Warrants

Shares Underlying:	Each Warrant may be exercised for 16.6667 shares of common stock, subject to adjustment as described in the Preliminary Prospectus Supplement.
Exercise Price:	\$6.00 per share of common stock, subject to adjustment.
Expiration Date:	November 16, 2013.
Ownership Limitations:	The Warrant Agreement provides that the Warrants are not exercisable such that the Warrant holder would become the holder of 5.0% or more of our outstanding common stock unless such Warrant holder either (i) is an institutional investor under the gaming regulations of the State of Pennsylvania or (ii) has complied with any license requirements, or obtained a waiver from the licensing requirements, under the State of Pennsylvania.

Exercise and Registration

To deliver shares upon any cash exercise of warrants, the Issuer will need to have an effective registration statement and be able to deliver a prospectus. The Issuer has agreed to use its commercially reasonable efforts to keep a registration statement effective, subject to certain blackout periods, but it cannot be certain that it will be able to do so. If you exercise your warrants by paying cash for the exercise price during a blackout period or other period in which a registration statement is not effective, you will not be able to receive registered shares and may not be able to receive any shares (including unregistered shares). A registration statement is not required to deliver registered shares upon (1) exercise of warrants by using the Series A preferred shares to pay the exercise price or (2) cashless exercise of warrants by withholding shares of common stock to pay the exercise price (net share settlement).

Risks Related to Pennsylvania Gaming Regulations

Under the Pennsylvania Race Horse Development and Gaming Act, or the Gaming Act, any person who holds a controlling interest in our outstanding voting securities may be required to be licensed by the Pennsylvania Gaming Control Board, or the PaGCB. Pursuant to the Gaming Act, any person who holds 5% or more of our outstanding voting securities is presumed to hold a controlling interest in our voting securities. In the absence of a waiver or other exemption, that holder will be required to obtain a principal's license. Licensing requires, among other things, that the applicant establish by clear and convincing evidence the applicant's good character, honesty and integrity. Pursuant to the terms of the Series A preferred stock, if any holder of shares of Series A preferred stock acquires voting rights as a result of a default in the payment of dividends on the Series A preferred stock or other corporate actions by us, that holder will become subject to these regulations and be required either to file an application for a principal's license or to file for a waiver, including a waiver as an institutional investor if the holder meets the definition of institutional investor set forth below, if the shares of Series A preferred stock, combined with any other voting stock held by that holder represent 5% or more of our total outstanding voting securities. In addition, any beneficial owner of any of our securities, regardless of the number of securities beneficially owned, may be required at the discretion of the PaGCB

to file an application for licensure or, alternatively, file a waiver application.

Any holder of our voting securities that is an institutional investor, which is generally defined under the Gaming Act as any retirement fund administered for federal, state or local employees, registered investment companies, collective investment trust organized by banks, closed end investment trust, chartered or licensed life or property and casualty insurance company, banking and other chartered or licensed lending institution, registered investment advisor and any other person that the PaGCB may determine consistent with the Gaming Act, and owns 5% or more, but less than 10% of our outstanding voting securities, that holder will be eligible to receive a waiver of the licensing requirements as a principal by requesting a waiver on a form prescribed by the PaGCB that includes a certification that it is a passive investor with no intention of influencing or affecting, directly or indirectly, the affairs of the Company.

The warrant agreement governing the warrants to be issued in this offering provides that the warrants are not exercisable such that the warrant holder would become the holder of 5.0% or more of our outstanding common stock unless such warrant holder either (i) is an institutional investor under the Gaming Act or (ii) has complied with any license requirements, or obtained a waiver from the licensing requirements, under the Gaming Act.

Concurrent Offering

Concurrent Units Offering:

The Issuer is also offering units comprised of 5,250,000 shares of 10% Series A Preferred Stock and accompanying Warrants to purchase shares of our common stock to a member of the Adelson family. The preferred stock and warrants will contain substantially the same terms as the preferred stock and warrants offered to the public.

Concurrent Units Offering Price:

\$100 per unit, for an aggregate price of \$525,000,000

Conversion of Convertible Senior Notes:

Concurrently with the offering of the Series A Preferred Stock and Warrants to the public, we will enter into a Note Conversion and Securities Purchase Agreement with Dr. Miriam Adelson, the wife of Sheldon G. Adelson, our principal stockholder, chairman and chief executive officer, pursuant to which Dr. Adelson will convert upon the closing of this offering the \$475.0 million in aggregate principal amount of convertible senior notes that she purchased from us on September 30, 2008, into approximately 86,363,636 shares of our common stock pursuant to the terms of the indenture governing the convertible senior notes at a conversion price of \$5.50 per share.

Additional Information

Use of Proceeds:

We estimate that the net proceeds from the sale of the Series A Preferred Stock and warrants will be approximately \$503 million, after deducting the underwriter's discounts and commissions and estimated offering expenses. We estimate that the net proceeds from the sale of our common stock (other than upon the exercise of the warrants) will be approximately \$959 million after deducting the underwriter's discounts and commissions and estimated offering expenses, and approximately \$1,055 million if the underwriter's

option to purchase additional shares of common stock is exercised in full. We estimate that the net proceeds from the sale of the Series A Preferred Stock and warrants to a member of the Adelson family will be approximately \$524.5 million, after deducting estimated offering expenses. We could receive proceeds of up to approximately \$1,044.6 million from the issuance of shares of our common stock upon the exercise of the warrants offered in this offering if the holders of such warrants (including Dr. Adelson) elect to exercise the cash settlement feature.
