement period based on historical operating experience in its core markets, including the actual time that billboard structures have been located on leased land in such markets and the actual length of the leases in the core markets, which includes the initial term of the lease, plus any renewal period. Historical third-party cost information is used with respect to the dismantling of the structures and the reclamation of the site. The interest rate used to calculate the present value of such costs over the retirement period is based on credit rates historically available to the Company.

Stock-based Compensation. Effective January 1, 2006, we adopted SFAS No. 123(R) *Share-Based Payments* (SFAS No. 123(R)), which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors, including stock options, employee stock purchases under the Employee Stock Purchase Plan, restricted stock and performance shares, under the modified prospective transition method. Share-based compensation expense is based on the value of the portion of share-based payment awards that is ultimately expected to vest. SFAS No. 123(R) requires the use of a valuation model to calculate the fair value of share-based awards. The Company has elected to use the Black-Scholes option-pricing model. The Black-Scholes option-pricing model incorporates various assumptions, including volatility, expected life and interest rates. The expected life is based on the observed and expected time to post-vesting exercise and forfeitures of stock options by our employees. Upon the adoption of SFAS No. 123(R), we used a combination of historical and implied volatility, or blended volatility, in deriving the expected volatility assumption as allowed under SFAS No. 123(R) and Staff Accounting Bulletin No. 107. The risk-free interest rate assumption is based upon observed interest rates appropriate for the term of our stock options. The dividend yield assumption is based on our history and expectation of dividend payouts. SFAS No. 123(R) requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. Forfeitures were estimated based on our historical experience. If factors change and we employ different assumptions in the application of SFAS No. 123(R) in future periods, the compensation expense that we record under SFAS No. 123(R) may differ significantly from what we have recorded in the current period. During 2007, we recorded \$7.1 million as compensation expense related to stock options and employee stock purchases. We evaluate and adjust our assumptions on an annual basis. See Note 14 *Stock Compensation Plans* of the Notes to Consolidated Financial Statements for further discussion.

Allowance for Doubtful Accounts. The Company maintains allowances for doubtful accounts based on the payment patterns of its customers. Management analyzes historical results, the economic environment, changes in the credit worthiness of its customers, and other relevant factors in determining the adequacy of the Company's allowance. Bad debt expense was \$7.2 million, \$6.3 million and \$6.7 million or approximately 1% of net revenue for the years ended December 31, 2007, 2006 and 2005, respectively. If the future economic environment declines, the inability of

customers to pay may occur and the allowance for doubtful accounts may need to be increased, which will result in additional bad debt expense in future years.

NEW ACCOUNTING PRONOUNCEMENTS

In December 2007, the FASB issued SFAS No. 141R, Business Combinations, which changes how business acquisitions are accounted. SFAS No. 141R requires the acquiring entity in a business combination to recognize all (and only) the assets acquired and liabilities assumed in the transaction and establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed in a business combination. Certain provisions of this standard will, among other things impact the determination of acquisition-date fair value of consideration paid in a business combination (including contingent consideration): exclude transaction costs from acquisition accounting; and change accounting practices for acquired contingencies, acquisition-related restructuring costs, in-process research and development, indemnification assets, and tax benefits. For the Company, SFAS No. 141R

Table of Contents

is effective for business combinations and adjustments to an acquired entity's deferred tax asset and liability balances occurring after December 31, 2008. The Company is currently evaluating the future impacts and disclosures of this standard.

In February 2007, the Financial Accounting Standards Board (FASB) issued Statement of Accounting Standard No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* Including an amendment of FASB Statement No. 115 (Statement 159). This Statement permits entities to choose to measure many financial instruments and certain other items at fair value and report unrealized gains and losses on these instruments in earnings. Statement 159 is effective as of January 1, 2008. The Company does not expect any material financial statement implications relating to the adoptions of this Statement.

In September 2006, the FASB issued Statement of Accounting Standards No. 157, *Fair Value Measurements* (Statement 157). Statement 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. Statement 157 applies under other accounting pronouncements that require or permit fair value measurements, the Board having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, Statement 157 does not require any new fair value measurements. However, for some entities, the application of Statement 157 will change current practice. Statement 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within these fiscal years. In February 2008, the FASB issued Staff Positions No. 157-1 and No. 157-2 which partially defer the effective date of SFAS No. 157 for one year for certain nonfinancial assets and liabilities and remove certain leasing transactions from its scope. We are assessing the impact of Statement 157, which we do not expect to have an impact on our financial position, results or operations or cash flows.

Table of Contents***Lamar Media Corp.***

The following is a discussion of the consolidated financial condition and results of operations of Lamar Media for the years ended December 31, 2007, 2006 and 2005. This discussion should be read in conjunction with the consolidated financial statements of Lamar Media and the related notes.

RESULTS OF OPERATIONS

The following table presents certain items in the Consolidated Statements of Operations as a percentage of net revenues for the years ended December 31, 2007, 2006 and 2005:

	Year Ended December 31,		
	2007	2006	2005
Net revenues	100.0%	100.0%	100.0%
Operating expenses:			
Direct advertising expenses	33.8	34.9	34.6
General and administrative expenses	17.4	17.7	17.2
Corporate expenses	4.9	4.4	3.5
Depreciation and amortization	25.4	26.9	28.4
Operating income	18.9	17.0	16.4
Interest expense	13.3	9.9	8.0
Net income	3.9	4.0	4.6

Year ended December 31, 2007 compared to Year ended December 31, 2006

Net revenues increased \$89.5 million or 8.0% to \$1.21 billion for the year ended December 31, 2007 from \$1.12 billion for the same period in 2006. This increase was attributable primarily to an increase in billboard net revenues of \$88.1 million or 8.7% over the prior period, with no change in logo sign revenue or transit revenue over the prior period due to contracts lost during the year.

The increase in billboard net revenue of \$88.1 million was generated by acquisition activity of approximately \$13.4 million and internal growth of approximately \$74.7 million, while the internal growth across various markets within the logo sign programs of approximately \$3.8 million, was offset by a decrease of \$4.0 million of revenue due to the loss of the Company's Texas logo contract. The transit revenue internal growth of approximately \$3.2 million was offset by a decrease of \$3.6 million of revenue due to the loss of various transit contracts.

Net revenues for the year ended December 31, 2007, as compared to acquisition-adjusted net revenue for the year ended December 31, 2006, increased \$82.5 million or 7.3% as a result of net revenue internal growth. See Reconciliations below.

Operating expenses, exclusive of depreciation and amortization and gain on sale of assets, increased \$39.7 million or 6.2% to \$678.2 million for the year ended December 31, 2007 from \$638.5 million for the same period in 2006. There was a \$30.4 million increase as a result of additional operating expenses related to the operations of acquired outdoor advertising assets and increases in costs in operating Lamar Media's core assets and a \$9.3 million increase in corporate expenses.

Depreciation and amortization expense increased \$5.2 million for the year ended December 31, 2007 as compared to the year ended December 31, 2006. The increase is a result of increased capital expenditures in 2007, including \$92.1 million related to digital billboards.

Due to the above factors, operating income increased \$37.6 million to \$228.4 million for year ended December 31, 2007 compared to \$190.8 million for the same period in 2006.

During the first quarter of 2007, the Company recognized a \$15.4 million gain as a result of the sale of a private company in which the Company had an ownership interest.

Interest expense increased \$50.1 million from \$111.1 million for the year ended December 31, 2006 to \$161.2 million for the year ended December 31, 2007 due to increased debt balances as well as increase in interest rates on variable-rate debt.

The increase in operating income and the gain on disposition of investment offset by the increase in interest expense described above resulted in a \$4.2 million increase in income before income taxes. This increase in income

resulted in an increase in the income tax expense of \$2.4 million for the year ended December 31, 2007 over the same period in 2006. The effective tax rate for the year ended December 31, 2007 was 44.8%, which is greater than the statutory rates due to permanent differences resulting from non-deductible expenses.

Table of Contents

As a result of the above factors, Lamar Media recognized net income for the year ended December 31, 2007 of \$47.0 million, as compared to net income of \$45.2 million for the same period in 2006.

Reconciliations:

Because acquisitions occurring after December 31, 2005 (the acquired assets) have contributed to our net revenue results for the periods presented, we provide 2006 acquisition-adjusted net revenue, which adjusts our 2006 net revenue by adding to it the net revenue generated by the acquired assets prior to our acquisition of them for the same time frame that those assets were owned in 2007. We provide this information as a supplement to net revenues to enable investors to compare periods in 2007 and 2006 on a more consistent basis without the effects of acquisitions. Management uses this comparison to assess how well our core assets are performing.

Acquisition-adjusted net revenue is not determined in accordance with generally accepted accounting principles (GAAP). For this adjustment, we measure the amount of pre-acquisition revenue generated by the acquired assets during the period in 2006 that corresponds with the actual period we have owned the acquired assets in 2007 (to the extent within the period to which this report relates). We refer to this adjustment as acquisition net revenue.

Reconciliations of 2006 reported net revenue to 2006 acquisition-adjusted net revenue as well as a comparison of 2006 acquisition-adjusted net revenue to 2007 net revenue are provided below:

Comparison of 2007 Net Revenue to 2006 Acquisition-Adjusted Net Revenue

	Year Ended December 31,	
	2007	2006
	(In thousands)	
Reported net revenue	\$ 1,209,555	\$ 1,120,091
Acquisition net revenue		6,915
Adjusted totals	\$ 1,209,555	\$ 1,127,006

Year ended December 31, 2006 compared to Year ended December 31, 2005

Net revenues increased \$98.4 million or 9.6% to \$1.120 billion for the year ended December 31, 2006 from \$1.022 billion for the same period in 2005. This increase was attributable primarily to an increase in billboard net revenues of \$90.2 million or 9.8% over the prior period, a \$2.8 million increase in logo sign revenue, which represents an increase of 6.2% over the prior period, and a \$5.4 million increase in transit revenue over the prior period.

The increase in billboard net revenue of \$90.2 million was generated by acquisition activity of approximately \$18.1 million and internal growth of approximately \$72.1 million, while the increase in logo sign revenue of \$2.8 million was generated by internal growth across various markets within the logo sign programs of approximately \$4.3 million, which was offset by a decrease of \$1.5 million of revenue due to the expiration of the Company's South Carolina logo contract in August 2005 prior to its re-award in June 2006. The increase in transit revenue of approximately \$5.4 million was due to internal growth of approximately \$3.5 million and acquisition of \$1.9 million.

Net revenues for the year ended December 31, 2006, as compared to acquisition-adjusted net revenue for the year ended December 31, 2005, increased \$79.9 million or 7.7% as a result of net revenue internal growth. See

Reconciliations below.

Operating expenses, exclusive of depreciation and amortization and gain on sale of assets, increased \$73.1 million or 12.9% to \$638.5 million for the year ended December 31, 2006 from \$565.4 million for the same period in 2005. There was a \$59.5 million increase as a result of additional operating expenses related to the operations of acquired outdoor advertising assets and increases in costs in operating the Company's core assets and a \$13.6 million increase in corporate expenses.

Depreciation and amortization expense increased \$11.6 million for the year ended December 31, 2006 as compared to the year ended December 31, 2005. This increase is a result of increased capital expenditures in 2006, including \$81.3 million related to digital billboards.

Due to the above factors, operating income increased \$23.5 million to \$190.8 million for year ended December 31, 2006 compared to \$167.3 million for the same period in 2005.

On September 30, 2005, Lamar Media refinanced its bank credit facility. The new bank credit facility is comprised of a \$400.0 million revolving bank credit facility and a \$400.0 million term facility. The bank credit facility also includes a \$500.0 million incremental facility, which permits Lamar Media to request that its lenders enter into commitments to make additional term loans to it, up to a maximum aggregate amount of \$500.0 million. The lenders have no obligation to make additional loans under the incremental

Table of Contents

facility. As a result of this refinancing, Lamar Media recorded a loss on extinguishment of debt of \$4.0 million in 2005. During the year ended December 31, 2006, there were no refinancing activities resulting in a loss on extinguishment of debt.

Interest expense increased \$29.2 million from \$81.9 million for the year ended December 31, 2005 to \$111.1 million for the year ended December 31, 2006 due to an increase in interest rates on variable-rate debt.

The increase in operating income offset by the increase in interest expense described above resulted in a \$2.0 million decrease in income before income taxes, which resulted in income tax expense remaining relatively constant over the same period in 2005. The effective tax rate for the year ended December 31, 2006 was 44.1%, which is greater than the statutory rates due to permanent differences resulting from non-deductible expenses.

As a result of the above factors, Lamar Media recognized net income for the year ended December 31, 2006 of \$45.2 million, as compared to net income of \$47.5 million for the same period in 2005.

Reconciliations:

Because acquisitions occurring after December 31, 2004 (the acquired assets) have contributed to our net revenue results for the periods presented, we provide 2005 acquisition-adjusted net revenue, which adjusts our 2005 net revenue by adding to it the net revenue generated by the acquired assets prior to our acquisition of them for the same time frame that those assets were owned in 2006. We provide this information as a supplement to net revenues to enable investors to compare periods in 2006 and 2005 on a more consistent basis without the effects of acquisitions. ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Lamar Advertising Company and Lamar Media Corp.

Lamar Advertising Company is exposed to interest rate risk in connection with variable rate debt instruments issued by its wholly owned subsidiary Lamar Media Corp. The information below summarizes the Company's interest rate risk associated with its principal variable rate debt instruments outstanding at December 31, 2007, and should be read in conjunction with Note 8 of the Notes to the Company's Consolidated Financial Statements.

Loans under Lamar Media Corp.'s bank credit agreement bear interest at variable rates equal to the JPMorgan Chase Prime Rate or LIBOR plus the applicable margin. Because the JPMorgan Chase Prime Rate or LIBOR may increase or decrease at any time, the Company is exposed to market risk as a result of the impact that changes in these base rates may have on the interest rate applicable to borrowings under the bank credit agreement. Increases in the interest rates applicable to borrowings under the bank credit agreement would result in increased interest expense and a reduction in the Company's net income.

At December 31, 2007 there was approximately \$1.18 billion of aggregate indebtedness outstanding under the bank credit facility, or approximately 43.8% of the Company's outstanding long-term debt on that date, bearing interest at variable rates. The aggregate interest expense for 2007 with respect to borrowings under the bank credit agreement was \$74.3 million, and the weighted average interest rate applicable to borrowings under this credit facility during 2007 was 6.4%. Assuming that the weighted average interest rate was 200 basis points higher (that is 8.4% rather than 6.4%), then the Company's 2007 interest expense would have been approximately \$22.4 million higher resulting in a \$12.4 million decrease in the Company's 2007 net income.

The Company has mitigated the interest rate risk resulting from its variable interest rate long-term debt instruments by issuing fixed rate long-term debt instruments and maintaining a balance over time between the amount of the Company's variable rate and fixed rate indebtedness. In addition, the Company has the capability under the bank credit agreement to fix the interest rates applicable to its borrowings at an amount equal to LIBOR plus the applicable margin for periods of up to twelve months, which would allow the Company to mitigate the impact of short-term fluctuations in market interest rates. In the event of an increase in interest rates, the Company may take further actions to mitigate its exposure. The Company cannot guarantee, however, that the actions that it may take to mitigate this risk will be feasible or that, if these actions are taken, that they will be effective.

Management's Report on Internal Control Over Financial Reporting

The management of Lamar Advertising Company is responsible for establishing and maintaining adequate internal control over financial reporting as such term is defined in Rule 13a-15(f) and 15d-15(f) under the Exchange Act.

Lamar Advertising's management assessed the effectiveness of Lamar Advertising's internal control over financial reporting as of December 31, 2007. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control-Integrated Framework. Based on this assessment, Lamar Advertising's management has concluded that, as of December 31, 2007, Lamar Advertising's internal control over financial reporting is effective based on those criteria.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

Lamar Advertising Company:

We have audited Lamar Advertising Company's internal control over financial reporting as of December 31, 2007, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Lamar Advertising Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Lamar Advertising Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2007, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Lamar Advertising Company and subsidiaries as of December 31, 2007 and 2006, and the related consolidated statements of operations, stockholders' equity and comprehensive income, and cash flows for each of the years in the three-year period ended December 31, 2007 and the financial statement schedule as listed in the accompanying index, and our report dated February 27, 2008 expressed an unqualified opinion on those consolidated financial statements and schedule.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

Lamar Advertising Company:

We have audited the consolidated financial statements of Lamar Advertising Company and subsidiaries as listed in the accompanying index (the Company). In connection with our audits of the consolidated financial statements, we also have audited the financial statement schedule as listed in the accompanying index. These consolidated financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Lamar Advertising Company and subsidiaries as of December 31, 2007 and 2006, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2007, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as whole, presents fairly, in all material respects, the information set forth therein.

As discussed in notes 1(j) and 14 to the consolidated financial statements, effective January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123 (revised), *Share-Based Payment*. As discussed in note 15 to the consolidated financial statements, the Company changed its method of quantifying errors in 2006.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Lamar Advertising Company's internal control over financial reporting as of December 31, 2007, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated February 27, 2008 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

**LAMAR ADVERTISING COMPANY
AND SUBSIDIARIES**

Notes to Consolidated Financial Statements

(Dollars in thousands, except share and per share data)

(1) Significant Accounting Policies

(a) Nature of Business

Lamar Advertising Company (the Company) is engaged in the outdoor advertising business operating approximately 151,000 billboard advertising displays in 44 states, Canada and Puerto Rico. The Company's operating strategy is to be the leading provider of outdoor advertising services in the markets it serves.

In addition, the Company operates a logo sign business in 19 states throughout the United States and Canada and a transit advertising business in 69 markets. Logo signs are erected pursuant to state-awarded service contracts on public rights-of-way near highway exits and deliver brand name information on available gas, food, lodging and camping services. Included in the Company's logo sign business are tourism signing contracts. The Company provides transit advertising on bus shelters, benches and buses in the markets it serves.

(b) Principles of Consolidation

The accompanying consolidated financial statements include Lamar Advertising Company, its wholly owned subsidiary, Lamar Media Corp. (Lamar Media), and its majority-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

(c) Property, Plant and Equipment

Property, plant and equipment are stated at cost. Depreciation is calculated using accelerated and straight-line methods over the estimated useful lives of the assets.

(d) Goodwill and Intangible Assets

Under Statement of Financial Accounting Standards (SFAS) No. 142, (SFAS No. 142) *Goodwill and Other Intangibles* Goodwill is subject to an annual impairment test. The Company designated December 31 as the date of its annual goodwill impairment test. If an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value, an interim impairment test would be performed between annual tests. In accordance with the standard, the Company is required to identify its reporting units and determine the carrying value of each reporting unit by assigning the assets and liabilities, including the existing goodwill and intangible assets, to those reporting units. The Company is required to determine the fair value of each reporting unit and compare it to the carrying amount of the reporting unit. To the extent the carrying amount of a reporting unit exceeds the fair value of the reporting unit, the Company would be required to perform the second step of the impairment test, as this is an indication that the reporting unit goodwill may be impaired. The fair value of each reporting unit exceeded its carrying amount at its annual impairment test dates on December 31, 2007 and December 31, 2006 therefore the Company was not required to recognize an impairment loss.

Intangible assets, consisting primarily of site locations, customer lists and contracts, and non-competition agreements are amortized using the straight-line method over the assets estimated useful lives, generally from 3 to 15 years.

(e) Impairment of Long-Lived Assets

Long-lived assets, such as property, plant and equipment, and purchased intangibles subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset before interest expense. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of would be separately presented in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated. The assets and liabilities of a disposed group classified as held for sale would be presented separately in the appropriate asset and liability sections of the balance sheet.

Table of Contents**LAMAR ADVERTISING COMPANY
AND SUBSIDIARIES****Notes to Consolidated Financial Statements****(Dollars in thousands, except share and per share data)*****(f) Deferred Income***

Deferred income consists principally of advertising revenue invoiced in advance and gains resulting from the sale of certain assets to related parties. Deferred advertising revenue is recognized in income as services are provided over the term of the contract. Deferred gains are recognized in income in the consolidated financial statements at the time the assets are sold to an unrelated party or otherwise disposed of.

(g) Revenue Recognition

The Company recognizes outdoor advertising revenue, net of agency commissions, if any, on an accrual basis ratably over the term of the contracts, as services are provided. Production revenue and the related expense for the advertising copy are recognized upon completion of the sale.

The Company engages in barter transactions where the Company trades advertising space for goods and services. The Company recognizes revenues and expenses from barter transactions at fair value which is determined based on the Company's own historical practice of receiving cash for similar advertising space from buyers unrelated to the party in the barter transaction. The amount of revenue and expense recognized for advertising barter transactions is as follows:

	2007	2006	2005
Net revenues	\$5,369	\$5,461	\$5,766
Direct advertising expenses	\$2,820	\$2,802	\$2,972
General and administrative expenses	\$2,546	\$2,645	\$2,521

(h) Income Taxes

The Company uses the asset and liability method of accounting for income taxes. Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

(i) Earnings Per Share

Earnings per share are computed in accordance with SFAS No. 128, Earnings Per Share. The calculation of basic earnings per share excludes any dilutive effect of stock options and convertible debt, while diluted earnings per share includes the dilutive effect of stock options and convertible debt. The number of potentially dilutive shares excluded from the calculation because of their anti-dilutive effect are 5,813,730 for the year ended December 31, 2007 and 5,581,755 for the years ended December 31, 2006 and 2005.

(j) Stock Based Compensation

Effective January 1, 2006, we adopted the provisions of Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment*, and related interpretations, or SFAS 123(R), to account for stock-based compensation using the modified prospective transition method and therefore will not restate our prior period results.

SFAS 123(R) supersedes Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees*, or APB No. 25, and revises guidance in SFAS 123, *Accounting for Stock-Based Compensation*. Among other things, SFAS 123(R) requires that compensation expense be recognized in the financial statements for share-based awards based on the grant date fair value of those awards. The modified prospective transition method applies to (a) unvested stock options under our 1996 Equity Incentive Plan (1996 Plan) at December 31, 2005 and issuances under our Employee Stock Purchase Plan (ESPP) outstanding based on the grant date fair value estimated in accordance with the pro forma provisions of SFAS 123, and (b) any new share-based awards granted subsequent to December 31, 2005, based on the grant-date fair value estimated in accordance with the provisions of SFAS 123(R). Additionally, stock-based compensation expense includes an estimate for pre-vesting forfeitures and is recognized over the requisite

service periods of the awards on a straight-line basis, which is generally commensurate with the vesting term. Non-cash compensation expense recognized during the year ended December 31, 2007 is \$27,488, which consists of (i) \$7,113 resulting from the Company's expensing of options under SFAS 123(R), (ii) \$13,218 related to stock grants, made under the Company's performance-based stock incentive program in 2007 (iii) \$197 related to stock awards to directors and (iv) \$6,960 related to shares issued as a special award to option holders. See Note 14 for information on the assumptions we used to calculate the fair value of stock-based compensation.

Table of Contents**LAMAR ADVERTISING COMPANY
AND SUBSIDIARIES****Notes to Consolidated Financial Statements****(Dollars in thousands, except share and per share data)**

Prior to January 1, 2006, we accounted for these stock-based compensation plans in accordance with APB No. 25 and related interpretations. Accordingly, compensation expense for a stock option grant was recognized only if the exercise price was less than the market value of our Class A common stock on the grant date. Compensation expense was not recognized under our ESPP as the purchase price of the stock issued thereunder was not less than 85% of the lower of the fair market value of our common stock at the beginning of each offering period or at the end of each purchase period under the plan. Prior to our adoption of SFAS 123(R), as required under the disclosure provisions of SFAS 123, as amended, we provided pro forma net income (loss) and earnings (loss) per common share for each period as if we had applied the fair value method to measure stock-based compensation expense.

The table below summarizes the impact on our results of operations for the years ended December 31, 2007 and 2006 of outstanding stock options and stock grants under our 1996 Plan and issuances under our ESPP recognized under the provisions of SFAS 123(R):

	Year Ended December 31, 2007	Year Ended December 31, 2006
Stock-based compensation expense:		
Issuances under employee stock purchase plan	\$ 785	\$ 728
Employee stock options	6,328	6,833
Performance-based stock awards	13,218	10,345
Stock awards to directors	197	
Issuance to option holders as a special award	6,960

Diluted	\$ 0.20	\$ 0.13

The following table illustrates the effect on net income and earnings per common share for the year ended December 31, 2005 as if we had applied the fair value method to measure stock-based compensation, as required under the disclosure provisions of SFAS No. 123:

	Year Ended December 31, 2005
Net income applicable to common stock, as reported	\$ 41,414
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	(5,013)
Pro forma net income applicable to common stock	\$ 36,401
Net income per common share basic and diluted	
Net income per share, as reported	\$ 0.39
Net income per share, pro forma	\$ 0.34

(k) Cash and Cash Equivalents

The Company considers all highly-liquid investments with original maturities of three months or less to be cash equivalents.

(l) Foreign Currency Translation

Local currencies generally are considered the functional currencies outside the United States. Assets and liabilities for operations in local-currency environments are translated at year-end exchange rates. Income and expense items are translated at average rates of exchange prevailing during the year. Cumulative translation adjustments are recorded as a component of accumulated other comprehensive income (loss) in stockholders' equity.

(m) Reclassification of Prior Year Amounts

Certain amounts in the prior years' consolidated financial statements have been reclassified to conform to the current year presentation. These reclassifications had no effect on previously reported net income (loss).

(Dollars in thousands, except share and per share data)

(n) *Asset Retirement Obligations*

Statement of Financial Accounting Standards No. 143, *Accounting for Asset Retirement Obligations* (SFAS 143) SFAS 143 requires companies to record the present value of obligations associated with the retirement of tangible long-lived assets in the period in which it is incurred. The liability is capitalized as part of the related long-lived asset's carrying amount. Over time, accretion of the liability is recognized as an operating expense and the capitalized cost is depreciated over the expected useful life of the related asset. The Company's asset retirement obligations relate primarily to the dismantlement, removal, site reclamation and similar activities of its properties.

(o) *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(p) *Comprehensive Income*

Total comprehensive income and the components of accumulated other comprehensive income (loss) are presented in the Consolidated Statement of Changes in Stockholders' Equity and Comprehensive Income. Accumulated other comprehensive income (loss) is composed of foreign currency translation effects and unrealized gains and losses on cash flow hedging instruments.

(q) *Fair Value Hedging Interest Rate Swaps*

The Company utilizes derivatives instruments such as interest rate swaps for purposes of hedging its exposure to changing interest rates. Statement of Financial Accounting Standards (SFAS) SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended (SFAS 133), requires that all derivative instruments subject to the requirements of the statement be measured at fair value and recognized as assets or liabilities on the balance sheet. Upon entering into a derivative contract, the Company may designate the derivative as either a fair value hedge or a cash flow hedge, or decide that the contract is not a hedge, and thenceforth mark the contract to market through earnings. The Company documents the relationship between the derivative instrument designated as a hedge and the hedged items, as well as its objective for risk management and strategy for use of the hedging instrument to manage the risk. Derivative instruments designated as fair value or cash flow hedges are linked to specific assets and liabilities or to specific firm commitments or forecasted transactions. The Company assesses at inception, and on an ongoing basis, whether a derivative instrument used as a hedge is highly effective in offsetting changes in the fair value or cash flows of the hedged item. A derivative that is not a highly effective hedge does not qualify for hedge accounting. Changes in the fair value of a qualifying fair value hedge are recorded in earnings along with the gain or loss on the hedged item. Changes in the fair value of a qualifying cash flow hedge are recorded in other comprehensive income, until earnings are affected by the cash flows of the hedged item. When the cash flow of the hedged item is recognized in the statement of operations, the fair value of the associated cash flow hedge is reclassified from other comprehensive income into earnings.

Ineffective portions of a cash flow hedging derivative's change in fair value are recognized currently in earnings as other income (expense). If a derivative instrument no longer qualifies as a cash flow hedge, hedge accounting is discontinued and the gain or loss that was recorded in other comprehensive incomes is recognized over the period anticipated in the original hedge transaction.

The Company entered into an interest rate swap agreement on December 6, 2007 that matures in December 2009. The interest rate swap converts \$100,000 of variable rate debt to 3.89% fixed rate debt. The derivative was designated as a hedge. The fair market value at December 31, 2007 was \$(179) and is reflected in other liabilities and other comprehensive income on the balance sheet.

Table of Contents**(2) Acquisitions**

Year Ended December 31, 2007

During the twelve months ended December 31, 2007, the Company completed several acquisitions of outdoor advertising assets for a total purchase price of approximately \$153,593 in cash.

Each of these acquisitions was accounted for under the purchase method of accounting, and, accordingly, the accompanying consolidated financial statements include the results of operations of each acquired entity from the date of acquisition. The acquisition costs have been allocated to assets acquired and liabilities assumed based on preliminary fair market value estimates at the dates of acquisition. The allocations are pending final determination of the fair value of certain intangible assets. The following is a summary of the preliminary allocation of the acquisition costs in the above transactions.

	Total
Current assets	\$ 4,330
Property, plant and equipment	80,358

Other assets	1,527
Current liabilities	(793)
	\$ 153,593

Total acquired intangible assets for the year ended December 31, 2007 was \$68,171, of which \$18,522 was assigned to goodwill. Although goodwill is not amortized for financial statement purposes, substantially all of the \$18,522 is expected to be fully deductible for tax purposes. The remaining \$49,649 of acquired intangible assets have a weighted average useful life of approximately 14 years. The intangible assets include customer lists and contracts of \$8,962 (7 year weighted average useful life), site locations of \$40,334 (15 year weighted average useful life), and non-competition agreements of \$353 (11 year weighted average useful life). The aggregate amortization expense related to the 2007 acquisitions for the year ended December 31, 2007 was approximately \$2,596.

The following unaudited pro forma financial information for the Company gives effect to the 2007 and 2006 acquisitions as if they had occurred on January 1, 2006. These pro forma results do not purport to be indicative of the results of operations which actually would have resulted had the acquisitions occurred on such date or to project the Company's results of operations for any future period.

Notes to Consolidated Financial Statements

(Dollars in thousands, except share and per share data)

On June 12, 2003, Lamar Media Corp. issued \$125,000 7 1/4% Senior Subordinated Notes due 2013 as an add on to the \$260,000 issued in December 2002. The issue price of the \$125,000 7 1/4% Notes was 103.661% of the principal amount of the notes, which yields an effective rate of 6 5/8%.

On June 16, 2003, the Company issued \$287,500 2 7/8% Convertible Notes due 2010. The notes are convertible at the option of the holder into shares of Lamar Advertising Company Class A common stock at any time before the close of business on the maturity date, unless previously repurchased, at a conversion rate of 19.4148 shares per \$1,000 principal amount of notes, subject to adjustments in some circumstances.

On August 16, 2005, Lamar Media Corp., issued \$400,000 6 5/8% Senior Subordinated Notes due 2015. These notes are unsecured senior subordinated obligations and will be subordinated to all of Lamar Media's existing and future senior debt, rank equally with all of Lamar Media's existing and future senior subordinated debt and rank senior to all of our existing and any future subordinated debt of Lamar Media. These notes are redeemable at the company's option anytime on or after August 15, 2010. Lamar Media may also redeem up to 35% of the aggregate principal amount of the notes using the proceeds from certain public equity offerings completed before August 15, 2008. The net proceeds from this issuance were used to reduce borrowings under Lamar Media's bank credit facility.

On August 17, 2006, Lamar Media Corp. issued \$216,000 6 5/8% Senior Subordinated Notes due 2015-Series B. These notes are unsecured senior subordinated obligations and will be subordinated to all of Lamar Media's existing and future senior debt, rank equally with all of Lamar Media's existing and future senior subordinated debt and rank senior to all of our existing and any future subordinated debt of Lamar Media. These notes are redeemable at the company's option anytime on or after August 15, 2010. Lamar Media may also redeem up to 35% of the aggregate principal amount of the notes using the proceeds from certain public equity offerings completed before August 15, 2008. The net proceeds from this issuance were used to reduce borrowings under Lamar Media's bank credit facility and repurchase the Company's Class A common stock pursuant to its repurchase plan.

On July 3, 2007, the Company accepted for exchange \$287,209 aggregate principal amount of its outstanding 2 7/8% Convertible Notes due 2010 (the "outstanding notes"), for newly issued 2 7/8% Convertible Notes due 2010 Series B (the "new notes") and cash pursuant to an exchange offer commenced on May 31, 2007. The settlement and exchange of new notes and payment of cash for the outstanding notes was made on July 3, 2007. Approximately 99% of the total outstanding notes were exchanged pursuant to the exchange offer, with approximately \$291 aggregate principal amount of outstanding notes remaining outstanding immediately after the consummation of the exchange offer and the total debt outstanding unchanged.

The purpose of the exchange offer was to exchange outstanding notes for new notes with certain different terms, including the type of consideration the Company may use to pay holders who convert their notes. Among their features, the new notes are convertible into Class A common stock, cash or a combination thereof, at the Company's option, subject to certain conditions, while the outstanding notes are convertible solely into Class A common stock.

On October 11, 2007, Lamar Media Corp. issued \$275,000 aggregate principal amount of 6 5/8% Senior Subordinated Notes due 2015 Series C. These notes are unsecured senior subordinated obligations and will be subordinated to all of Lamar Media's existing and future senior debt, rank equally with all of Lamar Media's existing and future senior subordinated debt and rank senior to all of the existing and any future subordinated debt of Lamar Media. These notes are redeemable at the company's option anytime on or after August 15, 2010. Lamar Media may also redeem up to 35% of the aggregate principal amount of the notes using the proceeds from certain public equity offerings completed before August 15, 2008. A portion of the net proceeds from the offering of the Notes was used to repay a portion of the amounts outstanding under Lamar Media's revolving bank credit facility.

The Company's obligations with respect to its convertible notes are not guaranteed by the Company's direct or indirect wholly owned subsidiaries. Certain obligations of the Company's wholly-owned subsidiary, Lamar Media Corp. are guaranteed by its wholly owned domestic subsidiaries.

Credit Facility

On September 30, 2005, Lamar Media Corp. replaced its bank credit facility. The new bank facility is comprised of a \$400,000 revolving bank credit facility and a \$400,000 term facility. The bank credit facility also includes a \$500,000 incremental facility, which permits Lamar Media to request that its lenders enter into a commitment to make additional term loans to it, up to a maximum aggregate amount of \$500,000. As a result of this refinancing, the Company recorded a loss on extinguishment of debt of \$3,982.

On February 8, 2006, Lamar Media entered into a Series A Incremental Term Loan Agreement and obtained commitments from its lenders for a term loan of \$37,000, which was funded on February 27, 2006. The available uncommitted incremental loan facility was thereby reduced to \$463,000.

On October 5, 2006, Lamar Media entered into a Series B Incremental Term Loan Agreement (the Series B Incremental Loan Agreement) and borrowed an additional \$150,000 under the incremental portion of the bank credit facility. In conjunction with the Series B Incremental Loan Agreement, Lamar Media also entered into an amendment to the bank credit facility to restore the amount of the incremental loan facility to \$500,000 (which under its old terms would have been reduced by the Series B Incremental Loan and had been reduced by the earlier Series A Incremental Loan described above). The lenders have no obligation to make additional term loans to Lamar Media under the incremental facility, but may enter into such commitments in their sole discretion.

On December 21, 2006, a wholly owned subsidiary of Lamar Media, Lamar Transit Advertising Canada Ltd., entered into a Series C Incremental Term Loan Agreement and obtained commitments from its lenders for a term loan of \$20,000. The available uncommitted incremental loan facility was thereby reduced to \$480,000.

On January 17, 2007, Lamar Media entered into a Series D Incremental Loan Agreement and obtained commitments from its lenders for a term loan of \$7,000 which was funded on January 17, 2007.

On March 28, 2007, Lamar Media Corp., entered into a Series E Incremental Loan Agreement with its lenders, in the aggregate amount of \$325,000, which was funded on March 28, 2007. The Series E Incremental Loans will mature March 31, 2013.

AND SUBSIDIARIES****Notes to Consolidated Financial Statements****(Dollars in thousands, except share and per share data)**

Also, on March 28, 2007, Lamar Media Corp. entered into a Series F Incremental Loan Agreement in the aggregate amount of \$325,000 which was funded on March 28, 2007. The Series F Incremental Loans will mature on March 31, 2014.

In conjunction with the Series E and F Term loans described above, the Company's credit agreement dated as of September 30, 2005, was further amended by Amendment No. 3 dated March 28, 2007, to (i) permit the Series E and Series F Incremental Loans to be borrowed up to an aggregate of \$575,000 and restore the amount available for additional incremental loans to \$500,000 and (ii) delete the Interest Coverage Ratio, and the Senior Coverage Ratio financial covenants and the step-down to 5.75x from 6.0x in the Total Debt Ratio financial covenant.

The quarterly amortization of the Term facility is as follows:

	Term
December 31, 2007 – March 31, 2009	\$ 7,675.0
June 30, 2009 – September 30, 2009	11,612.5
December 31, 2009 – March 31, 2010	26,962.5
June 30, 2010 – March 31, 2011	30,087.5
June 30, 2011 – September 30, 2011	33,212.5
December 31, 2011 – March 31, 2012	102,287.5
June 30, 2012 – September 30, 2012	136,662.5
December 31, 2012 – March 31, 2013	44,562.5
June 30, 2013 – December 31, 2013	812.5
March 30, 2014	309,562.5

As of December 31, 2007, there was \$0 outstanding under the revolving facility. The revolving facility terminates September 30, 2012. Revolving credit loans may be requested under the revolving credit facility at any time prior to maturity. The loans bear interest, at the Company's option, at the LIBOR Rate or JPMorgan Chase Prime Rate plus applicable margins, such margins being set from time to time based on the Company's ratio of debt to trailing twelve month EBITDA, as defined in the agreement. The terms of the indenture relating to Lamar Advertising's outstanding notes, Lamar Media's bank credit facility and the indenture relating to Lamar Media's outstanding notes restrict, among other things, the ability of Lamar Advertising and Lamar Media to:

dispose of assets;

incur or repay debt;

create liens;

make investments; and

pay dividends.

Lamar Media's ability to make distributions to Lamar Advertising is also restricted under the terms of these agreements. Under Lamar Media's credit facility the Company must maintain specified financial ratios and levels including:

fixed charges ratios; and

total debt ratios.

Lamar Advertising and Lamar Media were in compliance with all of the terms of all of the indentures and the applicable bank credit agreement during the periods presented.

(11) Income Taxes

In July 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* — an Interpretation of FASB Statement No. 109 (FIN 48). FIN 48 prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. In addition, it provides guidance on the measurement, derecognition, classification and disclosure of tax positions, as well as the accounting for related interest and penalties. FIN 48 is effective for fiscal years beginning after December 15, 2006. We are required to record the impact of adopting FIN 48 as an adjustment to the January 1, 2007 beginning balance of retained earnings rather than our consolidated statement of income.

We adopted the provisions of FIN 48 on January 1, 2007. A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows (amounts in thousands):

Balance of January 1, 2007	\$ 595
Plus: additions based on tax positions related to the current year	47
Plus: additions for tax positions of prior years	145
Less: reductions made for tax positions of prior years	
Settlements	
Balance of December 31, 2007	\$ 787

Table of Contents**LAMAR ADVERTISING COMPANY
AND SUBSIDIARIES****Notes to Consolidated Financial Statements****(Dollars in thousands, except share and per share data)**

Included in the balance of unrecognized benefits as of December 31, 2007, are \$787 of tax benefits that, if recognized in future periods, would impact our effective tax rate.

To the extent penalties and interest would be assessed on any underpayment of income tax, such amounts have been accrued and included in our accrued current tax liability in our consolidated balance sheets. This is an accounting policy election we made that is a continuation of our historical policy and we intend to continue to consistently apply the policy in the future. During 2007, we accrued \$145 in gross interest and penalties.

In addition, we are subject to both income taxes in the United States and in many of the 50 individual states. In addition, the Company is subject to income taxes in Canada and in the Commonwealth of Puerto Rico. We are open to examination in United States and in various individual states for tax years ended December 2004 through December 2006. We are also open to examination for the years ended 2002-2003 resulting from net operating losses generated and available for carry forward from those years.

We do not anticipate a significant change in the balance of unrecognized tax benefits within the next 12 months.

As of December 31, 2007, the Company had income taxes refundable of \$4,568 included in current assets on the balance sheet and at December 31, 2006, the company had income taxes payable of \$5,084 included in the accrued expenses.

Income tax expense (benefit) for the years ended December 31, 2007, 2006 and 2005, consists of:

	Current	Deferred	Total

Net non-current deferred tax liability	\$ (136,118)	\$ (140,019)

As of December 31, 2007, the Company had deferred tax assets for U.S. federal net operating losses of \$3,990, and state net operating losses of \$7,390, which expire through 2024. In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible.

Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes it is more likely than not the Company will realize the benefits of these deductible differences and therefore no valuation allowance is recorded. The amount of the deferred tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

(12) Related Party Transactions

Affiliates, as used within these statements, are persons or entities that are affiliated with Lamar Advertising Company or its subsidiaries through common ownership and directorate control.

Prior to 1996, the Company entered into various related party transactions for the purchase and sale of advertising structures whereby any resulting gains were deferred at that date. As of December 31, 2007 and 2006, the deferred gains related to these transactions were \$1,001 and are included in deferred income on the balance sheets. No gains related to these transactions have been realized in the Statement of Operations for the years ended December 31, 2007, 2006 and 2005.

In addition, the Company had receivables from employees of \$266 and \$240 at December 31, 2007 and 2006, respectively. These receivables are primarily relocation loans for employees. The Company does not have any receivables from its current executive officers.

(Dollars in thousands, except share and per share data)

Effective July 1, 1996, the Lamar Texas Limited Partnership, one of the Company's subsidiaries, and Reilly Consulting Company, L.L.C., which Kevin P. Reilly, Sr. controls, entered into a consulting agreement which was amended January 1, 2004. This consulting agreement as amended, has a term through December 31, 2008 with automatic renewals for successive one year periods after that date unless either party provides written termination to the other. The amended agreement provides for an annual consulting fee of \$190 for the five year period commencing on January 1, 2004 and an annual consulting fee of \$150 for any subsequent one year renewal term. The agreement also contains a non-disclosure provision and a non-competition restriction which extends for two years beyond the termination agreement.

The Company also has a lease arrangement with Deanna Enterprises, LLC (formerly Reilly Enterprises, LLC), which Kevin P. Reilly Sr. controls, for the use of an airplane. The Company paid a monthly fee plus expenses which entitled the Company to 6.67 hours of flight time, with any unused portion carried over into the next month. This agreement was amended in October 2004, whereby the Company would pay \$100 per year for 125 guaranteed flight hours. Total fees paid under these arrangements for fiscal 2007, 2006 and 2005 were approximately \$102, \$106 and \$104, respectively.

(13) Stockholders' Equity

On July 16, 1999, the Board of Directors designated 5,720 shares of the 1,000,000 shares of previously undesignated preferred stock, par value \$.001, as Series AA preferred stock. The Class A preferred stock, par value \$638, was exchanged for the new Series AA preferred stock and no shares of Class A preferred stock are currently outstanding. The new Series AA preferred stock and the Class A preferred stock rank senior to the Class A common stock and Class B common stock with respect to dividends and upon liquidation. Holders of Series AA preferred stock and Class A preferred stock are entitled to receive, on a pari passu basis, dividends at the rate of \$15.95 per share per quarter when, as and if declared by the Board of Directors. The Series AA preferred stock and the Class A preferred stock are also entitled to receive, on a pari passu basis, \$638 plus a further amount equal to any dividend accrued and unpaid to the date of distribution before any payments are made or assets distributed to the Class A common stock or Class B stock upon voluntary or involuntary liquidation, dissolution or winding up of the Company. The liquidation value of the outstanding Series AA preferred stock at December 31, 2007 was \$3,649. The Series AA preferred stock and the Class A preferred stock are identical, except that the Series AA preferred stock is entitled to one vote per share and the Class A preferred stock is not entitled to vote.

All of the outstanding shares of common stock are fully paid and nonassessable. In the event of the liquidation or dissolution of the Company, following any required distribution to the holders of outstanding shares of preferred stock, the holders of common stock are entitled to share pro rata in any balance of the corporate assets available for distribution to them. The Company may pay dividends if, when and as declared by the Board of Directors from funds legally available therefore, subject to the restrictions set forth in the Company's existing indentures and the bank credit facility. Subject to the preferential rights of the holders of any class of preferred stock, holders of shares of common stock are entitled to receive such dividends as may be declared by the Company's Board of Directors out of funds legally available for such purpose. No dividend may be declared or paid in cash or property on any share of either class of common stock unless simultaneously the same dividend is declared or paid on each share of the other class of common stock, provided that, in the event of stock dividends, holders of a specific class of common stock shall be entitled to receive only additional shares of such class.

Notes to Consolidated Financial Statements

(Dollars in thousands, except share and per share data)

The rights of the Class A and Class B common stock are equal in all respects, except holders of Class B common stock have ten votes per share on all matters in which the holders of common stock are entitled to vote and holders of Class A common stock have one vote per share on such matters. The Class B common stock will convert automatically into Class A common stock upon the sale or transfer to persons other than permitted transferees (as defined in the Company's certificate of incorporation, as amended).

In November 2005, the Company announced that its Board of Directors authorized the repurchase of up to \$250,000 of the Company's Class A common stock. The Company completed this repurchase plan in July 2006, repurchasing a total of 4,851,947 shares of its Class A Common Stock.

In August 2006, Lamar announced a second repurchase plan program of up to \$250,000 of the Company's Class A common stock, which was completed in July 2007.

The Company's board of directors approved the current repurchase program of up to \$500,000 of the Company's Class A common stock over a period not to exceed 24 months in February 2007. During the twelve months ended, December 31, 2007, the Company purchased 6,746,594 shares of its Class A common stock for an aggregate purchase price of approximately \$383,569 under these plans. The share repurchases may be made on the open market or in privately negotiated transactions. The timing and amount of any shares repurchased will be determined by Lamar's management based on its evaluation of market conditions and other factors. The repurchase program may be suspended or discontinued at any time. Any repurchased shares will be available for future use for general corporate and other purposes.

The Company's board of directors declared a special dividend of \$3.25 per share of Common Stock. The dividend of \$318,303 in aggregate amount was paid on March 30, 2007 to stockholders of record on March 22, 2007. As of March 22, 2007, Lamar had 82,541,461 shares of Class A Common Stock and 15,397,865 shares of Class B Common Stock outstanding. The Class B Common Stock is convertible into Class A Common Stock on a one-for-one-basis at the option of its holder.

(14) Stock Compensation Plans

Equity Incentive Plan. Lamar's 1996 Equity Incentive Plan has reserved 10 million shares of common stock for issuance to directors and employees, including options granted and common stock reserved for issuance under its performance-based incentive program. Options granted under the plan expire ten years from the grant date with vesting terms ranging from three to five years which primarily includes 1) options that vest in one-fifth increments beginning on the grant date and continuing on each of the first four anniversaries of the grant date and 2) options that cliff-vest on the fifth anniversary of the grant date. All grants are made at fair market value based on the closing price of our Class A common stock as reported on the NASDAQ Global Select Market.

We use a Black-Scholes-Merton option pricing model to estimate the fair value of share-based awards under SFAS 123(R), which is the same valuation technique we previously used for pro forma disclosures under SFAS 123. The Black-Scholes-Merton option pricing model incorporates various highly subjective assumptions, including expected term and expected volatility. We have reviewed our historical pattern of option exercises and have determined that meaningful differences in option exercise activity existed among vesting schedules. Therefore, for all stock options granted after January 1, 2006, we have categorized these awards into two groups of vesting 1) 5-year cliff vest and 2) 4-year graded vest, for valuation purposes. We have determined there were no meaningful differences in employee activity under our ESPP due to the nature of the plan.

We estimate the expected term of options granted using an implied life derived from the results of a hypothetical mid-point settlement scenario, which incorporates our historical exercise, expiration and post-vesting employment termination patterns, while accommodating for partial life cycle effects. We believe these estimates will approximate future behavior.

We estimate the expected volatility of our Class A common stock at the grant date using a blend of 75% historical volatility of our Class A common stock and 25% implied volatility of publicly traded options with maturities greater

than six months on our Class A common stock as of the option grant date. Our decision to use a blend of historical and implied volatility was based upon the volume of actively traded options on our common stock and our belief that historical volatility alone may not be completely representative of future stock price trends.

Our risk-free interest rate assumption is determined using the Federal Reserve nominal rates for U.S. Treasury zero-coupon bonds with maturities similar to those of the expected term of the award being valued. We assumed an expected dividend yield of zero since the Company has historically not paid dividends on Class A common stock, except for special dividends in 2007.

Table of Contents**LAMAR ADVERTISING COMPANY
AND SUBSIDIARIES****Notes to Consolidated Financial Statements****(Dollars in thousands, except share and per share data)**

Additionally, SFAS 123(R) requires us to estimate option forfeitures at the time of grant and periodically revise those estimates in subsequent periods if actual forfeitures differ from those estimates. We record stock-based compensation expense only for those awards expected to vest using an estimated forfeiture rate based on our historical forfeiture data. Previously, we accounted for forfeitures as they occurred under the pro forma disclosure provisions of SFAS 123 for periods prior to 2006.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions used:

Grant Year	Dividend Yield	Expected Volatility	Risk Free Interest Rate	Expected Lives
2007	0%	30%	5%	5
2006	0%	43%	4%	7
2005	0%	46%	4%	6

Information regarding the 1996 Plan for the year ended December 31, 2007 is as follows:

	Shares	Weighted Average Exercise Price	Weighted Average Contractual Life
Outstanding, beginning of year	2,959,686	\$36.20

Outstanding, end of year	2,691,141	\$36.94	4.45
Exercisable at end of year	2,057,741	\$35.66	3.74

At December 31, 2007 there was \$4,574 of unrecognized compensation cost related to stock options granted which is expected to be recognized over a weighted-average period of 1.9 years.

Shares available for future stock option and restricted share grants to employees and directors under existing plans were 1,472,300 at December 31, 2007. The aggregate intrinsic value of options outstanding as of December 31, 2007 was \$31,973, and the aggregate intrinsic value of options exercisable was \$26,706. Total intrinsic value of options exercised was \$9,069 for the year ended December 31, 2007.

The following table summarizes our nonvested stock option activity for year ended December 31, 2007:

Stock Purchase Plan. On May 25, 2000, the stockholders approved the 2000 Employee Stock Purchase Plan whereby 500,000 shares of the Company's Class A common stock have been reserved for issuance under the Plan. Under this plan, eligible employees may purchase stock at 85% of the fair market value of a share on the offering commencement date or the respective purchase date whichever is lower. Purchases are limited to ten percent of an employee's total compensation. The initial offering under the Plan commenced on April 1, 2000 with a single purchase date on June 30, 2000. Subsequent offerings shall commence each year on July 1 with a termination date of December 31 and purchase dates on September 30 and December 31; and on January 1 with a termination date on June 30 and purchase dates on March 31 and June 30. In accordance with the Plan, the number of shares available for issuance under the plan is increased at the beginning of each fiscal year by the lesser of 500,000 shares or one tenth of 1% of the total of shares outstanding or a lesser amount determined by the board of directors.

Lamar's 2000 Employee Stock Purchase Plan has reserved 924,000 shares of common stock for issuance to employees. The following is a summary of ESPP share activity for the twelve months ended December 31, 2007:

	Shares
Available for future purchases, January 1, 2007	469,647
Purchases	(76,649)
Available for future purchases, December 31, 2007	392,998

Performance-based compensation. Unrestricted shares of our Class A common stock may be awarded to key officers and employees under our 1996 plan based on certain Company performance measures for fiscal 2007. The number of shares to be issued; if any, will be dependent on the level of achievement of these performance measures as determined by the Company's Compensation Committee based on our 2007 results and were issued in the first quarter of 2008. The shares subject to these awards can range from a minimum of 0% to a maximum of 100% of the target number of shares depending on the level at which the goals are attained. The Based on the Company's performance measures achieved through December 31, 2007, the Company has accrued \$13,218 as compensation expense related to these agreements.

(15) Adoption of Staff Accounting Bulletin No. 108

In September 2006, the SEC released SAB 108. The transition provisions of SAB 108 permit the Company to adjust for the cumulative effect on retained earnings of immaterial errors relating to prior years. SAB 108 also requires the adjustment of any prior quarterly financial statements within the fiscal year of adoption for the effects of such errors on the quarters when the information is next presented. Such adjustments do not require previously filed reports with the SEC to be amended. In accordance with SAB 108, the Company has adjusted beginning accumulated deficit for 2006 in the accompanying consolidated financial statements for the items described below. The Company considers these adjustments to be immaterial to prior periods.

Review of Logo Sign Depreciation Policies

The Company adjusted its beginning accumulated deficit for fiscal 2006 related to a correction in the historical depreciation of logo signs related to its state contracts. The Company had historically depreciated its logo signs over a 15 year life. In a majority of cases the 15 year life was consistent with the contract term, including renewals, if applicable. As a result of a Company review, it was determined that some of the state sign contracts had contractual life of less than 15 years, including renewals, if any. The Company recorded an adjustment to beginning accumulated deficit of \$4,813, net of tax for this matter. The adjustment to depreciation should have been recorded over the period from 1996 through 2005.

Management does not believe that the net effects of this adjustment were material, either quantitatively or qualitatively, in any of the years covered by the review.

The impact of the item noted above, net of tax, on 2006 beginning balances are presented below:

	Logos Depreciation Practices	Total
Accumulated depreciation and amortization	\$ 7,839	\$ 7,839
Deferred income tax liabilities	(3,026)	(3,026)
Accumulated deficit	(4,813)	(4,813)

(16) Benefit Plans

The Company sponsors a partially self-insured group health insurance program. The Company is obligated to pay all claims under the program, which are in excess of premiums, up to program limits. The Company is also self-insured with respect to its income disability benefits and against casualty losses on advertising structures. Amounts for expected losses, including a provision for losses incurred but not reported, is included in accrued expenses in the accompanying consolidated financial statements. As of December 31, 2007, the Company maintained \$12,323 in letters of credit with a bank to meet requirements of the Company's worker's compensation and general liability insurance carrier.

Savings and Profit Sharing Plan

The Company sponsors The Lamar Corporation Savings and Profit Sharing Plan covering eligible employees who have completed one year of service and are at least 21 years of age. The Company matches 50% of employees' contributions up to 5% of eligible compensation. Employees can contribute up to 100% of compensation. Full vesting on the Company's matched contributions occurs after three years for contributions made after January 1, 2002. Annually, at the Company's discretion, an additional profit sharing contribution may be made on behalf of each eligible employee. The Company's matched contributions for the years ended December 31, 2007, 2006 and 2005 were \$3,124, \$2,752 and \$2,537 respectively.

Deferred Compensation Plan

The Company sponsors a Deferred Compensation Plan for the benefit of certain of its board-elected officers who meet specific age and years of service and other criteria. Officers that have attained the age of 30 and have a minimum of 10 years of Lamar service and satisfying additional eligibility guidelines are eligible for annual contributions to the Plan generally ranging from \$3 to \$8, depending on the employee's length of service. The Company's contributions to the Plan are maintained in a rabbi trust and, accordingly, the assets and liabilities of the Plan are reflected in the balance sheet of the Company in other assets and other liabilities. Upon termination, death or disability, participating employees are eligible to receive an amount equal to the fair market value of the assets in the employee's deferred compensation account. The Company has contributed \$861, \$802 and \$754 to the Plan during the years ended December 31, 2007, 2006 and 2005, respectively.

On December 8, 2005, the Company's Board of Directors approved an amendment to the Lamar Deferred Compensation Plan in order to (1) to comply with the requirements of Section 409A of the Internal Revenue Code applicable to deferred compensation and (2) to reflect changes in the administration of the Plan. The Company's Board of Directors also approved the adoption of a grantor trust pursuant to which amounts may be set aside, but remain subject to claims of the Company's creditors, for payments of liabilities under the new plan, including amounts contributed under the old plan.

(17) Commitment and Contingencies

In August 2002, a jury verdict was rendered in a lawsuit filed against the Company in the amount of \$32 in compensatory damages and \$2,245 in punitive damages. As a result of the verdict, the Company recorded a \$2,277 charge in its operating expenses during the quarter ended September 30, 2002. In May 2003, the Court ordered a reduction to the punitive damage award, which was subject to the plaintiff's consent. The plaintiff rejected the reduced award and the Court ordered a new trial. Based on legal analysis, management believes the best estimate of the Company's potential liability related to this claim is currently \$376. It is anticipated that a new trial with respect to punitive damages will take place in June 2008.

The Company is involved in various other claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the Company's consolidated financial position, results of operations, or liquidity.

(18) Summarized Financial Information of Subsidiaries

Separate financial statements of each of the Company's direct or indirect wholly owned subsidiaries that have guaranteed Lamar Media's obligations with respect to its publicly issued notes (collectively, the Guarantors) are not included herein because neither the Company nor Lamar Media has any independent assets or operations, the guarantees are full and unconditional and joint and several and the only subsidiaries that are not guarantors are considered to be minor. Lamar Media's ability to make distributions to Lamar Advertising is restricted under the terms of its bank credit facility and the indenture relating to Lamar Media's outstanding notes. As of December 31, 2007 and 2006, the net assets restricted as to transfers from Lamar Media Corp. to Lamar Advertising Company in the form of cash dividends, loans or advances were \$137,127 and \$407,894, respectively.

(19) Disclosures About Fair Value of Financial Instruments

Fair value of financial instruments: At December 31, 2007 and 2006, the Company's financial instruments included cash and cash equivalents, marketable securities, accounts receivable, investments, accounts payable, borrowings and derivative contracts. The fair values of cash and cash equivalents, accounts receivable, accounts payable, and short-term borrowings and current portion of long-term debt approximated carrying values because of the short-term nature of these instruments. Available-for-sale marketable securities, investments and derivative contracts are reported at fair values. Fair values for investments held at cost are not readily available, but are estimated to approximate fair value. The carrying amounts and estimated fair values of other financial instruments based on third-party quotes as of December 31 follow:

	2007		2006	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Long-term debt (including current maturities)	\$2,725,770	\$2,722,115	\$1,990,468	\$2,094,992
Hedging instrument	\$ 179	\$	\$	\$

Fair value estimates are subject to inherent limitations. Estimates of fair values are made at a specific point in time, based on relevant market information and information about the financial instrument. The estimated fair values of financial instruments presented above are not necessarily indicative of amounts the Company might realize in actual market transactions. Estimates of fair value are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

(21) New Accounting Pronouncements

In December 2007, the FASB issued SFAS No. 141R, *Business Combinations*, which changes how business acquisitions are accounted. SFAS No. 141R requires the acquiring entity in a business combination to recognize all (and only) the assets acquired and liabilities assumed in the transaction and establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed in a business combination. Certain provisions of this standard will, among other things impact the determination of acquisition-date fair value of consideration paid in a business combination (including contingent consideration): exclude transaction costs from acquisition accounting; and change accounting practices for acquired contingencies, acquisition-related restructuring costs, in-process research and development, indemnification assets, and tax benefits. For the Company, SFAS No. 141R is effective for business combinations and adjustments to an acquired entity's deferred tax asset and liability balances occurring after December 31, 2008. The Company is currently evaluating the future impacts and disclosures of this standard.

In February 2007, the Financial Accounting Standards Board (FASB) issued Statement of Accounting Standard No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities - Including an amendment of FASB Statement No. 115 (Statement 159)*. This Statement permits entities to choose to measure many financial instruments and certain other items at fair value and report unrealized gains and losses on these instruments in earnings. Statement 159 is effective as of January 1, 2008. The Company does not expect any material financial statement implications relating to the adoptions of this Statement.

In September 2006, the FASB issued Statement of Accounting Standards No. 157, *Fair Value Measurements (Statement 157)*. Statement 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. Statement 157 applies under other accounting pronouncements that require or permit fair value measurements, the Board having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, Statement 157 does not require any new fair value measurements. However, for some entities, the application of Statement 157 will change current practice. Statement 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within these fiscal years. In February 2008,

the FASB issued Staff Positions No. 157-1 and No. 157-2 which partially defer the effective date of SFAS No. 157 for one year for certain nonfinancial assets and liabilities and remove certain leasing transactions from its scope. We are assessing the impact of Statement 157, which we do not expect to have an impact on our financial position, results or operations or cash flows.

Management's Report on Internal Control Over Financial Reporting

The management of Lamar Media Corp. is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) and 15d-15(f) under the Exchange Act.

Lamar Media's management assessed the effectiveness of Lamar Media's internal control over financial reporting as of December 31, 2007. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal-Control Integrated Framework. Based on this assessment, Lamar Media's management has concluded that, as of December 31, 2007, Lamar Media's internal control over financial reporting is effective based on those criteria.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

Lamar Media Corp.:

We have audited Lamar Media Corp.'s internal control over financial reporting as of December 31, 2007, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Lamar Media Corp.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based in the assessed risk. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Lamar Media Corp. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2007, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Lamar Media Corp. and subsidiaries as of December 31, 2007 and 2006, and the related consolidated statements of operations, stockholders' equity and comprehensive income, and cash flows for each of the years in the three-year period ended December 31, 2007 and the financial statement schedule as listed in the accompanying index, and our report dated February 27, 2008 expressed an unqualified opinion on those consolidated financial statements and schedule.

Lamar Media Corp.:

We have audited the consolidated financial statements of Lamar Media Corp. as listed in the accompanying index (the Company). In connection with our audits of the consolidated financial statements, we also have audited the financial statement schedule as listed in the accompanying index. These consolidated financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Lamar Media Corp. as of December 31, 2007 and 2006, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2007, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as whole, presents fairly, in all material respects, the information set forth therein.

As discussed in notes 1(j) and 14 to the consolidated financial statements, effective January 1, 2006, Lamar Media adopted Statement of Financial Accounting Standards No. 123 (revised), *Share-Based Payment*. As discussed in note 15 to the consolidated financial statements, the Company changed its method of quantifying errors in 2006.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Lamar Media Corp.'s internal control over financial reporting as of December 31, 2007, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated February 27, 2008 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

(6) Income Taxes

In July 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* an *Interpretation of FASB Statement No. 109* (FIN 48). FIN 48 prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. In addition, it provides guidance on the measurement, derecognition, classification and disclosure of tax positions, as well as the accounting for related interest and penalties. FIN 48 is effective for fiscal years beginning after December 15, 2006. We are required to record the impact of adopting FIN 48 as an adjustment to the January 1, 2007 beginning balance of retained earnings rather than our consolidated statement of income.

Table of Contents**LAMAR MEDIA CORP.
AND SUBSIDIARIES****Notes to Consolidated Financial Statements****(Dollars in thousands, except share and per share data)**

We adopted the provisions of FIN 48 on January 1, 2007. A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows (amounts in thousands):

Balance of January 1, 2007	\$ 595
Plus: additions based on tax positions related to the current year	47
Plus: additions for tax positions of prior years	145
Less: reductions made for tax positions of prior years	
Settlements	
Balance of December 31, 2007	\$ 787

Included in the balance of unrecognized benefits as of December 31, 2007, are \$787 of tax benefits that, if recognized in future periods, would impact our effective tax rate.

To the extent penalties and interest would be assessed on any underpayment of income tax, such amounts have been accrued and included in our accrued current tax liability in our consolidated balance sheets. This is an accounting policy election we made that is a continuation of our historical policy and we intend to continue to consistently apply the policy in the future. During 2007, we accrued \$145 in gross interest and penalties.

In addition, we are subject to both income taxes in the United States and in many of the 50 individual states. In addition, the Company is subject to income taxes in Canada and in the Commonwealth of Puerto Rico. We are open to examination in United States and in various individual states for tax years ended December 2004 through December 2006. We are also open to examination for the years ended 2002-2003 resulting from net operating losses generated and available for carry forward from those years.

We do not anticipate a significant change in the balance of unrecognized tax benefits within the next 12 months.

As of December 31, 2007 and December 31, 2006, Lamar Media had income taxes payable of \$12,853 and \$21,925, respectively, which is included in accrued expenses on the balance sheet.

Income tax expense (benefit) for the years ended December 31, 2007, 2006 and 2005, consists of:

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible.

Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes it is more likely than not that Lamar Media will realize the benefits of these deductible differences. The amount of the deferred tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

(7) Related Party Transactions

Affiliates, as used within these statements, are persons or entities that are affiliated with Lamar Media Corp. or its subsidiaries through common ownership and directorate control.

ITEM 9A. CONTROLS AND PROCEDURES

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures.

The Company's and Lamar Media's management, with the participation of the principal executive officer and principal financial officer of the Company and Lamar Media, have evaluated the effectiveness of the design and operation of the Company's and Lamar Media's disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended, as of December 31, 2006. Based on this evaluation, the principal executive officer and principal financial officer of the Company and Lamar Media concluded, as of December 31, 2007, that these disclosure controls and procedures are effective and designed to ensure that the information required to be disclosed in the Company's and Lamar Media's reports filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the requisite time periods.

Management's Report on Internal Control Over Financial Reporting

Lamar Advertising Company

The Company's Management Report on Internal Control Over Financial Reporting is set forth on page 32 of this combined Annual Report and is incorporated herein by reference.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. A control system, no matter how well designed and operated, can provide only reasonable assurance with respect to financial statement preparation and presentation. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Lamar Media Corp.

Lamar Media's Management Report on Internal Control Over Financial Reporting is set forth on page 61 of this combined Annual Report and is incorporated herein by reference.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements.
